Land and Livestock Holdings Survey: NSS 48th Round : January - December 1992:Visit-1

Overview	
Type	Socio-Economic/Household Survey
Identification	DDI-IND-MOSPI-NSSO-48Rnd-Sch18dot1-visit1-1992
Version	Production Date: 2012-08-15 V1.0; Re-organised anonymised dataset for public distribution.
Series	<p>The survey on Land and Livestock Holdings carried out in the forty-eighth round (January-December 1992) of the National Sample Survey Organization (NSSO) is the fifth in the series of similar surveys conducted so far by the NSSO.</p> <p>The first survey on land holdings was taken up by the NSS in its eighth round (July '54-April '55) as part of the World Agricultural Census initiated by the Food & Agricultural Organisation (FAO) of the United Nations. In this survey, information on (agricultural) holdings was collected mainly to meet the requirements of the FAO. In addition, information on household ownership holdings was collected to provide the policy framers with the much needed data for formulating land reforms policy for the country. A similar survey was conducted again in the sixteenth (July '60 - August '61) and seventeenth (September '61 - July '62) rounds of the NSS as a part of the World Agricultural Census Programme of 1960.</p> <p>Since then, NSSO has been regularly conducting Land Holdings survey every ten years. The third Land Holdings survey, conducted in its twenty-sixth round (July '71 - June '72), was integrated with a survey on Debt and Investment at the instance of the Reserve Bank of India. The present enquiry, as well as the fourth survey of the series conducted in the thirty-seventh round (January - December '82), essentially repeat the twenty-sixth round survey with some modifications in item coverage and the method of data collection.</p>
Abstract	
<p>The survey on Land and Livestock Holdings carried out in the forty-eighth round (January-December 1992) of the National Sample Survey Organization (NSSO) is the fifth in the series of similar surveys conducted so far by the NSSO. The objective of these surveys has been to generate the basic quantitative information on the agrarian structure of the country, which is relevant to land policy. A large part of the information is collected mainly along the lines suggested in World Agricultural Census Programme of the Food and Agricultural Organisation (FAO) and thus serves the purpose of international comparison as well.</p> <p>In the present Land and Livestock Holdings survey of the NSSO, two types of holdings, namely, household ownership holdings and operational holdings, are enumerated by interviewing the sample households. Data are collected on the size (in terms of area), type, utilisation, tenurial status and other related aspects of both types of holdings.</p> <p>The information for Land and Livestock holdings survey was collected from a sample of households by interview method. Each sample household was visited twice during the period of survey with a gap of four to eight months. Two different schedules of enquiry were canvassed in the two visits.</p>	
Kind of Data	Sample survey data [ssd]
Unit of Analysis	Randomly selected households based on sampling procedure.

Scope & Coverage

Scope

In the 48th round, information on various aspects of ownership and operational holdings was collected for both rural and urban areas.

Particulars of land owned, land leased out, types and terms of lease formed the main body of information for the study of ownership holdings. Further, particulars of land leased in were also collected to ascertain the land possessed by the households. For the operational holdings, data on size, composition, tenurial form, land use, extent of irrigation by source, fragmentation of holding, drainage facilities and other related aspects of holdings were collected. Since livestock and agricultural machinery form the basic resources for agricultural operations, an inventory of these assets owned by the households on the date of survey was also obtained.

In the land holdings part of the survey, data collected on ownership and operational holdings. Particulars of land owned and land leased-out by terms of lease and type of lessee, together with area of land owned by type of land, were collected plot wise for each ownership holding. Besides these, particulars of land leased-in was also collected from each sample household. As for the operational holdings, information on their size, composition, tenurial form, land use, fragmentation, irrigation practices, drainage drain age facilities and agricultural activities were collected for each agricultural season as well as the agricultural year 1991-92. In the part relating to livestock holding, an inventory of livestock and agricultural machinery were taken from each sample household. In addition to the particulars of land and livestock holdings, information were also collected on exploitation of trees owned by the sample households.

STRUCTURE OF THE SCHEDULE: As stated in the preceding paragraphs, the survey was conducted in two visits and some items of information were collected in only one of them. The schedules of enquiry for the two visits are structured accordingly. In all, the schedule consists of 19 blocks (including two sub-blocks). Of these, blocks 0 to 4 and 10 were common to the schedules for both the visits and had exactly the same formats. However, since block 10 was meant for recording some auxiliary information about operational holdings of an agricultural season, it had Kharif and Rabi seasons as the reference periods in visit one and two respectively. Blocks 5 and 9 also appear in the schedules for both the visits, but their formats were not the same. Of the remaining blocks, six appear only in the schedule for visit-1 and five (including two sub-blocks) in only that for visit-2.

Geographic Coverage

The forty-eighth round was planned to cover the whole of Indian Union excepting

- (i) Ladakh and Kargil districts of Jammu & Kashmir; (ii) 768 interior villages of Nagaland (out of a total of 1119 villages) located beyond 5 kms. of a bus route,
- (iii) 172 villages in Andaman & Nicobar Islands (out of a total of 520 villages) which are inaccessible throughout the year.

However, the survey could not be conducted in six districts of Jammu & Kashmir viz., Anantnag, Pulwana, Srinagar, Badgam, Baramula and Kupwara, and in the district of Amritsar in Punjab due to unfavourable field conditions.

Sampling

Sampling Procedure

The sample design adopted for the survey was essentially a stratified two stage design, with census villages and urban blocks as first stage units (FSUs) for the rural and urban sectors respectively, and households as the second stage sampling units (SSUs) in both the sectors. The selection of villages was done with probability proportional to population (with replacement), mainly based on the 1981 census list of villages. The selection of urban blocks was done with equal probability without replacement based on Urban Frame Survey (UFS) conducted by the NSSO as an on-going activity. The details of sample design and estimation procedure adopted for the survey are given in chapter-2 of the Report 407 attached as external attachment.

Deviations from Sample Design

There was no deviation from the original sample deviation.

Response Rate

In all 9052 villages were planned to be surveyed in this round. Of these, 4328 villages were allocated to the central sample - the part surveyed mainly by the NSSO field staff - and the rest to the state sample - the part surveyed by the state agencies. In the urban sector, the allocations for the central and state samples were 2484 and 3076 blocks respectively.

The number of villages and urban blocks actually surveyed under the central sample was 4231 and 2420 respectively.

Sample size - second stage units :Plan was to survey 8 households from each sample village and 9 households from each sample urban

block. In the central sample, the actual number of households surveyed was 33289 in the rural sector and 20592 in the urban sector.

Weighting

Sample weights were calculated and included in each of the data files

Variable 'Wgt_SS' refers to Multiplier for each Subsample.

Variable 'Wgt_Combined' refers to Combined Multiplier.

Data Collection

Data Collection Mode	Face-to-face [f2f]
-----------------------------	--------------------

Data Collection Notes

The survey period for the forty-eighth round survey was the calendar year 1992. In order to reduce recall error, particulars relating to the entire agricultural year were collected by visiting each sample household twice during the survey period. The first visits to the sample households were made during January to August, while the second visits were made during September to December. The longer period for the first visit reflected the higher workload for the field staff during this visit compared to the second visit.

The information on holdings operated during the Kharif season of the agricultural year 1991-92 was collected in first visit, while that on holdings operated during the Rabi season was collected in the second visit. In addition, particulars of operational holdings with the agricultural year 1991-92 as the reference period were also collected in the second visit.

Questionnaires

STRUCTURE OF THE SCHEDULE: As already stated , the survey was conducted in two visits and some items of information were collected in only one of them. The schedules of enquiry for the two visits were structured accordingly. In all, the schedule consisted of 19 blocks (including two sub-blocks). Of these, blocks 0 to 4 and 10 were common to the schedules for both the visits and had exactly the same formats. However, since block 10 is

meant for recording some auxiliary information about operational holdings of an agricultural season, it had Kharif and Rabi seasons as the reference periods in visit one and two respectively. Blocks 5 and 9 also appeared in the schedules for both the visits, but their formats were not the same. Of the remaining blocks, six appeared only in the schedule for visit-1 and five (including two sub-blocks) in only that for visit-2. The detailed structures of the visit-1 and visit-2 schedules, along with the reference periods are indicated below:-

 Block block heading appearing in reference
 no. the schedule for date/period

(1) (2) (3) (4)

0 - descriptive identification of sample household visit 1 & 2 -
 1 - identification of sample household visit 1 & 2 -
 2 - particulars of field operation visit 1 & 2 -
 3 - remarks by investigator visit 1 & 2 -
 4 - remarks by supervisory officer(s) visit 1 & 2 -
 5 - household characteristics visit 1 & 2(different formats) various
 5.1 -particulars of partitioned households visit 2 only Rabi
 6 - household members & their activity particulars visit 1 only various
 7 - particulars of area owned(other than homestead visit 1 only date of survey
 land) and particulars of area leased out by the
 household as on the date of survey
 8 - particulars of area leased in/otherwise possessed visit 1 only date of survey
 (other than homestead land) by the household.
 9 - particulars of plots possessed by operational visit 1 Kharif
 holding during major part of Kharif/Rabi visit 2 Rabi
 (different formats)
 9.1 - particulars of plots included in operational visit 2 only Rabi
 holding of Kharif but not in rabi
 10 - some general information of operational holdings visit 1 Kharif
 for Kharif/rabi visit 2 Rabi
 11 - number of cattle and buffaloes owned visit 1 only date of survey
 12 - number of other livestock & poultry owned visit 1 only date of survey
 13 - particulars of agricultural machinery and visit 1 only date of survey
 implements owned on the date of survey
 14 - particulars of plots possessed by operational visit 2 only agr. year
 holding no..during major part of 1991-92
 15 - some general information of operational holdings visit 2 only agr. year
 for agri-cultural year 1991-92
 16 - ownership and exploitation of trees visit 2 only date of survey & 365 days
 preceding the date of survey.

Files Description

Dataset contains 9 file(s)

Block-1-5-visit-1-Household-characteristics-Records	
# Cases	53881
# Variable(s)	45
File Structure	Type: relational Key(s): HH_key (Key to locate Household)
File Content This dataset of visit-1 contained identification particulars of the sample household and information on some important household characteristics.	
Producer NSSO	

Block-6-visit-1-H08sehold-members-activity-particulars-records	
# Cases	294605
# Variable(s)	27
File Structure	Type: relational Key(s): Prsn_key (Key to locate Person) , HH_key (Key to locate Hhold)
File Content This dataset contained Demographic particulars, viz. relation to head, age, sex, general education and usual activity particulars for every member, using one line for each.	
Producer NSSO	

Block-7-visit-1-particulars-of area owned-leassed-out records	
# Cases	115463
# Variable(s)	34
File Structure	Type: relational Key(s): Plot_key (Key to locate Plot number) , HH_key (Key to locate Household)
File Content This dataset contained an inventory of plots owned as on the date of survey by the normal members of the household. However, the area already accounted or as homestead land in item 6 of block 5 were not included here.	
Producer NSSO	
Notes It may be noted that plot number key variable contains about 396 cases.	

Block-8-visit-1-Particulars-area-leased-in-otherwise-possested-records	
# Cases	12655

# Variable(s)	33
File Structure	Type: relational Key(s): Plot_key (Key to locate Plot Number) , HH_key (Key to locate Household)
File Content Particulars of land leased in and land possessed but neither owned nor leased in (otherwise possessed) by the household as on the date of survey contained in this dataset. However, the area leased in/otherwise possessed land already accounted for as homestead land in item 6 of block 5 were not included here.	
Producer NSSO	

Block-9-visit-1-Particulars-of-plots-KHARIF-records	
# Cases	149183
# Variable(s)	45
File Structure	Type: relational Key(s): Plot_key (Locate Plot number) , HH_Key (Locate Household)
File Content The particulars of plot wise holding operated by the household were contained in this dataset.The reference period was the kharif season of the agricultural year 1991-92.	
Producer NSSO	

Block-10-visit-1-General-information-operational-holdings-KHARIF-records	
# Cases	33541
# Variable(s)	37
File Structure	Type: relational Key(s): Oper_holdng_key (Key to Locate operational Holding) , HHold_key (Key to Locate household)
File Content This dataset contained some general information on the operational holdings operated individually or jointly by the household.The information related to the holdings operated in KHARIF season of agricultural year 1991-92.	
Producer NSSO	

Block-11-visit-1-Cattle-buffalo-owned-household-records	
# Cases	30689
# Variable(s)	29
File Structure	Type: relational Key(s): Bovine_key (Key to locate Bovine no.) , HH_key (Key to locate Household)
File Content The number of cattle and buffaloes owned by the household on the date of survey contained in this dataset	
Producer NSSO	

Block-12-visit-1-Livestock-poultry-owned-houshold-records	
# Cases	15482
# Variable(s)	34
File Structure	Type: relational Key(s): HHold_key (Key to locate household)
File Content This dataset contained the number of different varieties of poultry and livestock, other than cattle and buffaloes, owned by the household on the date of survey.	
Producer NSSO	

Block-13-visit-1-Agricultural-Machinery-implements-owned-records	
# Cases	31809
# Variable(s)	37
File Structure	Type: relational Key(s): Hhold_key (Key to locate household)
File Content This dataset contained inventory of agricultural machinery and implements owned by the household on the date of survey.	
Notes It may be noted that Household number key variable contains about 441 cases.

File Block-1-5-visit-1-Household-characteristics-Records			
#14 H_No: Sample HH No.			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=53881 /-] [Invalid=0 /-]		
#15 B1_q16: Informant's relation to head			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=53872 /-] [Invalid=0 /-]		
Interviewer's instructions	The relationship of the principal informant (i.e. the person providing the bulk of the information) to the head of the household is to be recorded against this item in terms of codes.		
Value	Label	Cases	Percentage
1	head of household	39329	73.0%
2	other member of the household	13100	24.3%
8	Invalid	9	0.0%
9	others	1434	2.7%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
#16 B1_q17: Response code			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=53870 /-] [Invalid=0 /-]		
Interviewer's instructions	The entry against this item is to be made after collecting all the required information for all the items in the schedule. The entry will be made in terms of codes on the basis of the impression formed by the investigator regarding the overall quality of response of the informant.		
Value	Label	Cases	Percentage
1	(informant) co-operative and capable	41134	76.4%
2	(informant) co-operative but not capable	11185	20.8%
3	(informant) busy	616	1.1%
4	(informant) reluctant	853	1.6%
9	others	82	0.2%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
#17 B1_q18: Survey code			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=53819 /-] [Invalid=0 /-]		
Interviewer's instructions	This item is meant for recording whether the originally selected household or a substitute household has been surveyed or no household could be surveyed. The entries will be made in terms of codes. In the visit-1 schedule, code '1' will be recorded when the originally selected household is surveyed and code '2' will be recorded when a substitute household is surveyed. If neither the originally selected household nor a substitute household is surveyed, i.e. if the sample household is a casualty, code '3' will be recorded. In case of casualty, only the blocks 0 to 4 are to be filled in and the word 'CASUALTY' is to be written in block capitals on the top of the front page of the schedule.		
Value	Label	Cases	Percentage
1	originally selected household is surveyed	52605	97.7%
2	substitute household is surveyed	1204	2.2%
3	sample household is a casualty	0	0.0%
9	Invalid	10	0.0%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
#18 B1_q19: Reason for substitution			
Information	[Type= discrete] [Format=character] [Missing=*]		

File Block-1-5-visit-1-Household-characteristics-Records

#18 B1_q19: Reason for substitution

Statistics [NW/ W] [Valid=1204 /-] [Invalid=0 /-]

Interviewer's instructions When the originally selected household cannot be surveyed, irrespective of whether a substituted household can be surveyed or not, the reason for the originally selected household becoming a casualty will be recorded against this item in terms of codes.

Value	Label	Cases	Percentage
0	NR	5	0.4%
1	informant busy	137	11.4%
2	members away form home	782	65.0%
3	informant non-cooperative	184	15.3%
8	Invalid	13	1.1%
9	others	83	6.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#19 dd_mm_yy: Date of Survey

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=53586 /-] [Invalid=0 /-]

#20 B5_q1: Size

Information [Type= continuous] [Format=numeric] [Range= 1-46] [Missing=*]

Statistics [NW/ W] [Valid=53881 /-] [Invalid=0 /-] [Mean=5.468 /-] [StdDev=3.07 /-]

Literal question HOUSEHOLD SIZE

Interviewer's instructions The size of the sample household, i.e. the total number of persons normally residing together (under the same roof) and taking food from the same kitchen (including temporary stay-aways and excluding temporary visitors), will be recorded against this item. The entry against this item will be the last serial number recorded in col. (1) of block 6.

#21 B5_q2_new: Household Type Recoded

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=53881 /-] [Invalid=0 /-]

Interviewer's instructions Each of the sample households will be assigned a 'type' code, which will be recorded against this item. For the rural areas, a household's total income earned during the 365 days preceding the date of survey from gainful activities pursued by the members of the household (excluding domestic servants, paying guests etc.) .Next, the 'type code of the household will be assigned on the basis of shares of income In the urban areas also, the 'type' of a household will be determined on the basis of the total income of all the household members. This code has been further recoded as a digitated code by concatenating Sector code and type code.

Value	Label	Cases	Percentage
10	NR(RURAL)	20	0.0%
11	self-employed in non-agriculture(rural)	3503	6.5%
12	agricultural labour(rural)	6014	11.2%
13	other labour(rural)	1991	3.7%
14	self-employed in agricultural(rural)	18989	35.2%
19	others(rural)	2772	5.1%
20	NR(Urban)	3	0.0%
21	Self – employed(urban)	7629	14.2%
22	Regular wage/salaried employment(urban)	8831	16.4%
23	Casual labour(urban)	2341	4.3%
29	Others(Urban)	1788	3.3%

File Block-1-5-visit-1-Household-characteristics-Records

#21 B5_q2_new: Household Type Recoded

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#22 B5_q3: Industry occupation

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=52317 /-] [Invalid=0 /-]
Literal question	HOUSEHOLD INDUSTRY- OCCUPATION
Interviewer's instructions	Three digit level industry (NIC 1987) and occupation (NCO 1968) codes for the household are to be recorded in the box spaces provided. The industry code will be recorded in the left most three box spaces followed by the occupation code.

#23 B5_q4: Social group code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=53880 /-] [Invalid=0 /-]
Interviewer's instructions	Whether the household belongs to a scheduled tribe or a scheduled caste will be indicated by a code against this item. A household will be classified as scheduled tribe/ schedule caste if the head of the household belongs to any scheduled tribe/scheduled caste community. All the remaining households will be considered to belong to the group 'others'.

Value	Label	Cases	Percentage
1	scheduled tribe	6388	11.9%
2	scheduled tribe/neo-Buddhist	7790	14.5%
9	Others	39702	73.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#24 B5_q5: Whether HH possesses homestead land

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=53878 /-] [Invalid=0 /-]
Definition	<p>Homestead of a household is defined as the dwelling house of the household together with the courtyard, compound, garden, out-house, place of worship, family graveyard, guest house, shop, workshop and offices for running household enterprises, tanks, wells, latrines, drains and boundary walls annexed to the dwelling house. All land coming under homestead was defined as homestead land.</p> <p>Homestead may constitute only a part of a plot. Sometimes, gardens, orchards or plantations, though adjacent to the homestead and lying within the boundary walls, may be located on a clearly distinct piece of land. In such cases, land under garden, orchard or plantation was not considered as homestead land.</p>
Interviewer's instructions	First, it will be ascertained whether the household possess homestead land or not. Code '1' will be recorded if the household possess homestead on the date of survey, otherwise code '2' will be entered in this item.

Value	Label	Cases	Percentage
1	Yes	53464	99.2%
2	No	414	0.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#25 B5_q6: If yes, area of homestead land (0.00 acres)

Information	[Type= continuous] [Format=numeric] [Range= 0-70.05] [Missing=*]
Statistics [NW/ W]	[Valid=53150 /-] [Invalid=731 /-] [Mean=0.0884 /-] [StdDev=0.477 /-]
Interviewer's instructions	If the household is found to possess homestead, then the area of the homestead land, will be ascertained from the respondent and recorded in acres rounded off to two places of decimal.

File Block-1-5-visit-1-Household-characteristics-Records

#26 B5_q7: Possession type of homestead land

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=53880 /-] [Invalid=0 /-]
Interviewer's instructions	The type of possession of the homestead will be recorded against item 7, in terms of codes.

Value	Label	Cases	Percentage
1	owned	41916	77.8%
2	Leased – in	8863	16.4%
3	otherwise possessed (possessed but neither owned not leased – in)	3101	5.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#27 B5_q8: Whether HH own any land other than homestead

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=53783 /-] [Invalid=0 /-]
Interviewer's instructions	It will be enquired from the respondent whether the household owns any land (other than homestead) on the date of survey. If the answer is in the affirmative, code '1' will be recorded in item 8, otherwise the entry will be '2'.

Value	Label	Cases	Percentage
0	NR	3	0.0%
1	Yes	29988	55.8%
2	No	23789	44.2%
9	Invalid	3	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#28 B5_q9: If yes,area owned other than homestead(0.00 acres)

Information	[Type= continuous] [Format=numeric] [Range= 0-855.02] [Missing=*]
Statistics [NW/ W]	[Valid=30091 /-] [Invalid=23790 /-] [Mean=5.427 /-] [StdDev=11.001 /-]

#29 B5_q10: Whether land leased-out

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=53800 /-] [Invalid=0 /-]
Interviewer's instructions	whether the household has leased-out any land as on the date of survey. Entries of code '1' or '2' will be made depending upon whether the answer to the respective question is in affirmative or not.

Value	Label	Cases	Percentage
0		7	0.0%
1	Yes	3409	6.3%
2	No	50376	93.6%
9	Invalid	8	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#30 B5_q11: If yes, area leased-out (0.00 acres)

Information	[Type= continuous] [Format=numeric] [Range= 0-522.52] [Missing=*]
Statistics [NW/ W]	[Valid=3449 /-] [Invalid=50432 /-] [Mean=2.995 /-] [StdDev=10.659 /-]

#31 B5_q12: Whether any land other than homestead,leased-in

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=53798 /-] [Invalid=0 /-]

File Block-1-5-visit-1-Household-characteristics-Records

#31 B5_q12: Whether any land other than homestead,leased-in

Interviewer's instructions whether the household has leased-in any land as on the date of survey. Entries of code '1' or '2' will be made in depending upon whether the answer to the respective question is in affirmative or not.

Value	Label	Cases	Percentage
0	NR	2	0.0%
1	Yes	3997	7.4%
2	No	49799	92.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#32 B5_q13: If yes, area leased in (0.00 acres)

Information [Type= continuous] [Format=numeric] [Range= 0-117] [Missing=*

Statistics [NW/ W] [Valid=4027 /-] [Invalid=49854 /-] [Mean=2.809 /-] [StdDev=5.277 /-]

#33 B5_q14: Whether otherwise possessed

Information [Type= discrete] [Format=character] [Missing=*

Statistics [NW/ W] [Valid=53833 /-] [Invalid=0 /-]

Interviewer's instructions whether the household has possessed any land which is neither owned nor leased-in as on the date of survey. Entries of code '1' or '2' will be made , depending upon whether the answers to the question is in affirmative or not.

Value	Label	Cases	Percentage
0	NR	4	0.0%
1	Yes	1117	2.1%
2	No	52710	97.9%
9	Invalid	2	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#34 B5_q15: If yes, area otherwise possessed (0.00 acres)

Information [Type= continuous] [Format=numeric] [Range= 0-44] [Missing=*

Statistics [NW/ W] [Valid=1169 /-] [Invalid=52712 /-] [Mean=1.713 /-] [StdDev=3.322 /-]

#35 B5_q16: Whether HH has domestic servant, paying-guest etc.

Information [Type= discrete] [Format=character] [Missing=*

Statistics [NW/ W] [Valid=53777 /-] [Invalid=0 /-]

Interviewer's instructions The object of including these three items (Q16,q17,q18) is to find out the area of land owned by the household members who are non-relatives of the head, like domestic servants, paying guests etc. Code '1' will be recorded in q16, if there is any 'non-relative' among the members of the household. Otherwise, entry in q16 will be '2'. When there is a non-relative' household members, it will be further ascertained whether he/she owns any land, if any 'non-relative' member of the household owns any land, the entry in q17 will be '1'. Otherwise the entry will be '2'. q 17 will not be filled in when there is '2' in q 16.

If any 'non-relative' household member is reported to own some land, i.e. if entry in q 17 is '1', the total area of land owned by all the 'non-relative' members of the household will be recorded in q18 in 0.00 acres. Note that since all land owned by the 'non-relatives' is also treated as under the household's ownership in this survey, the area of land owned by the household (other than homestead) to be recorded in q9 should be inclusive of land owned b the 'non-relatives'.

Value	Label	Cases	Percentage
0	NR	2	0.0%
1	Yes	799	1.5%
2	No	52974	98.5%
9	Invalid	2	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

File Block-1-5-visit-1-Household-characteristics-Records			
#36 B5_q17: If yes, whether they own any land			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=1 /-] [Invalid=0 /-]		
Interviewer's instructions	As given in Q.16		
Value	Label	Cases	Percentage
1	Yes	0	0.0%
2	No	1	100.0%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
#37 B5_q18: If Yes,area owned by them (0.00 acres)			
Information	[Type= continuous] [Format=numeric] [Range= 0-13.2] [Missing=*]		
Statistics [NW/ W]	[Valid=124 /-] [Invalid=53757 /-]		
Interviewer's instructions	As given in Q.16		
#38 B5_q19: Land not available for crop prodn (0.00 acres)			
Information	[Type= continuous] [Format=numeric] [Range= 0-124.8] [Missing=*]		
Statistics [NW/ W]	[Valid=35377 /-] [Invalid=18504 /-] [Mean=0.346 /-] [StdDev=1.942 /-]		
Literal question	LAND OWNED AND RETAINED BUT NOT AVAILABLE FOR CROP PRODUCTION		
Interviewer's instructions	The total area owned by the household may not be considered available for crop-production. In fact, only the area of land types 'seasonal crops', 'orchards' and 'plantations' constitute area available for crop-production. The area of all land other than that for crop production owned and retained by the household on the date of survey will be recorded in q19 in 0.00 acres. However, care should be taken to exclude area of other fallows while making entry in this item.		
#39 B5_q20: Crop Production in Kitchen garden			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=53430 /-] [Invalid=0 /-]

#43 B5_q24: Whether Agrl. production carried-out/intended in any season

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=53535 /-] [Invalid=0 /-]

Interviewer's instructions This item is meant for recording whether the household has undertaken any agricultural production in the two seasons of the agricultural year 1991-92. However, some of the households, especially those visited at the beginning of the survey period, will not be in a position to report about agricultural production in the Rabi season. In such cases, the entry against this item will be based on whether the household intends to undertake agricultural production during Rabi season. The entry will be made in terms of codes

Value	Label	Cases	Percentage
1	Kharif only	8007	15.0%
2	Rabi only	586	1.1%
3	Both Kharif & Rabi	23158	43.3%
4	None	21778	40.7%
9	Invalid	6	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Interviewer's instructions
A continuous serial number for all the normally resident members of the sample household listed in this block is to be given in col. (1). While listing, the head of the household will be listed first followed by head's spouse, the first son, first son's wife and children, second son, second son's wife and children, etc. After the sons are enumerated, the daughters will be listed, followed by other relations, dependents, servants, etc.

#17 B6_c3: Relation to head

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=294585 /-] [Invalid=0 /-]

Interviewer's instructions
The family relationship of each member of the household with the head of the household (for the head, the relationship is 'self') expressed in terms of the specified codes will be recorded in this column.

Value	Label	Cases	Percentage
0	NR	7	0.0%
1	self	53865	18.3%
2	spouse of head	44386	15.1%
3	married child	16197	5.5%

#20 B6_c6: General education

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=294545 /-] [Invalid=0 /-]
Interviewer's instructions	<p>Information regarding the general education attained by the normal members of the household listed will be recorded in terms of the specified codes. For the purpose of making entries , only the course successfully completed will be considered. For instance, for a person who has studied up to first year B.A., his educational attainment will be considered only secondary/higher secondary(code '4'). Also, for a person who has studied up to 12th standard but has not sat for the final examination or has failed or even passed in the examination his/her educational attainment will be considered secondary/higher secondary (code '4').</p> <p>A person who can both read and write a simple message in at least one language is to be considered as literate. Thos who are not able to do so are to be considered 'not literate' and will be assigned code '1'. Those who are literate but never attended any school or attended or attending educational institution but are yet to pass primary standard will get code '2'. Codes '3', '4' and '5' will indicate the successive higher standards of education attained.</p>

Value	Label	Cases	Percentage
0	NR	4	0.0%
1	not literate	130045	44.2%
2	literate but below primary	54032	18.3%
3	primary and above but below secondary	69009	23.4%
4	secondary/higher secondary	29160	9.9%
5	graduate and above	12273	4.2%
9	Invalid	22	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#21 B6_c7: Whether can read?

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=129939 /-] [Invalid=0 /-]
Literal question	IF NOT LITERATE, WHETHER CAN READ
Interviewer's instructions	Will be filled in only for the persons who are 'not literate', i.e. those who are having entry '1' in c (6). A person is considered as 'not literate', if he/she cannot read or write. It is, therefore, possible that some of the persons considered 'not literate' can read a simple message in at least one language but cannot write. It is to be ascertained from those with code '1' in c (6) as to whether they can read a simple message in at least one language. If the answer is in affirmative, code '1' will be entered in c (7). Otherwise, code '2' is to be recorded.

Value	Label	Cases	Percentage
0	NR	35	0.0%
1	Yes	3221	2.5%
2	No	126644	97.5%
9	Invalid	39	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#22 B6_c8: Status (code)

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=294225 /-] [Invalid=0 /-]
Literal question	USUAL (PRINCIPAL ACTIVITY STATUS)

File Block-6-visit-1-H08sehold-members-activity-particulars-records

#22 B6_c8: Status (code)

Interviewer's instructions	Usual activity status of a person will be determined on this basis of the various activities pursued by the person during the reference period of 365 days adopting a "relatively long time (or major time)" criterion. The activities are grouped into three major categories : "working", "not working but seeking and/or available for work", and "neither working nor available for work". For determining the "usual principal activity status" of a person, he or she has to be first classified into any one of the above these broad category groups on the basis of the time spent on them during the reference period of 365 days. After deciding the broad usual activity status of the person, the detailed activity status within the broad group will be determined adopting again the "relatively long" or "major time" criterion. The detailed activity status, thus determined, will be the principal usual activity status of the person and the corresponding code (codes are given in the schedule below the block) will be recorded in c (8).

Information	[Type= continuous] [Format=numeric] [Range= 0-227] [Missing=*]
--------------------	--

File Block-7-visit-1-particulars-of area owned-leased-out records	
#22 B7_c8: With irrigation facility	
Statistics [NW/ W]	[Valid=50883 /-] [Invalid=64580 /-] [Mean=2.361 /-] [StdDev=4.101 /-]
Interviewer's instructions	Columns 8 to13 are meant for recording area of different types of land constituting the portion of the plot owned by the household. All the area figures to be recorded in these columns should be expressed in acres rounded off to two places of decimal. For each plot listed in the block, the portion of area owned by the household will be categorized under six types of land, viz. 'seasonal crop area with irrigation facilities', 'seasonal crop area without irrigation facilities', 'orchards' plantations & forests', 'water bodies', 'are put to other non-agricultural uses' and 'others'. For example, even if a piece of land, which is usually irrigated and is likely to be irrigated in the future, could not be irrigated during the last crop season, it will be treated as irrigated for this purpose. However, in case where the 'type' of a piece of land is reported to have changed in the recent past and the changed status is likely to continue in the future, the changed status will be considered to determine the type of land. For example, the area of a piece of land which is reported to have been converted from a seasonal crop area to an orchard in the recent part will be recorded under 'orchards' plantations and forest'. Similarly, 'current fallow' will always be treated as are under seasonal crops, while 'other fallows' will be so treated only if it is still considered as arable land by the respondent. It is to be specially noted that actually forested area under any legal enactment, area under farm-forestry and social forestry consisted in the portion of the plot owned by the household will be classified as 'orchards, plantations and forest'. Care should also be taken to ensure that the entries made in C (8) to (13) add up to the entry in C(7).

#28 B7_c14: Whether any part of land leased out	
Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=85303 /-] [Invalid=0 /-]
Interviewer's instructions	These columns (14) TO (19) are to be filled in only for the plots which are leased-out wholly or partly to others and, hence, not under the possession of the sample household on the date of survey. If no portion of the plot

File Block-7-visit-1-particulars-of area owned-leased-out records

#28 B7_c14: Whether any part of land leased out

owned by the household is leased out to others, c (15) to (19) will be left blank with code '2' in c. (14). Whenever the portion of the plot owned by the household, either wholly or partly, is found to be given on lease to others, code '1' will be recorded in c (14). In all such cases, the rest of the columns will be filled in as follows:

(i) The number of households to which the whole or a part of the plot owned by the household is leased out will be recorded in c (15). In most cases, the whole or a part of the portion of plot owned by the sample household will be found to have been leased out to a single household. Entry in c(15), in all such cases, will be '1'. On the rare occasions when it is leased out to two or more households, the number of lessee households, which will be more than one, will be entered in c (15) and for each lessee household a separate line will be filled in for cols. (1) and c(16) to (19). In such cases, the serial number of the plot will be repeated in col. (1) in each extra line meant for recording particulars of leased-out land to lessee household with serial number other than 1 in c (16).

(ii) In most cases, the entry in q. (16) will be '1', since number of lessee households will rarely be more than one. But when more than one lessee households is reported against a plot, a running serial number will be assigned to each of them in q. (16).

(iii) The area of land leased-out to the lessee household corresponding to the serial number recorded in q (16) will be recorded in q. (17) in acres rounded off to two places of decimal. The type of lessee household will be recorded in q. (18) in terms of codes.

Value	Label	Cases	Percentage
1	Yes	4869	5.7%

Definition
The crop seasons are generally identified by the months of harvesting of a crop during a normal year. For the purpose of the survey, kharif season will include both early kharif (i.e. autumn) and late kharif (i.e. winter). Generally the harvesting months of the early kharif and the late kharif seasons extent over August to October

File Block-9-visit-1-Particulars-of-plots-KHARIF-records

#16 holdng_no: Operational holding No.

and November to January respectively. Thus, in general, the crops which are harvested during August to January will be considered as the crops of the kharif season

#17 B9_c1: Srl.No.of plot

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=149183 /-] [Invalid=0 /-]

Interviewer's instructions For each plot coming under the purview of the operational holding, a continuous serial number will be assigned and recorded in col. (1), irrespective of whether the plots recorded are under 'A' 'B' or 'C'. The serial numbers '98' and '99' meant for 'homestead' and 'grand total' respectively, will not be changed.

#30 B9_c14: Lease Area (0.00 acres)

Information	[Type= continuous] [Format=numeric] [Range= 0-97] [Missing=*]
Statistics [NW/ W]	[Valid=11415 /-] [Invalid=137768 /-] [Mean=1.943 /-] [StdDev=3.922 /-]
Interviewer's instructions	The actual area of the part of the plot taken on lease by the household(s) and included in the operational holding will be recorded in col. (14) in acres rounded off to two places of decimal.

#31 B9_c15: Area of land otherwise possessed (0.00 acres)

Information	[Type= continuous] [Format=numeric] [Range= 0-30] [Missing=*]
Statistics [NW/ W]	[Valid=2904 /-] [Invalid=146279 /-] [Mean=0.994 /-] [StdDev=2.104 /-]
Interviewer's instructions	The area of otherwise possessed land in the plot, if any, will be recorded in col. (15) in acres rounded off to two places of decimal..

#32 B9_c16: Area water-logged (0.00 acres With drainage facility)

Information	[Type= continuous] [Format=numeric] [Range= 0-80.6] [Missing=*]
Statistics [NW/ W]	[Valid=2499 /-] [Invalid=146684 /-] [Mean=1.867 /-] [StdDev=3.546 /-]
Interviewer's instructions	Information on availability of drainage facility will be ascertained for the plots of the operational holding which are generally affected by water logging. It is clearly stated in the definition that natural drainage, i.e. automatic outflow of excess water from the plot by virtue of its position, will not be considered as drainage facility. If a plot, or a part of it, is affected by water-logging over a certain period of the reference agricultural season, the area of such land having drainage facility will be recorded in col. (16) and that without drainage facility in col. (17). Generally, the question of water logging may not arise in the cases of irrigated plots. However, if the irrigated plots remain water-logged over a certain period of the season, the data on availability of drainage facility may be collected for those plots also. The area figures will be recorded in acres rounded off to two places of decimal.

#33 B9_c17: Area water-logged (0.00 acres Without drainage facility)

#33 B9_c17: Area water-logged (0.00 acres Without drainage facility)			
Interviewer's instructions	As given in C16		
#34 B9_c18: Forest (0.00 acres)			
Information	[Type= continuous] [Format=numeric] [Range= 0-56] [Missing=*]		
Statistics [NW/ W]	[Valid=2924 /-] [Invalid=146259 /-] [Mean=1.168 /-] [StdDev=2.661 /-]		
Interviewer's instructions	Particulars of irrigation and land use of the operated area of the plot will be collected in columns-(18) TO (25). Except for col. (21), where the source of irrigation is to be recorded in terms of codes, all the other columns are meant for recorded area by land use. All the area figures will be recorded in acres rounded off to two places of decimal .		
#35 B9_c19: Net sown area (0.00 acres)			
Information	[Type= continuous] [Format=numeric] [Range= 0-182] [Missing=*]		
Statistics [NW/ W]	[Valid=65232 /-] [Invalid=83951 /-] [Mean=2.377 /-] [StdDev=4.623 /-]		
Interviewer's instructions	See details in C18		
#36 B9_c20: Irrigated area (0.00 acres)			
Information	[Type= continuous] [Format=numeric] [Range= 0-175.4] [Missing=*]		
Statistics [NW/ W]	[Valid=53152 /-] [Invalid=96031 /-] [Mean=2.232 /-] [StdDev=3.973 /-]		
Interviewer's instructions	See details in C18 It may be noted that if operated area of a plot is irrigated by two or more different sources of irrigation during the reference agricultural season, only the code for the source attributable to the largest share of the area will be recorded in col. (21). Again, if operated area of a plot is irrigated more than once during the reference agricultural season, only the net area irrigated will be recorded in col. (20). The net area irrigated is the total of the areas irrigated from different sources. Counting each area irrigated only once, even if it is irrigated more than once during the reference period.		
#37 B9_c21: Irrigated (Source)

#19 B10_c4: Class of area operated

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=32460 /-] [Invalid=0 /-]

Interviewer's instructions
The area of operational holdings are classified into 5 classes. In this column, the class of area operated of the holding will be recorded in terms of codes

Value	Label	Cases	Percentage
0	NR	2	0.0%
1	0.00 - 0.09 acres	4492	13.8%
2	0.10 - 0.99 acres	5452	16.8%
3	1.00 - 9.99 acres	18420	56.7%

File Block-10-visit-1-General-information-operational-holdings-KHARIF-records

#19 B10_c4: Class of area operated

Value	Label	Cases	Percentage
4	10.00- 99.99 acres	4013	12.4%
5	100.00 acres & above	73	0.2%
9	Invalid	8	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#20 B10_c5: Type of holding

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=33505 /-] [Invalid=0 /-]
Interviewer's instructions	An operational holding may be constituted of land owned and/or land leased-in by the household and, in extreme cases, may be constituted only of otherwise possessed land. Considering the type of possession of land included in the holding, an operational holding will be classified and the entry will be made in terms of codes

Value	Label	Cases	Percentage
1	holding constituted entirely of owned land	28839	86.1%
2	holding constituted of both owned and leased	725	2.2%
3	holding constituted of both owned and leased	3629	10.8%
4	holding constituted entirely of otherwise possessed land	312	0.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#21 B10_c6: Main use of the holding

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=32453 /-] [Invalid=0 /-]
Interviewer's instructions	The holdings will be classified according to the main use they are put to during to kharif season 1991-92 in the first visit . If the holding is put to more than one use, the use that generates the largest value of produce from the holding during the reference season will be treated as the main use of the holding and the corresponding code will be recorded

Value	Label	Cases	Percentage
0	NR	2	0.0%
1	crop production other than vegetables	24596	75.8%
2	production of vegetables	1159	3.6%
3	horticulture crops/orchards	602	1.9%
4	plantation crop other than forestry plantation	1390	4.3%
5	forestry plantation	54	0.2%
6	livestock keeping	2991	9.2%
7	poultry raising	695	2.1%
8	pisciculture	118	0.4%
9	others	846	2.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#22 B10_c7: Cultivation in kitchen garden

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=33479 /-] [Invalid=0 /-]
Interviewer's instructions	Columns (7) to (15) are meant for collecting information on the types of agricultural activities carried out in the holding during the reference season. There are nine separate activities to be reported upon in these columns, which can be grouped into two classes as follows:

File Block-10-visit-1-General-information-operational-holdings-KHARIF-records

#22 B10_c7: Cultivation in kitchen garden

within homestead land: cultivation in kitchen garden, livestock keeping, poultry raising, and other agricultural production;

outside homestead land: orchards, plantation(including forestry plantation), raising field crops, pisciculture, and other agricultural production.

For each of these nine columns, it will be separately ascertained whether the relevant activity has been carried out, even nominally, in the holding during the reference season. For an affirmative answer code '1' will be recorded in the corresponding column, otherwise the entry will be code '2'.

Value	Label	Cases	Percentage
1	Yes	8052	24.1%
2	No	25427	75.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#31 B10_c16: No. of parcels in the the holding

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=31702 /-] [Invalid=1839 /-]
Interviewer's instructions	Columns 16 to 18 are meant for collecting information on parcels constituting the operational holding. A parcel of an operational holding is a piece of land surrounded by land not included in the holding. A parcel of land may consist of one or more plots. The number of parcels constituting the operational holding will be recorded in col. (16). The distance of the parcel farthest from the place of residence will be recorded in col. (17) in kilometers rounded off to one place of decimal. Among the parcels constituting the operational holding, all may not be cultivated during the reference period. The number of parcels cultivated during the reference agricultural season will be recorded in col. (18). A parcel will be considered to have been 'cultivated', if it is used for rising field crops or production of horticulture and plantation crops during the reference agricultural season.

#32 B10_c17: Distance of farthest parcel from residence

Information	[Type= continuous] [Format=numeric] [Range= 0-99.9] [Missing=*]
Statistics [NW/ W]	[Valid=32726 /-] [Invalid=815 /-] [Mean=1.655 /-] [StdDev=4.689 /-]
Interviewer's instructions	As given in C16

#33 B10_c18: No. of parcels in the cultivated area of holding

Information	[Type= continuous] [Format=numeric] [Range= 0-99] [Missing=*]
Statistics [NW/ W]	[Valid=28613 /-] [Invalid=4928 /-] [Mean=3.354 /-] [StdDev=5.294 /-]
Interviewer's instructions	As given in C16

#34 B10_c19: farm workers Against payment of wages

Information	[Type= continuous] [Format=numeric] [Range= 0-99] [Missing=*]
Statistics [NW/ W]	[Valid=4289 /-] [Invalid=29252 /-] [Mean=3.751 /-] [StdDev=9.958 /-]
Interviewer's instructions	The number of permanent attached farm workers engaged in the operational holding during the kharif season of agricultural year 1991-92 will be ascertained for making entries in these columns in visit-1 schedule. In ascertaining the number of such workers, the period during which various agricultural operations (from preparation of soils to storing of grains) in respect of crop of the reference season are carried out will be taken into consideration. The number of attached farm workers so determined will be classified into two groups depending on the mode of payment. If the payment is a fixed amount to be paid in cash or kind, the attached farm worker will be enumerated in col. (19). On the other hand, if a worker gets a share of produce in lieu of the services rendered by him/her, he/she will be accounted for in col. (20). It should be borne in mind that those who get a share of produce as remuneration for services rendered by them will not be classified as share croppers. While a permanent attached farm worker is only employed in the operational holding, a share-cropper organizes, conducts and participates in the agricultural operations carried out in the holding. Share cropping is a term of lease.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=30689 /-] [Invalid=0 /-]

Definition The number of cattle and buffaloes owned by the household on the date of survey will be recorded in this block. The total number of cattle owned by the household will be first classified into two groups, viz. (a) crossbred cattle and (b) nondescript cattle. Crossbred cattle's are those which are produced by crossing the indigenous breed with the exotic breed, i.e. imported foreign variety. For the purpose of the survey, however the cattle of exotic breed will also be considered as crossbred. All the other cattle will be classified as 'nondescript cattle'.

Interviewer's instructions Each type of bovine livestock, viz. crossbred cattle, nondescript cattle and buffaloes, will be separately classified by age, sex and use. For each of them, the number belonging to different classes will be recorded in appropriate columns.

#17 B11_c3: Adult males (Nos.) For breeding only

Information [Type= continuous] [Format=numeric] [Range= 0-43] [Missing=*]

Statistics [NW/ W] [Valid=1533 /-] [Invalid=29156 /-] [Mean=1.932 /-] [StdDev=1.685 /-]

Interviewer's instructions For each type of bovine livestock, those which are not classified under 'young stock' will be considered to constitute the 'adult' population.

The adult male population is further classified according to the 'use' they are put to. For each of them, the number of adult males belonging to different classes, viz. 'for breeding only' 'for work only', 'for breeding and work both' and 'others', will be recorded respectively in cols. (3), (4), (5) & (6).

#18 B11_c4: Adult males (Nos.) For work only

Information [Type= continuous] [Format=numeric] [Range= 0-40] [Missing=*]

File Block-11-visit-1-Cattle-buffalo-owned-household-records	
#18 B11_c4: Adult males (Nos.) For work only

#21 B11_c7: Adult females (nos.) Not calved once	
Information	[Type= continuous] [Format=numeric] [Range= 0-71] [Missing=*]
Statistics [NW/ W]	[Valid=1170 /-] [Invalid=29519 /-] [Mean=1.428 /-] [StdDev=2.287 /-]
Interviewer's instructions	The adult female population, is classified according to their lactating potentials. Among the cattle and buffaloes which have calved at least once and were not in milk on the date of survey but with the potential of coming in milk in the future will be classified as 'dry'. On the other hand, those which are found dry on the date of survey and are not expected to calve in the future will be classified as 'others'. The number of adult females belonging to different classes, viz. 'not calved once', 'in milk' 'dry' and 'others', will be recorded respectively in cols. (7), (8), (9) & (10).

Interviewer's instructions	<p>An inventory of agricultural machinery and implements owned by the household on the date of survey. The list of items given in the block includes:</p> <p>(a) implements used for soil preparation and harvesting, operated manually or by draught animals, viz. sickle, wooden plough, iron plough, harrow (hakher, quntuka) and seed drill;</p> <p>(b) plant protection equipments operated by hand, engine or tractor, viz. sprayer and duster;</p> <p>©power driven machines used for soil preparation and harvesting, viz. chaff-cutter, power tiller (hand tractor, and harvest or combine);</p> <p>(d)power driven processing machinery, viz. thresher, power driven cane crusher and power driven oil crusher;</p> <p>(e) processing machinery operated manually or by draught animals, viz. other cane crusher and other oil crusher;</p> <p>(f)modern means of irrigation, viz. sprinklers, electric pump, diesel pump and other pumps;</p> <p>(g)indigenous water lifting equipments, viz. Persian wheel (rahat), dhenki (donga) and others (like dhekli, charsa etc.);</p> <p>and (h)transport equipments used for agriculture, viz. tractor trolley and carts for agricultural use.</p> <p>The last item (item 26) is meant for recording the sum of entries against items 1 to 25. A cross-mark (x) will be given against the items not reported to be owned by the household on the date of survey.</p>
