India (2002) Housing Condition Survey: NSS 58th Round : July - December 2002

| Overview | |
|---|--|
| Type | Socio-Economic/Household Survey |
| Identification | DDI-IND-MOSPI-NSSO-58Rnd-Sch1dot2-2002 |
| Version | Production Date: 2012-05-02 V1.0; Re-organised anonymised dataset for public distribution. |
| Series | Housing condition of the people is one of the very important indicators of the socio-economic development of the country. Statistical data on housing condition in qualitative and quantitative terms are needed periodically for an assessment of housing stock and formulation of housing policies and programmes. NSS therefore, started collecting data on housing condition of the dwelling units and basic housing amenities available to them from its 7th round (October 1953 - march 1954) to the 23rd round (July 1968 - June 1969) with the exception in the 13th and 14th rounds. With bigger sample size, comprehensive surveys were carried out prior to the current one during the NSS 28th round (1973-74), 44th round (1988-89) and 49th round (January-June 1993). After a gap of nearly ten years, the fourth survey in the series was conducted in the 58th round during July–December 2002. |
| Abstract | |
| The National Sample Survey Organisation (NSSO) conducted an integrated survey encompassing various aspects of the socio-economic scenario during July to December 2002. The survey, among others, included the housing condition of all segments of population. Information on the available condition of the structure where the household stays, the amenities available in their houses and details of construction work undertaken by households, were collected in the current survey through household enquiry. | |
| Kind of Data | Sample survey data [ssd] |
| Unit of Analysis | Randomly selected households based on sampling procedure and members of the household |

Scope & Coverage

Scope

The survey on housing condition was aimed to portray several aspects of housing condition. On the one hand, the condition of the residential dwellings with respect to its micro environment like the area where the house was located, plinth area, plinth level, period since built, condition of the structure, type of ownership, number of rooms, etc., infrastructural facilities like electricity, drinking water, sewerage, drainage, garbage disposal, ventilation, etc. was collected. On the other hand, detailed information on the structure type of the dwelling where the household was residing, constructions and repairs carried out by the households during the last five years including cost and source of finance, and particulars of dwellings and land owned elsewhere by the households inside the country was also collected through the same schedule of enquiry. This apart, data on household characteristics, land possessed, principal industry and occupation of the household, average monthly consumer expenditure of the household, distance to the place of work normally travelled by any member of the household, possession of some durable goods and some migration related information were also collected.

| | |
|-----------------|--|
| Keywords | Housing condition, Building, Flood risk, Approach Road, Dwelling, Living facilities, Building construction |
|-----------------|--|

Geographic Coverage

The survey covered whole of the Indian Union except (i) Leh and Kargil districts of Jammu & Kashmir, (ii) villages situated beyond 5 kms. of bus route in the state of Nagaland, and (iii) inaccessible villages of Andaman and Nicobar Islands. Thus the corresponding State/UT level estimates and the all-India results presented in this report are based on the areas falling under the coverage of the survey.

Universe

The survey used the interview method of data collection from a sample of randomly selected households and members of the household

Sampling

Sampling Procedure

A stratified multi-stage sampling design was adopted for selection of the ultimate sample units. The first-stage units (FSUs) for the survey were villages (panchayat wards in Kerala) in the rural areas and the Urban Frame Survey (UFS) blocks in urban areas. If an FSU was quite large, it was divided into smaller areas of equal population, called hamlet-groups, and two hamlet-groups were selected at random and merged, demarcating the area to be used for selection of the households - the ultimate stage units. The households were selected at random from the entire FSU, if the FSU was not large, or from the selected hamlet-groups for larger FSUs. A detailed discussion on the sample design and estimation procedure followed in the survey is given as an ATTACHMENT in external resources.

Deviations from Sample Design

There was no deviation from the original sample deviation.

Response Rate

A total of 8338 first stage units, i.e., villages (panchayat wards for Kerala) in the rural and UFS blocks in the urban were selected for this survey, of which 8307 could be surveyed in the central sample. At the all-India level, a total of 97882 households were captured in the surveyed FSUs.

Weighting

Sample weights were calculated and included in each of the data files Variable 'Wgt_SS' refers to Multiplier for each Subsample.

Variable 'Wgt_Combined' refers to Combined Multiplier.

Data Collection

| | |
|------------------------------|--|
| Data Collection Dates | start 2002-07-01 end 2002-09-30 start 2002-10-01 |
|------------------------------|--|

| | |
|--|--|
| | end 2002-12-31 |
| Data Collection Mode | Face-to-face [f2f] |
| Data Collection Notes | |
| <p>The entire survey period (1st July 2002 - 31st December 2002) was divided into two sub-rounds of three months' duration each (Sub-round 1: July-September 2002; Sub-round 2: October-December 2002) and an equal number of sample FSUs were allocated to each sub-round. Each FSU was surveyed during the sub-round period to which it was allocated. Within a particular sub-round, the field-work was spread out uniformly over the different months to the extent possible.</p> | |
| Questionnaires | |
| <p>Schedule 1.2 consists of 12 blocks including block 0. The blocks are:</p> <p>Block 0: descriptive identification of sample household Block 1: identification of sample household Block 2: particulars of field operation Block 3: household characteristics Block 4: particulars of living facilities Block 5: housing characteristics and micro environment Block 6: particulars of the dwelling Block 7: particulars of construction and repair for residential purpose Block 8: particulars of dwelling / land owned elsewhere within the country Block 9: some general particulars of slum dwellers Block 10: remarks by investigator Block 11: comments by supervisory officer(s)</p> | |

| Block7-records | |
| # Cases | 40258 |
| # Variable(s) | 46 |
| File Structure | Type: relational Key(s): Key_hhold (Key to locate Hhold No) , Key_constn_no (Key to locate construction no) |
| File Content | |
| Information in this dataset of block-7 contains particulars of construction undertaken during the last five years by the sample household for residential purpose such as construction of new residential building, construction relating to addition of floor space, alteration, improvement and major repair of the existing residential building. Constructions complete or incomplete as on the date of survey are considered. However, the detailed information collected for the two most recent constructions 'at the present premises of residence of the household as well as the two most recent constructions undertaken 'elsewhere' by the household. | |

Variables Description

Dataset contains 267 variable(s)

| File Block3-records | | | |
|--|--|--------------|-------------------|
| #1 Key_hhold: Key to locate Hhold No | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] | | |
| Recoding and Derivation | Generated KEY variable using the variables -State,Region,Stratum,Sub-stratum,FSU,Segment,stage2stratum and Hholdno. | | |
| #2 Rnd_Sch: Round-Schedule | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] | | |
| Definition | Indicates Round no of NSS survey(first 2 digit) and schedule number (next 2 digits) | | |
| Value | Label | Cases | Percentage |
| 5812 | NSS Round-58 Schedule-1.2 | 97882 | 100.0% |
| <i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i> | | | |
| #3 Rec_ID: Record ID(Indicates Block number) | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] | | |
| Value | Label | Cases | Percentage |
| 03 | Block-3 of schedule | 97882 | 100.0% |
| <i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i> | | | |
| #4 Sector: Sector code | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] | | |
| Definition | State/UT level sample was allocated between two sectors(Rural,Urban) in proportion to provisional population as per Census 2001 with double weightage to urban sector. | | |
| Value | Label | Cases | Percentage |
| 1 | Rural | 55966 | 57.2% |
| 2 | Urban | 41916 | 42.8% |
| <i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i> | | | |
| #5 Sub_round: Sub-round | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] | | |
| Definition | The survey period of six months for this round is divided into two sub-rounds of three months` duration.Equal number of sample villages and blocks have been allotted for survey in each of these two sub-rounds. Each village/ block will be surveyed during the sub-round period to which it has been allotted. Because of the arduous field condition, this restriction need not strictly be enforced in Andaman & Nicobar Island, Lakshadweep and rural areas of Arunachal Pradesh and Nagaland. | | |
| Literal question | Sub-Round | | |
| Value | Label | Cases | Percentage |
| 1 | Sub-round-1 | 48891 | 49.9% |
| 2 | Sub-round-2 | 48991 | 50.1% |
| <i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i> | | | |

| File Block3-records | | | |
|--|--|--------------|-------------------|
| #6 Sub_sample: Sub-sample | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] | | |
| Definition | The sample villages have been selected with probability proportional to population with replacement and the sample blocks by simple random sampling without replacement. Selection was done in both the sectors in the form of two independent sub-samples(sub-sample-1 &2). | | |
| Literal question | Sub-sample | | |
| Value | Label | Cases | Percentage |
| 1 | Sub-sample-1 | 49022 | 50.1% |
| 2 | Sub-sample-2 | 48860 | 49.9% |
| <i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i> | | | |
| #7 State: State | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] | | |
| Literal question | State code | | |
| <i>Frequency table not shown (35 Modalities)</i> | | | |
| #8 Region: Region | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] | | |
| Definition | States have been divided into regions by grouping contiguous districts similar in respect of population density and crop pattern. In Gujarat, however, some districts have been split for the purpose of region formation, considering the location of dry areas and the distribution of tribal population in the state. The compositions of the regions are given as an attachment in external resources! | | |
| Literal question | Region code | | |
| Value | Label | Cases | Percentage |
| 1 | Region-1 | 44860 | 45.8% |
| 2 | Region-2 | 22589 | 23.1% |
| 3 | Region-3 | 17780 | 18.2% |
| 4 | Region-4 | 8924 | 9.1% |
| 5 | Region-5 | 2566 | 2.6% |
| 6 | Region-6 | 1163 | 1.2% |
| 7 | Region-7 | 0 | 0.0% |
| <i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i> | | | |
| #9 District: District | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] | | |
| Literal question | District code | | |
| #10 Stratum: Stratum | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] | | |
| Definition | Rural sector: Two special strata were formed as given below at the State/ UT level on the basis of Population Census 1991 viz. Stratum 1: all FSUs with population between 0 to 50, and Stratum 2: FSUs with population more than 15,000 | | |

File Block3-records

#10 Stratum: Stratum

| | |
|-------------------------|---|
| | <p>The special stratum 1 was formed if at least 50 such FSU's were found in a State/UT. Similarly, special stratum 2 was formed if at least 4 such FSUs were found in a State/UT. Otherwise, such FSUs were merged with the general strata.</p> <p>From the remaining FSUs (not covered under stratum 1 &2) general strata (hereafter, stratum will refer to general stratum unless otherwise mentioned) was formed and numbered 3, 4, 5 etc. (even if no special strata have been formed). Each district of a State/UT was normally treated as a separate stratum. However, if the provisional population of the district was greater than or equal to 2.5 million as per Census 2001, the district was divided into two or more strata with more or less equal population as per population census 1991 by grouping contiguous tehsils. However, in Gujarat, some districts were not wholly included in an NSS region. In such cases, the part of the district falling in an NSS region constituted a separate stratum.</p> <p>Urban sector: In the urban sector, stratum was formed within each NSS region on the basis of size class of towns as per Census 1991 town population except for towns specified in Table 4. The stratum number and their composition (within each region) are given below:</p> <p>stratum 1:all towns with population (P) < 0.1 million stratum 2:all towns with 0.1= P < 0.5 million stratum 3:all towns with 0.5= P < 1 million stratum 4,5,6, ... each town with P= 1 million</p> <p>The stratum numbers was retained as above even if, in some regions, some of the stratum is not formed.</p> |
| Literal question | Stratum no |

#11 Sub_stratum: Sub-stratum

| | |
|---------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] |
| Definition | <p>There was no sub-stratification in the rural sector. However, to cover more number of households living in slums, in urban sector each stratum was divided into 2 sub-strata as follows:</p> <p>sub-stratum 1: all UFS blocks having area type 'slum area' sub-stratum 2: remaining UFS blocks</p> <p>If there was one UFS block with area type 'slum area' within a stratum, sub-stratum 1 was not formed; it was merged with sub-stratum 2.</p> |
| Literal question | Sub-stratum no |

#12 FSU: Village/block number

| | |
|---------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] |
| Definition | <p>Sampling frame for First Stage Unit(FSU) For the rural sector, the list of Census 1991 villages (panchayat wards for Kerala) and Census 1981 villages for J & K constituted the sampling frame. For the urban sector, the list of latest available Urban Frame Survey (UFS) blocks was considered as the sampling frame. Selection of FSUs: FSUs were selected in the form of two independent sub-samples in both the sectors. For special stratum 2 and all the general strata of rural sector, FSUs were selected by probability proportional to size with replacement (PPSWR) where size was the 1991 census population. For urban sector and special stratum 1 of rural sector, FSUs were selected by simple random sampling without replacement (SRSWOR).</p> |
| Literal question | Village/block number (First Stage Unit) |

#13 Segment: Segment

| | |
|---------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] |
| Definition | <p>Hamlet-groups / sub-blocks were formed by more or less equalising population. For large urban blocks, the sub-block (sb) having slum dwellers, if any, was selected with probability 1 and was termed as segment 1. However, if there were more than one sb having slum dwellers, the sb having maximum number of slum dwellers was selected as segment 1. After selection of sb for segment 1, one more sb was selected by simple random</p> |

File Block3-records

#13 Segment: Segment

sampling (SRS) from the remaining sb's of the block and was termed as segment 2. For large blocks (having no slum areas) two sub-blocks were selected by simple random sampling without replacement (SRSWOR) and were combined to form segment 2. For urban blocks without sub-block formation, segment number was 1 or 2 depending on whether the block was having a slum or not. For large villages two hamlet-groups were selected by SRSWOR and were combined to form segment 2. For villages without hamlet-group formation, segment number was also 2. The segments were considered separately for listing and selection of the ultimate-stage units.

Literal question Segment no.

#14 Stage2_stratum: Second stage stratum

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=97882 /-] [Invalid=0 /-]

Definition In each selected village/block/segment, three and two second stage strata (SSS) were formed for schedule 1.2 and schedule 1.0 respectively on the basis of structure type in rural areas and household MPCE in urban areas.

#15 Hhold_No: Household No

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=97882 /-] [Invalid=0 /-]

Literal question Sample Household No

#16 B1_q16: Informant's code

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=97870 /-] [Invalid=0 /-]

Literal question informant's relation to head

Interviewer's instructions In this item information about the informant from whom the data are being collected will be recorded. Code 9 will be applicable only in case the selected household is a resident of a 'residential institution for the disabled persons' and the information is provided by the owner / official of the institution.

| Value | Label | Cases | Percentage |
|-------|-----------------------|-------|------------|
| 1 | Head on Household | 65468 | 66.9% |
| 2 | Other member of Hhold | 30785 | 31.5% |
| 8 | Invalid | 17 | 0.0% |
| 9 | Others | 1599 | 1.6% |
| □ | | 1 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#17 B1_q17: Response code

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=97868 /-] [Invalid=0 /-]

Literal question Response code

Interviewer's instructions This item is to be filled-in after canvassing the schedule. The type of informant, considering his co-operation and capability in providing the required information, will be recorded against this item in terms of specified response codes.

| Value | Label | Cases | Percentage |
|-------|------------------------------|-------|------------|
| 1 | Co-operative and capable | 80593 | 82.3% |
| 2 | Co-operative but not capable | 15458 | 15.8% |
| 3 | Busy | 970 | 1.0% |
| 4 | Informant reluctant | 722 | 0.7% |
| 9 | Others | 125 | 0.1% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

File Block3-records**#18 B1_q18: Survey code**

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] |
| Literal question | Survey code |
| Interviewer's instructions | Whether the originally selected sample household has been surveyed or a substituted household has been surveyed will be indicated against this item by recording '1' if it is the originally selected sample household, and '2' if it is the substituted one. If neither the originally selected household nor the substituted household can be surveyed i.e., if the sample household is a casualty, code '3' will be recorded. In such cases only blocks 0, 1, 2, 10 and 11 will be filled-in and on the top of the front page of the schedule the word 'CASUALTY' will be written and underlined. |

| Value | Label | Cases | Percentage |
|-------|---------------------------|-------|------------|
| 1 | Original hhold surveyed | 96229 | 98.3% |
| 2 | Substitute hhold surveyed | 1653 | 1.7% |
| 3 | Causality | 0 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#19 B1_q19: Reason-substitution

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=1654 /-] [Invalid=0 /-] |
| Literal question | Reason for first substitution of original household |
| Interviewer's instructions | For an originally selected sample household which could not be surveyed, irrespective of whether a substituted household could be surveyed or not, the reason for not surveying the original household will be recorded against item 19 in terms of the specified codes. |

| Value | Label | Cases | Percentage |
|-------|----------------------------|-------|------------|
| 1 | Informant busy | 84 | 5.1% |
| 2 | Members away from home | 1356 | 82.0% |
| 3 | Informant non co-operative | 128 | 7.7% |
| 9 | Others | 86 | 5.2% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#20 B2_Q2i: Survey date

| | |
|---------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97881 /-] [Invalid=0 /-] |

#21 B2_q3: Time taken to canvas

| | |
|---------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97700 /-] [Invalid=0 /-] |

Frequency table not shown (263 Modalities)

#22 B3_q1: Male (household size)

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=numeric] [Range= 0-22] [Missing=*] |
| Statistics [NW/ W] | [Valid=95793 /-] [Invalid=2089 /-] |
| Interviewer's instructions | The total number of male members of the household will be recorded in items 1. |

#23 B3_q2: Female (household size)

| | |
|---------------------------|---|
| Information | [Type= continuous] [Format=numeric] [Range= 0-58] [Missing=*] |
| Statistics [NW/ W] | [Valid=94367 /-] [Invalid=3515 /-] [Mean=2.511 /-] [StdDev=1.52 /-] |

| File Block3-records | | | |
|--|--|--------------|-------------------|
| #23 B3_q2: Female (household size) | | | |
| Interviewer's instructions | The total number of female members of the household will be recorded in 2 respectively. | | |
| #24 B3_q3: Household size (total) | | | |
| Information | [Type= continuous] [Format=numeric] [Range= 1-59] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] [Mean=4.975 /-] [StdDev=2.655 /-] | | |
| Interviewer's instructions | The total number of total members of the household will be recorded in item 3, | | |
| #25 B3_q4: Gender of head | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97843 /-] [Invalid=0 /-] | | |
| Literal question | Gender of the head of household | | |
| Interviewer's instructions | Code 1 will be recorded if the head of household is male and code 2 will be recorded if the head of the household is female. | | |
| Value | Label | Cases | Percentage |
| 1 | Male | 87810 | 89.7% |
| 2 | Female | 10010 | 10.2% |
| 9 | Invalid | 23 | 0.0% |
| <i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i> | | | |
| #26 B3_q5: Social group (code) | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] | | |
| Literal question | Social group (code) | | |
| Interviewer's instructions | Whether or not the household belongs to scheduled tribe (ST), scheduled caste (SC) or other backward class (OBC) will be indicated against this item in terms of the specified codes. Those who do not come under any one of the first three social groups will be assigned code 9. In case different members belong to different social groups, the group to which the head of the household belongs will be considered as the 'social group' of the household. | | |
| Value | Label | Cases | Percentage |
| 0 | NR | 107 | 0.1% |
| 1 | Scheduled tribe | 10963 | 11.2% |
| 2 | Scheduled caste | 18048 | 18.4% |
| 3 | Other backward class | 33803 | 34.5% |
| 9 | Others | 34961 | 35.7% |
| <i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i> | | | |
| #27 B3_q6: Land possessed (0.00 ha) | | | |
| Information | [Type= continuous] [Format=numeric] [Range= 0-200011.11] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97541 /-] [Invalid=341 /-] [Mean=3.957 /-] [StdDev=763.817 /-] | | |
| Literal question | Land possessed (0.00 ha) | | |
| Interviewer's instructions | The area of land possessed will include land 'owned', 'leased in' and 'land neither owned nor leased in' (i.e. encroached) by the household but exclude land 'leased out'. For detailed concept relating to "land possessed", see Chapter One. The total land area possessed by the household as on the date of survey will be worked out and recorded in hectares up to two places of decimal. | | |
| #28 B3_q7: NIC code | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |

| File Block3-records | |
|---|--|
| #28 B3_q7: NIC code | |
| Statistics [NW/ W] | [Valid=92028 /-] [Invalid=0 /-] |
| Literal question | Principal industry (NIC 1998): |
| Interviewer's instructions | The description of the principal household industry will be recorded in the space provided. The entry cell for item 2 has been split into 5 cells for recording each digit separately. The appropriate five-digit industry code of the NIC 1998 will be recorded here. For households deriving income from non-economic activities only, a dash (-) may be put against this item. |
| #29 B3_q8: NCO code | |
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=92033 /-] [Invalid=0 /-] |
| Literal question | Principal occupation (NCO 1968): |
| Interviewer's instructions | The description of the principal household occupation will be recorded in the space provided. The appropriate three-digit occupation code of the NCO 1968 is to be recorded in the entry cell which has been trisected for recording each digit separately. For households deriving income from non-economic activities only, a dash (-) may be put against this item. |
| #30 B3_q9_MCE: MPCE(Rs) | |
| Information | [Type= continuous] [Format=numeric] [Range= 0-60000] [Missing=*] |
| Statistics [NW/ W] | [Valid=97499 /-] [Invalid=383 /-] [Mean=3064.601 /-] [StdDev=2326.382 /-] |
| Literal question | Average monthly consumer expenditure (Rs. in whole no.): |
| Interviewer's instructions | This is the expenditure of a household on domestic consumption and is same as the expenditure covered in the consumer expenditure surveys of NSS. The average monthly consumer expenditure worked out on the basis of the preceding 12 months from the date of survey will be recorded against this item. The expenditure will be entered in whole number in rupees. |
| #31 B3_q10: Distance place of work(km) | |
| Information | [Type= continuous] [Format=numeric] [Range= 0-6000] [Missing=*] |
| Statistics [NW/ W] | [Valid=96974 /-] [Invalid=908 /-] [Mean=4.927 /-] [StdDev=40.816 /-] |
| Literal question | Distance (in km) to the place of work normally travelled by the principal earner of the household: |
| Interviewer's instructions | Principal earner of the household is that person among the household members who had the highest earnings during the 365 days preceding the date of survey from any type of activity, economic or non-economic. One way actual distance (in kilometres and in whole numbers rounded to the nearest integer) from residence to the place of work normally travelled by the principal earner of the household will be recorded here. The reference period for this item is the last 365 days. For persons, whose place of work is not fixed, e.g. hawkers, casual workers, mobile trade, etc., the distance normally travelled from residence to the farthest point of his/her area of operation may be recorded. If the distance to the place of work from residence is less than 0.5 km., '0' may be recorded. |
| #32 B3_q11: Maximum distance(km) | |
| Information | [Type= continuous] [Format=numeric] [Missing=*] |
| Statistics [NW/ W] | [Valid=95744 /-] [Invalid=2138 /-] |
| Literal question | Maximum distance (in km) to the place of work normally travelled by any member of the household: |
| Interviewer's instructions | The maximum distance (in kilometres and in whole numbers rounded to the nearest integer) to the place of work normally travelled by any member of the household during the last 365 days will be recorded here in whole numbers. The method of ascertaining the distance will be same as mentioned in item 10. If principal earner is the only person in the household to travel to the place of work, entry in item 11 will be same as in item 10. |
| #33 B3_q12: Hh moved? | |
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97669 /-] [Invalid=0 /-] |
| Literal question | whether the household moved to the village/town of enumeration during the last 365 days?: |

File Block3-records

#33 B3_q12: Hh moved?

| | |
|-----------------------------------|--|
| Interviewer's instructions | This item is for recording the information on movement of the sample household. If the entire household, as now being enumerated, has moved to the place of enumeration during the last 365 days preceding the date of survey, the same will be considered for recording 'yes' against this item. If one member of the household has moved ahead of other members to the present household and others have joined later (but all of them during the reference year) such cases will also be considered for recording 'yes'. Within a village or town, shifting of house from one locality to another should not be considered as movement. The entry will be 1 if the household has moved to the village/town of enumeration and 2, otherwise. |
|-----------------------------------|--|

| Value | Label | Cases | Percentage |
|-------|---------|-------|------------|
| 1 | Yes | 2433 | 2.5% |
| 2 | No | 95220 | 97.5% |
| 9 | Invalid | 16 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#34 B3_q13: Location of last residence

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=2446 /-] [Invalid=0 /-] |
| Pre-question | If Q.12 =1 then Ask |
| Literal question | Location of last residence |
| Post-question | Skip this question, otherwise. |
| Interviewer's instructions | The type of the place from which the household moved to the place of enumeration is to be recorded here. The location, therefore, refers to whether the place was rural or urban in the same district or state etc. |

| Value | Label | Cases | Percentage |
|-------|--|-------|------------|
| 0 | NR | 13 | 0.5% |
| 1 | Rural area of the same district | 726 | 29.7% |
| 2 | Urban area of the same district | 528 | 21.6% |
| 3 | Rural area of another district of the same state | 269 | 11.0% |
| 4 | Urban area of another district of the same state | 235 | 9.6% |
| 5 | Rural area of another state | 208 | 8.5% |
| 6 | Urban area of another state | 213 | 8.7% |
| 7 | Another country | 11 | 0.4% |
| 9 | Invalid | 243 | 9.9% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#35 B3_q14: Nature of movement

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=2158 /-] [Invalid=0 /-] |
| Pre-question | If Q.12 =1 then Ask |
| Literal question | Nature of movement |
| Post-question | Skip this question, otherwise. |
| Interviewer's instructions | The movement of the household to the place of enumeration may be only a temporary movement (i.e., the household intends to move again to the original place or another place within six months of coming to the place of listing) or a permanent movement (i.e., the household intends to stay (or has stayed) at the place of enumeration for more than six months). A temporary movement could be a seasonal movement or non-seasonal. The nature of movement will be recorded in codes |

| Value | Label | Cases | Percentage |
|-------|--------------------|-------|------------|
| 0 | NR | 17 | 0.8% |
| 1 | Temporary:seasonal | 420 | 19.5% |

File Block3-records

#35 B3_q14: Nature of movement

| Value | Label | Cases | Percentage |
|-------|------------------------|-------|------------|
| 2 | Temporary:Non-seasonal | 603 | 27.9% |
| 3 | Permanent | 1117 | 51.8% |
| 9 | Invalid | 1 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#36 B3_q15: Reason for movement

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=2442 /-] [Invalid=0 /-] |
| Pre-question | If Q.12 =1 then Ask |
| Literal question | Reason for movement |
| Post-question | Skip this question, otherwise. |
| Interviewer's instructions | For each household reported as having moved, the reason for such movement will be ascertained and recorded in codes. While ascertaining the reason, it may be noted that though different members of the household may have different reasons to record, only that factor which is the basic reason for the decision to shift the household should be considered. This has to be ascertained through proper probing. The reasons for movement categorised with their corresponding codes |

| Value | Label | Cases | Percentage |
|-------|---|-------|------------|
| 00 | NR | 124 | 5.1% |
| 01 | In search of employment | 497 | 20.4% |
| 02 | In search of better employment | 233 | 9.5% |
| 03 | To take up employment/better employment | 249 | 10.2% |
| 04 | Transfer of service/contract | 230 | 9.4% |
| 05 | Proximity to place of work | 90 | 3.7% |

#37 B3_q16: Type of structure

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=2166 /-] [Invalid=0 /-] |
| Pre-question | If Q.12 =1 then Ask |
| Literal question | Type of structure where household lived last: |
| Post-question | Skip this question, otherwise. |
| Interviewer's instructions | For the household which has moved to the place of enumeration, the type of structure where the household lived before movement to the place of enumeration is to be ascertained. The places and structures where the household had lived as a stop-gap measure (period less than six months) before moving to the place of enumeration are to be ignored for the purpose. The type of structure refers to the materials used for different parts of building and is to be identified as per the definitions given earlier for each of the different types of structure viz., pucca, semi-pucca, serviceable katcha and non-serviceable katcha (for definitions, see Chapter One). If the household had no structure to live in, it is also to be entered against this item. |

| Value | Label | Cases | Percentage |
|-------|-------|-------|------------|
| 0 | NR | 26 | 1.2% |

| 2 | Semi-pucca | 618 | 28.5% |
| 3 | Serviceable katcha | 353 | 16.3% |
| 4 | Unserviceable katcha | 49 | 2.3% |
| 5 | No structure | 10 | 0.5% |
| 9 | Others | 1 | 0.0% |
| <i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i> | | | |
| #38 B3_q17: Members moved into | | | |
| Information | [Type= continuous] [Format=numeric] [Range= 0-11] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=64241 /-] [Invalid=33641 /-] | | |
| Literal question | No. of members who moved into the household during last 365 days: | | |
| Interviewer's instructions | This item is intended to capture the information on the migration of the household members. This will be decided based on the concept of change in the usual place of residence (upr). The usual place of residence here is defined as a place (village or town) where the person has stayed continuously for a period of six months or more. The place of enumeration refers to the place (village / town) where the person is being enumerated or surveyed, i.e., the present place of the residence of the person. This item will record the number of persons of the present household who had a different upr previously (called the last upr). Members of the household who have been staying in the same village or town since their birth will not be considered here. Visits of daughters to their parents place for childbirth or for treatments etc. will not be considered even if it is for more than six months. Female(s) of other village/town married to the member(s) of the household being surveyed during the last 365 days will be included here. | | |
| #39 B3_q18: Members moved out | | | |
| Information | [Type= continuous] [Format=numeric] [Range= 0-11] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=66100 /-] [Invalid=31782 /-] | | |
| Literal question | No. of members who moved out of the household during last 365 days: | | |
| Interviewer's instructions | In order to collect data on out-migration (within and outside the country), information regarding the number of persons who have left the household and gone outside the village / town where the household is residing is to be collected. In case no member has left the household "0" will be recorded. It is important to note that only those persons who were members of the household at the time of their departure and are presently alive and staying elsewhere are to be considered. Persons gone out for purely temporary purposes for short periods, say, for meetings / conferences or official tours or tourism purpose, participation in games, sports, etc. will not be considered. Similarly, who have only moved from one locality to another within the same town / village will not be considered. | | |

| #16 B4_q1: Source of drinking water | |
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97841 /-] [Invalid=0 /-] |
| Literal question | Major source of drinking water |
| Interviewer's instructions | The information in respect of the household's major source of drinking water will be collected and entered against this item in codes. If an arrangement is made by corporation, municipality, panchayat or other local authorities or any private or public housing estate or agency to supply water through pipe for household uses and if the sample household is availing such facility, then code 1 will be appropriate. Drinking water carried through pipe from sources like well, tank, river etc. by the owner / occupants only for convenience of the household, however, |

File Block4-records

#16 B4_q1: Source of drinking water

will not be treated as tap water. Instead, such a source will get the code appropriate to the actual source from which water is carried through pipe. The other codes are self-explanatory. If the household gets drinking water from more than one source, the source which is in major use should be its source. In this connection, it may be mentioned that particularly in rural areas, the source of drinking water may be different in different seasons. In such cases, the investigator is to ascertain the household's major source of drinking water and record it considering all the seasons during the last 365 days against this item.

| Value | Label | Cases | Percentage |
|-------|-------------------------------------|-------|------------|
| 0 | NR | 1 | 0.0% |
| 1 | Tap | 45535 | 46.5% |
| 2 | Tube well / hand-pump | 34466 | 35.2% |
| 3 | Well | 12609 | 12.9% |
| 4 | Tank / pond (reserved for drinking) | 1040 | 1.1% |
| 5 | Other tank / pond | 553 | 0.6% |
| 6 | River / canal / lake | 907 | 0.9% |
| 7 | Spring | 1988 | 2.0% |
| 9 | Others | 742 | 0.8% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#17 B4_q2: Drinking water availability?

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97873 /-] [Invalid=0 /-] |
| Literal question | Whether availability of drinking water is sufficient throughout the year? |
| Interviewer's instructions | For collecting this information, the investigator will have to depend on the judgement of the informant. The code is 1 for 'yes' and 2 for 'no'. |

| Value | Label | Cases | Percentage |
|-------|---------|-------|------------|
| 1 | Yes | 86103 | 88.0% |
| 2 | No | 11756 | 12.0% |
| 9 | Invalid | 14 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#18 B4_q3: Facility of drinking water

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97876 /-] [Invalid=0 /-] |
| Literal question | Facility of drinking water |
| Interviewer's instructions | Information as to whether the household's source of drinking water is for its exclusive use or is shared with other households/community will be indicated in codes. If the source is for the exclusive use of the household, code 1 will be recorded. If the source is shared by the household with one or more households in the building, code 2 will be recorded. Similarly, code 2 will be applicable when a few households have a single well, hand pump etc. for their exclusive use. If the source is for community use, i.e., for use of households in two or more buildings in the locality, code 3 will be recorded. |

| Value | Label | Cases | Percentage |
|-------|-------|-------|------------|
| 1 | | 32281 | 33.0% |
| 2 | | 14276 | 14.6% |
| 3 | | 51317 | 52.4% |
| 6 | | 1 | 0.0% |
| 9 | | 1 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#19 B4_q4: Distance drinking water(code)

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97865 /-] [Invalid=0 /-] |
| Literal question | Distance to the source of drinking water(code) |
| Interviewer's instructions | The distance to the source of drinking water from the dwelling unit will be ascertained and recorded in codes. The source of drinking water mentioned here refers to the source recorded in item 1 of this block. If the source of drinking water is within the dwelling unit, code 1 will be recorded. When the source is outside the dwelling but within the building plot of the dwelling unit, code 2 will be recorded. In the other cases i.e., when the source is outside the premises, the distance of the source from the dwelling unit will be ascertained and appropriate distance code will be entered. |

| Value | Label | Cases | Percentage |
|-------|-------|-------|------------|
| 0 | | 4 | 0.0% |
| 1 | | 29110 | 29.7% |
| 2 | | 20287 | 20.7% |
| 3 | | 40384 | 41.3% |
| 4 | | 6238 | 6.4% |
| 5 | | 1147 | 1.2% |
| 6 | | 215 | 0.2% |
| 7 | | 219 | 0.2% |
| 8 | | 261 | 0.3% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#20 B4_q5: Bathroom

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97869 /-] [Invalid=0 /-] |
| Literal question | Bathroom facility? |
| Interviewer's instructions | Information about the bathroom facility available to the members of the household will be indicated against item 5 in codes. If the dwelling unit does not have a bathroom in its premises, code 3 will be recorded. On the other hand, if it has a bathroom in its premises but not attached to dwelling unit, code 2 will be recorded. If the dwelling unit has one or more bathrooms attached to the dwelling unit (i.e. with direct access from its rooms veranda or corridor) code 1 will be recorded. If the bathroom is in a structure separated from the main building which also contains rooms used for living purposes, 1 will be the appropriate code. A room used as bedroom, sitting room, reading room, prayer room or dining room will be considered a room used for living purposes. An enclosed area without a roof used for bathing purposes, or any living room / kitchen used for bathing purpose is not a bathroom for that dwelling. |

| Value | Label | Cases | Percentage |
|-------|-------|-------|------------|
| 0 | | 1 | 0.0% |
| 1 | | 21441 | 21.9% |
| 2 | | 19871 | 20.3% |
| 3 | | 56553 | 57.8% |
| 5 | | 1 | 0.0% |
| 8 | | 1 | 0.0% |
| . | | 1 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#21 B4_q6: Distance-bathing place(km)

| | |
|---------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97768 /-] [Invalid=0 /-] |
| Literal question | Distance from the bathing place: |

File Block4-records

#21 B4_q6: Distance-bathing place(km)

| | |
|-----------------------------------|---|
| Interviewer's instructions | The distance of the bathing place from the dwelling unit will be ascertained and entered against this item in codes.If the household members use more than one bathing place the one used by majority of the members will be its bathing place. An enclosed area without a roof used for bathing purposes will also be considered as a bathing place and not as a bathroom. |
|-----------------------------------|---|

| Value | Label | Cases | Percentage |
|-------|-------|-------|------------|
| 0 | | 3 | 0.0% |
| 1 | | 70151 | 71.8% |
| 2 | | 20791 | 21.3% |

| 4 | | 921 | 0.9% |
| 5 | | 193 | 0.2% |
| 8 | | 90 | 0.1% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#22 B4_q7: Latrine

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97866 /-] [Invalid=0 /-] |
| Literal question | Latrine type? |
| Interviewer's instructions | The information about the type of latrine used by the household will be recorded in codes. If the household does not have any latrine facility, i.e. its members use open area as latrine, code 11 will be recorded. In a few areas, one may still comes across latrines that are serviced by scavengers. These are called service latrines. A latrine connected to underground sewerage system is called flush system latrine. A latrine connected to underground septic chambers will be considered as a septic tank latrine. A latrine connected to a pit dug in earth is called a pit latrine. If the household uses a latrine of any other type, code 99 will be recorded. The approach for deciding the public / community use, shared etc. is the same as in item 3 of this block |

| Value | Label | Cases | Percentage |

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=8724 /-] [Invalid=0 /-] |
| Literal question | Number of households using the latrine(s) |
| Interviewer's instructions | If the household is using shared latrine, then the number of households sharing the latrine is to be ascertained and reported in this item. In case the exact number of households sharing the latrine is not known, approximate number may be recorded after proper probing. |

Frequency table not shown (56 Modalities)

#24 B4_q9: Distance-latrine

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=52826 /-] [Invalid=0 /-] |
| Literal question | Distance to travel for latrine (code): |
| Interviewer's instructions | If the household uses public / community latrine or no latrine, the distance normally travelled for latrine from the dwelling unit in which the sample household lives will be ascertained and the distance recorded in appropriate codes. |

| Value | Label | Cases | Percentage |
|-------|-------|-------|------------|
| 0 | | 179 | 0.3% |
| 1 | | 17336 | 32.8% |

#28 B4_q13: Radio/tran./tape/music sys.

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] |
| Literal question | Does the household possess this item? |
| Interviewer's instructions | Nnumber of households durable goods are listed in items 13 to 27. Information about the possession of each listed durable goods by the household as on the date of survey will be collected and recorded in codes. Each item should get applicable code and no item will be left blank. It may be noted that any item requiring normal repair will be considered for recording code for 'yes'. However, if the item has been out of use and the repairs are either not feasible or uneconomical, then code for 'no' may be recorded. Tractor will also include tractor-like equipment. |

| Value | Label | Cases | Percentage |
|-------|-------|-------|------------|

| #16 B5_q1: Area type | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97882 /-] [Invalid=0 /-] | | |
| Literal question | Area type in which the house is located. | | |
| Interviewer's instructions | <p>Information on the type of area in which the building housing the sample household is located will be recorded against this item in terms of codes. For households in rural areas, codes 4 and 9 will only be applicable.</p> <p>To collect this information, apart from the informant belonging to the sample household, some knowledgeable persons of the locality may have to be contacted. For a household living under a tree or bridge, in a pipe, or on a footpath without a structure etc. code 4 will be recorded and items 2 to 11 of this block will be left blank.</p> <p>If the house is situated in a slum area, then code 1 will be recorded if the area is notified as a slum by the municipality or other appropriate authorities, otherwise code 2 will be recorded. Sometimes an area develops into an unauthorised settlement with unauthorised structures put up by "squatters". Such an area, if not categorised as a slum area, will be considered as a "squatter settlement" and houses in such an area will get code 3. For all other areas code 9 will be recorded against this item.</p> | | |
| Value | Label | Cases | Percentage |
| 0 | NR | 51 | 0.1% |
| 1 | Notified slum | 3586 | 3.7% |
| 2 | Non-notified slum | 2232 | 2.3% |

File Block5-records

#17 B5_q2: Plinth area(sq.ft)

| | |
|-----------------------------------|--|
| Information | [Type= continuous] [Format=numeric] [Range= 0-320000] [Missing=*] |
| Statistics [NW/ W] | [Valid=97642 /-] [Invalid=240 /-] [Mean=648.659 /-] [StdDev=1397.57 /-] |
| Literal question | Plinth area of the house (in square feet): |
| Interviewer's instructions | Plinth refers to the construction extending from the top of the foundation to the ground floor level of the house i.e. foundation base of a building. Plinth area is the total constructed area of the surface on the ground over which the structure is created. The plinth area will be recorded against this item in square feet in whole numbers. In case more than one structure is used by the household, total plinth area of all taken together will be recorded. In case of a multi-storeyed building plinth area will refer to the whole building. |

#18 B5_q3: Plinth level(feet)

| | |
|-----------------------------------|---|
| Information | [Type= continuous] [Format=numeric] [Range= 0-96] [Missing=*] |
| Statistics [NW/ W] | [Valid=97752 /-] [Invalid=130 /-] [Mean=1.097 /-] [StdDev=1.297 /-] |
| Literal question | Plinth level (in feet) |
| Interviewer's instructions | Plinth level means the constructed ground floor level from the land (at the main entrance of the building) on which the building is constructed. If the ground floor is at the same level as the land on which the house stands, it will be considered as having no plinth and '0' will be recorded. It may be noted that plinth level of the building is to be recorded, even if the household is residing in a floor higher or lower than the ground floor. If the building consists of more than one structure, plinth level of the building will relate to the main (in the sense of having greater floor area) structure used for residential purpose. The plinth level will be recorded against this item in feet in whole numbers. |

#19 B5_q4: Use of house

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97716 /-] [Invalid=0 /-] |
| Literal question | Use of house |
| Interviewer's instructions | The purpose for which the house is used will be entered against this item. In case of a flat, it will refer to the flat in which the household is residing. |

| Value | Label | Cases | Percentage |
|-------|-------------------------------|-------|------------|
| 0 | NR | 1 | 0.0% |
| 1 | Residential only | 91674 | 93.8% |
| 2 | Residential-cum-factory | 1012 | 1.0% |
| 3 | Residential-cum-office | 484 | 0.5% |
| 4 | Residential-cum-shop | 2797 | 2.9% |
| 5 | Any combination of code-3,3,4 | 441 | 0.5% |
| 8 | Invalid | 1 | 0.0% |
| 9 | Others | 1306 | 1.3% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#20 B5_q5: Period since built(code)

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97725 /-] [Invalid=0 /-] |
| Interviewer's instructions | Period since built will be counted from the time of the first occupation after completion of the building and this information will be entered in terms of codes..Period since built is in respect of the ground floor of the building when the different stories were built at different times and the household is occupying the whole building. However, if different storeys are occupied by different households, year of construction will relate to the unit where the sample household resides. |

| Value | Label | Cases | Percentage |
|-------|------------------|-------|------------|
| 1 | Less than 1 year | 1772 | 1.8% |
| 2 | 1 to 5 years | 8678 | 8.9% |

File Block5-records

#20 B5_q5: Period since built(code)

| Value | Label | Cases | Percentage |
|-------|------------------|-------|------------|
| 3 | 5 to 10 years | 25009 | 25.6% |
| 4 | 10 to 20 years | 30313 | 31.0% |
| 5 | 20 to 40 years | 21218 | 21.7% |
| 6 | 40 to 60 years | 6871 | 7.0% |
| 7 | 60 to 80 years | 2136 | 2.2% |
| 8 | 80 years or more | 1726 | 1.8% |
| 9 | | 2 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#21 B5_q6: Condition of structure

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97670 /-] [Invalid=0 /-] |
| Literal question | Condition of structure |
| Interviewer's instructions | <p>Condition of structure refers to the physical condition of the structure of the house and will be recorded in appropriate code. The code relevant for the structure will be determined as follows:</p> <p>(i) if the structure does not require any immediate repairs, major or minor, it will be regarded as in 'good' condition and code 1 will be assigned.</p> <p>(ii) if the structure requires immediate minor repairs but not major repairs, it will be regarded as in 'satisfactory' condition and code 2 will be recorded for such a structure.</p> <p>(iii) if the structure of the building requires immediate major repairs without which it may be unsafe for habitation or requires to be demolished and rebuilt, it will be regarded as in 'bad' condition and code 3 will be recorded for such building.</p> |

| Value | Label | Cases | Percentage |
|-------|--------------|-------|------------|
| 1 | Good | 32528 | 33.3% |
| 2 | Satisfactory | 47612 | 48.7% |
| 3 | Bad | 17511 | 17.9% |
| 9 | Invalid | 19 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#22 B5_q7: Drainage arrangement

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97730 /-] [Invalid=0 /-] |
| Literal question | Drainage arrangement |
| Interviewer's instructions | <p>Information on the drainage arrangement available to the house will be recorded against this item in codes. Drainage arrangement means arrangement for carrying off the waste water and liquid waste of the house.</p> |

| Value | Label | Cases | Percentage |
|-------|---------------|-------|------------|
| 0 | NR | 1 | 0.0% |
| 1 | Underground | 10573 | 10.8% |
| 2 | Covered pucca | 6155 | 6.3% |

| 4 | Open katcha | 16722 | 17.1% |
| 5 | No drainage | 44090 | 45.1% |
| 9 | Invalid | 2 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

File Block5-records

#23 B5_q8: Garbage disposal

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=45782 /-] [Invalid=0 /-] |
| Literal question | Garbage disposal (urban only) |
| Interviewer's instructions | This item will be filled in for urban areas only. For fsus belonging to rural area, a '-' may be put against this item. In the urban areas, some arrangements usually exist to carry away the refuse and waste of households to some dumping place away from the residential areas. In some places, the public bodies collect the garbage from the premises of the household or from some fixed points in the locality where the residents put their garbage. In some places, a body of residents themselves make the arrangement of carrying the garbage to the final dumping place away from residential areas without participation of any public body. Information on the arrangement prevailing for the colony / locality of the dwelling unit will be obtained and entered in codes. |

| Value | Label | Cases | Percentage |
|-------|---------------------------------------|-------|------------|
| 0 | NR | 28 | 0.1% |
| 1 | By Panchayat/municipality/corporation | 23561 | 51.5% |
| 2 | By resident(s) | 8282 | 18.1% |
| 3 | No arrangement | 12198 | 26.6% |
| 8 | Invalid | 55 | 0.1% |
| 9 | Others | 1658 | 3.6% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#24 B5_q9: Animal shed

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97709 /-] [Invalid=0 /-] |
| Literal question | Animal shed |
| Interviewer's instructions | Information as to whether there is any animal shed or not in the building or its neighbourhood will be recorded against this item in codes. If there is no animal shed within 100 feet of the house (even on the adjacent plots) code 3 will be recorded. If there is an animal shed in the house or attached to the house code 2 will be recorded. If there is an animal shed within 100 feet of the house but not within / attached to it, code 1 will be recorded. The animals and / or the shed need not be owned or possessed by any household in the house. Animal shed for the purpose of this survey, is a structure where livestock (cattle, buffalo, horse, goat, pig, etc. but not poultry and pets) are sheltered. |

| Value | Label | Cases | Percentage |
|-------|----------------------------|-------|------------|
| 1 | Detached from the building | 21338 | 21.8% |
| 2 | Attached to the building | 11378 | 11.6% |
| 3 | No animal shed | 64991 | 66.5% |
| 9 | Invalid | 2 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#25 B5_q10: Experienced-flood

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97752 /-] [Invalid=0 /-] |
| Literal question | Whether experienced any flood during last 5 years? |
| Interviewer's instructions | If rain water during monsoon and / or water from sea, river etc. enters into the ground floor of the house, then the house is said to have experienced flood. In case both codes 1 and 2 are applicable, code 2 will be recorded. 6. |

| Value | Label | Cases | Percentage |
|-------|--------------------------|-------|------------|
| 1 | Yes: from excessive rain | 4689 | 4.8% |
| 2 | River,sea etc | 5960 | 6.1% |

File Block5-records**#25 B5_q10: Experienced-flood**

| Value | Label | Cases | Percentage |
|-------|---------|-------|------------|
| 3 | None | 87043 | 89.0% |
| 9 | Invalid | 60 | 0.1% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#26 B5_q11: Approach road/lane

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97722 /-] [Invalid=0 /-] |
| Literal question | Approach road / lane / constructed path. |
| Interviewer's instructions | Information as to whether the house has a direct opening to any road or not will be recorded against this item in codes. If from the plot of the house, one can approach a road / lane / constructed path without passing through another plot, the house is to be regarded as having a direct opening to a road. If, on the other hand, one has to pass through another plot to approach a road / lane / constructed path, the house is to be regarded as having no direct opening to a road. A road / lane / constructed path will be treated as having street lights if it has some lighting provision as on the date of survey. |

| Value | Label | Cases | Percentage |
|-------|---|-------|------------|
| 1 | Direct opening to: Motorable road /lane /constructed path with street light | 28891 | 29.6% |
| 2 | Motorable road / lane / constructed path without street light | 12169 | 12.5% |
| 3 | Other road / lane / constructed path with street light | 9740 | 10.0% |
| 4 | Other road / lane / constructed path without street light | 31942 | 32.7% |
| 5 | No direct opening to road / lane / constructed path | 14978 | 15.3% |
| 9 | Invalid | 2 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

| #16 B6_q1: Ownership-dwelling | | | |
| Value | Label | Cases | Percentage |
| 4 | No dwelling | 130 | 0.1% |
| 9 | Others | 3790 | 3.9% |
| <i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i> | | | |
| #17 B6_q2: Monthly rent(Rs) | | | |
| Information | [Type= continuous] [Format=numeric] [Range= 0-15000] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=15384 /-] [Invalid=82498 /-] [Mean=620.131 /-] [StdDev=779.369 /-] | | |
| Pre-question | If code =2 or 3 ask. | | |
| Literal question | Monthly rent(Rs) | | |
| Post-question | if code=2,3,4 in Q.1 skip this question | | |
| Interviewer's instructions | This item will be filled in for all dwellings with code 2 or 3 against item 1. For other households, a '-' mark may be put against this item. The actual amount (in whole number of Rupees) payable per month by the household will be recorded against this item. If the household has paid some amount initially which is adjusted in the monthly rent, the amount adjusted in each month shall also be included in the monthly rent. If the household is residing in employer's quarters, (i.e. for those with code 2 against item 1), the amount deducted from the salary of the household member for whom the quarter is allotted on account of rent for the dwelling unit plus the house rent allowance the person might have received if he/she had not been provided the accommodation, will be the rent of the dwelling unit. Rent does not include any salami/pugree or any kind of cess payable to local bodies or government or monthly maintenance charges payable to the co-operative society etc. | | |
| #18 B6_q3: Year of taking rent | | | |
| Information | [Type= continuous] [Format=numeric] [Range= 0-9600] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=15381 /-] [Invalid=82501 /-] [Mean=1988.684 /-] [StdDev=122.893 /-] | | |
| Pre-question | If code =2 or 3 ask. | | |
| Literal question | Year of taking rent | | |
| Post-question | if code=2,3,4 in Q.1 skip this question | | |
| Interviewer's instructions | The year when the dwelling was taken on rent is to be recorded against this item. The cell against this item has been divided into four cells for recording four digits of the year, e.g., 1998. | | |
| #19 B6_q4: Deposit(Rs) | | | |
| Information | [Type= continuous] [Format=numeric] [Range= 0-600000] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=7736 /-] [Invalid=90146 /-] [Mean=3786.978 /-] [StdDev=13531.593 /-] | | |
| Pre-question | If code =2 or 3 ask. | | |
| Literal question | Non-adjustable deposit paid (Rs): | | |
| Post-question | if code=2,3,4 in Q.1 skip this question | | |
| Interviewer's instructions | The amount of non-adjustable deposit paid for taking the dwelling on rent is to be recorded in rupees in whole number. Non-adjustable deposit means the deposit which is not adjusted in the monthly rent of the dwelling. | | |
| #20 B6_q5: Recoverable (code)? | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=3700 /-] [Invalid=0 /-] | | |
| Pre-question | If code =2 or 3 ask. | | |
| Literal question | Whether recoverable at the time of vacation?: | | |
| Post-question | if code=2,3,4 in Q.1 skip this question | | |
| Interviewer's instructions | In case the entry against item 4 is positive, then it is to be ascertained whether or not the deposit paid is recoverable at the time of vacating the dwelling. If the deposit is recoverable code 1 is to be given, else code | | |

File Block6-records

#20 B6_q5: Recoverable (code)?

2 is to be given. In case only a part of the amount is recoverable, then code 1 may be given if the recoverable amount forms major part of the deposit; else code 2 may be given.

| Value | Label | Cases | Percentage |
|-------|---------|-------|------------|
| 0 | NR | 147 | 4.0% |
| 1 | Yes | 3376 | 91.2% |
| 2 | No | 170 | 4.6% |
| 9 | Invalid | 7 | 0.2% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#21 B6_q6: Imputed monthly rent(Rs)

| | |
|-----------------------------------|---|
| Information | [Type= continuous] [Format=numeric] [Range= 0-50000] [Missing=*] |
| Statistics [NW/ W] | [Valid=81556 /-] [Invalid=16326 /-] [Mean=595.125 /-] [StdDev=1083.284 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Literal question | If not hired (i.e. if code 1 or 9 in item 1), imputed monthly rent (Rs.) |
| Post-question | if code=4 in Q.1 skip this question |
| Interviewer's instructions | Information on imputed rent for those dwellings which are not hired (i.e. for those with codes 1 or 9 in item 1 of this block) will be collected and entered against this item. Imputation will be done on the basis of the prevailing rate of rent for similar accommodation in the locality. For hired dwellings (i.e. for those with codes 2 or 3 in item 1) a '-' will be put against this item. Imputed rent will be recorded in rupees in whole number. Proper probing and local enquiry is essential to ascertain the rent, the dwelling unit may fetch at the prevailing market rate. |

#22 B6_q7: Residential-status

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=13402 /-] [Invalid=0 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Post-question | if code=4 in Q.1 skip this question |
| Interviewer's instructions | Residential status of the landlord (for those households with code 3 against item 1) will be recorded in codes. |

| Value | Label | Cases | Percentage |
|-------|---|-------|------------|
| 0 | NR | 55 | 0.4% |
| 1 | Staying in Same building | 5302 | 39.6% |
| 2 | Staying in Same village/town | 6401 | 47.8% |
| 3 | Staying in Same district | 879 | 6.6% |
| 4 | Staying in Other district of the same state | 493 | 3.7% |
| 5 | Staying in Other state | 200 | 1.5% |
| 6 | Staying in Other country | 43 | 0.3% |
| 9 | Invalid | 29 | 0.2% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#23 B6_q8: Type-dwelling

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97212 /-] [Invalid=0 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Post-question | if code=4 in Q.1 skip this question |
| Interviewer's instructions | The information on the type of the dwelling unit will be entered against this item in codes. |

File Block6-records

#23 B6_q8: Type-dwelling

| Value | Label | Cases | Percentage |
|-------|-------------------|-------|------------|
| 0 | NR | 1 | 0.0% |
| 1 | Independent house | 73229 | 75.3% |
| 2 | Flat | 10635 | 10.9% |
| 8 | Invalid | 18 | 0.0% |
| 9 | Others | 13329 | 13.7% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#24 B6_q9: No. of living rooms

| | |
|---------------------------|--|
| Information | [Type= continuous] [Format=numeric] [Range= 0-99] [Missing=*] |
| Statistics [NW/ W] | [Valid=96674 /-] [Invalid=1208 /-] [Mean=1.997 /-] [StdDev=1.602 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Literal question | Number of living rooms in the dwelling: |
| Post-question | if code=4 in Q.1 skip this question |

#25 B6_q10: No. of other rooms

| | |
|---------------------------|--|
| Information | [Type= continuous] [Format=numeric] [Range= 0-90] [Missing=*] |
| Statistics [NW/ W] | [Valid=67604 /-] [Invalid=30278 /-] [Mean=1.62 /-] [StdDev=1.989 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Literal question | Number of other rooms in the dwelling: |
| Post-question | if code=4 in Q.1 skip this question |

#26 B6_q11: Floor-area living rooms(sq.ft)

| | |
|-----------------------------------|--|
| Information | [Type= continuous] [Format=numeric] [Range= 0-8748] [Missing=*] |
| Statistics [NW/ W] | [Valid=96749 /-] [Invalid=1133 /-] [Mean=265.591 /-] [StdDev=220.269 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Literal question | Floor area living room(square feet) |
| Post-question | if code=4 in Q.1 skip this question |
| Interviewer's instructions | Information for each of these items is to be recorded in square feet and in whole numbers. The information on inside floor area (carpet area), i.e. the inside area of the floor excluding the area covered by the walls, of all "living rooms" taken together is to be recorded against item 11 and that of "other rooms" will be recorded against item 12. If a room is used without any apportioning for both business and residential purposes and the residential use is not very nominal, the total area of the room will be included for recording the entry. On the other hand, if only a portion of a room is used for residential purposes, only the area of that portion will be included for making the entry. The same procedure will be adopted in case of room being shared with another household. The floor area of the "covered veranda" and that of "uncovered veranda" is to be recorded against items 13 and 14 respectively. |

#27 B6_q12: Floor-area other rooms(sq.ft)

| | |
|-----------------------------------|---|
| Information | [Type= continuous] [Format=numeric] [Range= 0-9360] [Missing=*] |
| Statistics [NW/ W] | [Valid=65438 /-] [Invalid=32444 /-] [Mean=132.519 /-] [StdDev=174.101 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Literal question | Floor area other room(square feet) |
| Post-question | if code=4 in Q.1 skip this question |
| Interviewer's instructions | See Q.11 for details |

File Block6-records

#28 B6_q13: Floor-area veranda(sq.ft)

| | |
|-----------------------------------|---|
| Information | [Type= continuous] [Format=numeric] [Range= 0-3192] [Missing=*] |
| Statistics [NW/ W] | [Valid=31145 /-] [Invalid=66737 /-] [Mean=91.001 /-] [StdDev=93.917 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Literal question | Floor area veranda (square feet) |
| Post-question | if code=4 in Q.1 skip this question |
| Interviewer's instructions | See Q.11 for details |

#29 B6_q14: Floor-area uncovered(sq.ft)

| | |
|-----------------------------------|--|
| Information | [Type= continuous] [Format=numeric] [Range= 0-12550] [Missing=*] |
| Statistics [NW/ W] | [Valid=37883 /-] [Invalid=59999 /-] [Mean=96.497 /-] [StdDev=137.878 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Literal question | Floor area uncovered(square feet) |
| Post-question | if code=4 in Q.1 skip this question |
| Interviewer's instructions | See Q.11 for details |

#30 B6_q15: Floor area (sq.ft)

| | |
|-----------------------------------|---|
| Information | [Type= continuous] [Format=numeric] [Range= 5-15870] [Missing=*] |
| Statistics [NW/ W] | [Valid=97734 /-] [Invalid=148 /-] [Mean=418.048 /-] [StdDev=364.962 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Literal question | Total Floor area(square feet) |
| Post-question | if code=4 in Q.1 skip this question |
| Interviewer's instructions | See Q.11 for details |

#31 B6_q16: Ventilation

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=numeric] [Range= 1-9] [Missing=*] |
| Statistics [NW/ W] | [Valid=97586 /-] [Invalid=296 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Literal question | Ventilation of the dwelling unit |
| Post-question | if code=4 in Q.1 skip this question |
| Interviewer's instructions | Information as to whether, in general, ventilation of the dwelling unit is good, satisfactory or bad will be collected and entered against this item in terms of codes.It is to be noted that ventilation of all the rooms in the dwelling unit is to be considered. By ventilation it is generally meant the extent to which the rooms are open to air and light. For eliciting this information, the investigator will have to depend mainly on the judgement of the informant. |

| Value | Label | Cases | Percentage |
|---------|--------------|-------|------------|
| 1 | Good | 27015 | 27.7% |
| 2 | Satisfactory | 43130 | 44.2% |
| 3 | Bad | 27438 | 28.1% |
| 9 | Invalid | 3 | 0.0% |
| Sysmiss | | 296 | |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#32 B6_q17: Married couples

| | |
|--------------------|---|
| Information | [Type= continuous] [Format=numeric] [Missing=*] |
|--------------------|---|

File Block6-records

#32 B6_q17: Married couples

| | |
|-----------------------------------|--|
| Statistics [NW/ W] | [Valid=93418 /-] [Invalid=4464 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Literal question | Total number of married couples in the household |
| Post-question | if code=4 in Q.1 skip this question |
| Interviewer's instructions | Total number of married couples in the household irrespective of their ages is to be recorded in this item. A man with two wives in a household will constitute two married couples. But one woman with two husbands in a household will form a single couple. |

#33 B6_q18: Separate rooms

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97593 /-] [Invalid=0 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Literal question | Whether a separate room is available to each married couple?: |
| Post-question | if code=4 in Q.1 skip this question |
| Interviewer's instructions | Information as to whether each married couple of the household has a separate room for their use or not is to be ascertained and recorded against this item in terms of codes. Even if children of age 10 years or below are also using the room along with the couple, it is to be considered as a case of having a separate room for the couple. A couple living in single room-cum-kitchen will be considered to have a separate room. |

| Value | Label | Cases | Percentage |
|-------|----------------|-------|------------|
| 0 | NR | 6 | 0.0% |
| 1 | Yes | 60450 | 61.9% |
| 2 | No | 22578 | 23.1% |
| 3 | Not applicable | 43 | 0.0% |
| 9 | Invalid | 14516 | 14.9% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#34 B6_q19: Not-separate rooms

| | |
|-----------------------------------|--|
| Information | [Type= continuous] [Format=numeric] [Missing=*] |
| Statistics [NW/ W] | [Valid=22564 /-] [Invalid=75318 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Literal question | If code 2 in item 18, number of married couples not getting a separate room: |
| Post-question | if code=4 in Q.1 skip this question |
| Interviewer's instructions | If code 2 in item 18, number of married couples not getting a separate room is to be recorded against this item. |

#35 B6_q20: kitchen type

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=numeric] [Range= 0-5] [Missing=*] |
| Statistics [NW/ W] | [Valid=97701 /-] [Invalid=181 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Literal question | Kitchen type |
| Post-question | if code=4 in Q.1 skip this question |
| Interviewer's instructions | Information about the kitchen facility in the dwelling unit will be recorded in codes.If the dwelling unit has a room used exclusively as a kitchen, it will be considered to have a separate kitchen. If such a kitchen has a water tap inside, code 1 will be recorded and code 2 will be recorded otherwise. If a room is used as kitchen-cum-store or kitchen-cum-dining room, then also the household will be considered to have a separate kitchen. In all other cases, code 3 will be recorded. If a room, with or without partition (which does not extend up to the ceiling), is shared as kitchen by two or more households, code 3 will be the appropriate entry against this item. |

File Block6-records

#35 B6_q20: kitchen type

| Value | Label | Cases | Percentage |
|---------|----------------------------------|-------|------------|
| 0 | NR | 2 | 0.0% |
| 1 | Separate kitchen: with water tap | 11363 | 11.6% |
| 2 | Without water tap | 35700 | 36.5% |
| 3 | No separate kitchen | 50631 | 51.8% |
| 5 | Invalid | 5 | 0.0% |
| Sysmiss | | 181 | |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#36 B6_q21: Floor type

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97741 /-] [Invalid=0 /-] |
| Pre-question | If code not =4 in Q.1 ask |
| Literal question | Floor type |
| Post-question | if code=4 in Q.1 skip this question |
| Interviewer's instructions | Information on the basic building materials with which the floor, walls and roof of the dwelling unit are constructed will be collected and recorded in codes against items 21, 22 and 23, respectively. When the basic building materials used are different for different walls, the materials used for major portion of wall area of the dwelling will be the wall type. For determining the wall type, only the walls of the dwelling will be considered. Roof / floor type will also be determined on the basis of the material used for major portion of roof / floor area of the dwelling, if the different portions of the roof / floor are made of different building materials. For determining the material of the roof, the material of which the outer roof exposed to the weather (and not the ceiling) is made i.e. tiles, thatch, corrugated iron, zinc or asbestos sheet etc. will be considered. However, if the roof is mainly made of bricks, tiles, stone etc. with the mud, cement or lime plaster exposed to the sky, the material of roof will not be mud, cement, lime etc. but it will be brick, tile, stone etc. which constituted the fabric of the roof. |

| Value | Label | Cases | Percentage |
|-------|--------------------------|-------|------------|

#17 B7_q2: Srl no of constrction

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=40258 /-] [Invalid=0 /-] |
| Literal question | Srl no of two most recent constructions |
| Interviewer's instructions | Srl. no. 1 and 2 are already printed in column (3) and (4) for recording information about two most recent constructions 'at the present premises' and in column (5), (6) for constructions 'elsewhere'. Each column relates to one construction and information in items 3 to 23 is to be collected for each construction. |

| Value | Label | Cases | Percentage |
|-------|--|-------|------------|
| 11 | Constrn.Sl.no1 at the present premises | 19742 | 49.0% |
| 12 | Constrn.Sl.no2 at the present premises | 19742 | 49.0% |
| 21 | Constrn.Sl.no1 elsewhere | 387 | 1.0% |
| 22 | Constrn.Sl.no2 elsewhere | 387 | 1.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#18 B7_q1: No. of constructions initiated

| | |
|-----------------------------------|---|
| Information | [Type= continuous] [Format=numeric] [Missing=*] |
| Statistics [NW/ W] | [Valid=40258 /-] [Invalid=0 /-] |
| Literal question | Number of constructions initiated during last 5 years |
| Interviewer's instructions | The number of constructions (as defined above) initiated by the sample household for residential purposes during the last 5 years is to be entered against this item. If entry is '0' in col. (3) or col. (5) of Q.1, Q 2 to 23 under that category will not be filled in. |
| Notes | Note that the Same figure is repeated in column-4 B7-Q2= 12 and column-6 (B7_q2=.22) and hence ignore the same while tabulating. |

#19 B7_q3: Type of construction

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=40258 /-] [Invalid=0 /-] |
| Pre-question | Check if Q.1 is not 0 then ask this Question |
| Literal question | Type of construction |
| Post-question | if Q.1 is 0 skip this question |
| Interviewer's instructions | Against item 2, serial numbers of construction 1 & 2 are already printed. Against item 3, type of construction will be recorded in codes in different columns. If there was one construction 'at the present premises' and one 'elsewhere, columns (3) and (5) with serial number 1 are to be used for recording information for these constructions. All columns are to be used when there are two constructions 'at the present premises' and two 'elsewhere'. For construction of an entirely new building code 1 will be recorded. If extension of existing building results in the increase of floor area, it is to be considered as addition to floor area and code 2 will be recorded for such construction. Any type of remodelling, renovation or major repair work is to be treated as alteration/improvement/ major repair and code 3 will be recorded for such constructions. |
| Notes | Code 5 in this variable is incorrect and hence treat accordingly |

| Value | Label | Cases | Percentage |
|-------|-------------------------------------|-------|------------|
| 1 | New building | 7950 | 19.7% |
| 2 | Addition to floor space | 2437 | 6.1% |
| 3 | Alteration/improvement/major repair | 10983 | 27.3% |
| 5 | | 18888 | 46.9% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

File Block7-records

#20 B7_q4: Construction completed

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=21140 /-] [Invalid=0 /-] |
| Pre-question | Check if Q.1 is not 0 then ask this Question |
| Literal question | Whether construction is complete as on the date of survey?: |
| Post-question | if Q.1 is 0 skip this question |
| Interviewer's instructions | A new building construction will be considered as 'completed' if it is considered by its owner as completed and ready for its first occupation. Issuing of 'completion certificate' from any authority will not be a pre-requisite for the building to be considered as 'completed'. In the case of addition, alteration and improvement, a construction will be considered as 'completed' if the owner feels so. If the construction is 'complete' on the date of survey, code 1 will be recorded, otherwise code 2 will be recorded. |

| Value | Label | Cases | Percentage |
|-------|---------|-------|------------|
| 0 | NR | 7 | 0.0% |
| 1 | Yes | 18225 | 86.2% |
| 2 | No | 2902 | 13.7% |
| 9 | Invalid | 6 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#21 B7_q5: mon-year completion

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=18728 /-] [Invalid=0 /-] |
| Pre-question | Check if Q.1 is not 0 then ask this Question |
| Literal question | Month / year of completion: |
| Post-question | if Q.1 is 0 skip this question |
| Interviewer's instructions | For the construction completed during the last 5 years, the date of completion will be recorded against this item in relevant columns (3) to (6). The entry will be in 4-digit formation of which the leftmost 2 digits will indicate the month of the year and the rightmost 2 digits the year of completion. Thus, if the construction was completed in August 2000, the appropriate entry will be '0800' (08 will be under the cells with MM and 00 under YY). |
| Notes | This field not validated properly |

#22 B7_q6: Type structure

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=18633 /-] [Invalid=0 /-] |
| Pre-question | Check if Q.1 is not 0 then ask this Question |
| Literal question | Type of structure |
| Post-question | if Q.1 is 0 skip this question |
| Interviewer's instructions | The type of structure i.e. whether the structure constructed is pucca, semi-pucca or katcha will be recorded against this item in terms of codes for each construction completed. If a building consists of different types of structure, the determination of its type will be based on the type of structure that covers major floor area. Katcha includes both serviceable katcha and unserviceable katcha. |

| Value | Label | Cases | Percentage |
|-------|------------|-------|------------|
| 0 | NR | 8 | 0.0% |
| 1 | Pucca | 7710 | 41.4% |
| 2 | Semi-pucca | 4018 | 21.6% |
| 3 | Katcha | 6896 | 37.0% |
| 9 | Invalid | 1 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

File Block7-records

#23 B7_q7: Floor area(sq.ft)

| | |
|-----------------------------------|---|
| Information | [Type= continuous] [Format=numeric] [Range= 0-8000] [Missing=*] |
| Statistics [NW/ W] | [Valid=13496 /-] [Invalid=26762 /-] [Mean=316.551 /-] [StdDev=331.35 /-] |
| Pre-question | Check if Q.1 is not 0 then ask this Question |
| Literal question | Floor area(sq.ft) |
| Post-question | if Q.1 is 0 skip this question |
| Interviewer's instructions | This item will be filled-in for (i) new building and (ii) also in the case of building where addition to floor space has taken place (for those constructions with codes 1 or 2 against item 3). Floor area refers to the carpet area of the building. It includes the area of room, kitchen etc., but excludes uncovered area both inside and outside the structure; e.g. terrace, stairs, stairways, landing etc. |

#24 B7_q8: No of dwelling units

| | |
|-----------------------------------|---|
| Information | [Type= continuous] [Format=numeric] [Range= 0-20] [Missing=*] |
| Statistics [NW/ W] | [Valid=14286 /-] [Invalid=25972 /-] |
| Pre-question | Check if Q.1 is not 0 then ask this Question |
| Literal question | Number of dwelling units: |
| Post-question | if Q.1 is 0 skip this question |
| Interviewer's instructions | The number of dwelling units occupying or expected to occupy the new building or the additional floor space constructed will be recorded against this item in the relevant column(s). |

#25 B7_q9: Cost of construction-last 5 years

| | |
|-----------------------------------|--|
| Information | [Type= continuous] [Format=numeric] [Range= 0-2800000] [Missing=*] |
| Statistics [NW/ W] | [Valid=21365 /-] [Invalid=18893 /-] [Mean=48474.779 /-] [StdDev=121922.071 /-] |
| Pre-question | Check if Q.1 is not 0 then ask this Question |
| Literal question | Cost of construction during last 5 years (Rs.) |
| Post-question | if Q.1 is 0 skip this question |
| Interviewer's instructions | Actual cost incurred for the construction during the last 5 years will be recorded in whole number of rupees against this item in the relevant column(s). The cost of purchase or procurement of only that part of the total materials, labour (household labour will be evaluated at the wage rate prevailing at the time of construction) and services (i.e. expenditure incurred including payment due on account of professional and personal services, municipal and other taxes and fees etc. for construction) hired which have actually been utilised in the construction during the reference period will be considered for making entries. Materials supplied from home will be evaluated at the ex-farm/ex-factory price prevailing at the time of its use. For materials obtained as free collection and used in the construction, only transport charges and the related hired and household labour will be evaluated. Similarly household labour may be evaluated at the prevailing local rates. Household supervision shall not be considered. The total cost will also include the cost of site preparation such as demolition of the existing structure, development of land, etc. However, the value of land on which the construction is made will not be included in the cost to be recorded against this item as also the expenditure incurred on routine repairs and maintenance of the structure such as white washing, painting etc. |

#26 B7_q10: Source finance -Own

| | |
|-----------------------------------|--|
| Information | [Type= continuous] [Format=numeric] [Range= 0-2800000] [Missing=*] |
| Statistics [NW/ W] | [Valid=18920 /-] [Invalid=21338 /-] [Mean=35755.421 /-] [StdDev=93412.032 /-] |
| Pre-question | Check if Q.1 is not 0 then ask this Question |
| Literal question | source of finance of construction during last 5 years : OWN |
| Post-question | if Q.1 is 0 skip this question |
| Interviewer's instructions | For each of the two most recent constructions (at the present premises and elsewhere), the amount spent in actual money terms during the reference period will be recorded in the relevant columns by the sources from where the money was obtained. Eight different sources are already listed and the amount obtained from each source for the construction will be recorded against the different source in whole number of rupees. As this item refers to only cash expenditure, the total amount recorded against item 10 to 18 need not agree with the total |

File Block7-records

#26 B7_q10: Source finance -Own

| | |
|--|--|
| | <p>cost of construction recorded against item 9. While recording the entries against the different sources of finance the following may be kept in mind.</p> <p>(i) The amount to be recorded against 'own source' relates to the savings of the different members of the household for whom the construction has been undertaken.</p> <p>(ii) Amount spent on construction out of the borrowings from co-operative society, co-operative bank etc. will be recorded against 'co-operative'.</p> <p>(iii) All institutions (excluding co-operative societies, co-operative banks etc.) primarily engaged in banking and financing activities, insurance services etc. will be treated as 'financial institutions'. Those run by the government, local bodies etc. will be considered as 'government financial institutions' and those run by private agencies will be treated as 'non-government financial institutions'.</p> <p>(iv) Persons who lend money on interest will be considered as money lenders.</p> <p>(v) Friends and relatives in this particular context are those who lend money free of interest. A friend or relative who charges interest for any loan advanced will be regarded as money lender.</p> <p>(vi) In the case of final withdrawal from provident fund, for construction, it will be considered as taken from own source, but if money is taken as a loan from provident fund which is to be repaid, it should be considered as borrowing from government or non-government non-financial institution depending on the status of the employer.</p> |

| Literal question | Cost of construction during last year (Rs)- pucca material |
| Post-question | if Q.1 is 0 skip this question |
| Interviewer's instructions | Expenditure on two most recent constructions (at the present premises and elsewhere) incurred during last year will be recorded against this item with the break up in items 19-20: material-separately pucca and others, item 21: labour and item 22: others. The total expenditure will be recorded against item 23. Expenditure relating to the material and labour purchased, hired or procured but not used in the construction during the last one year will not be taken into account for filling in this item. It may be noted that, service charges, i.e., expenditure incurred (including payments due) on account of professional and personal services, municipal and other taxes and fees if any for construction, rental and hire charges of equipment used for construction will be included with others. All efforts are to be made to give item-wise information in items 19-22. However, in extremely few cases if it is not possible, total amount may be recorded in item 23 and remarks be given in blocks 10/11. |

| #40 B7_q23: Total cost q19 to q22 | |
| Statistics [NW/ W] | [Valid=8436 /-] [Invalid=31822 /-] [Mean=41260.913 /-] [StdDev=102944.814 /-] |
| Pre-question | Check if Q.1 is not 0 then ask this Question |
| Literal question | Cost of construction during last year (Rs)-Total cost |
| Post-question | if Q.1 is 0 skip this question |
| Interviewer's instructions | See q.19 for details |
| #41 B7_q24: Total exp incurred new resdl unit | |
| Information | [Type= continuous] [Format=numeric] [Range= 0-2600000] [Missing=*] |
| Statistics [NW/ W] | [Valid=40258 /-] [Invalid=0 /-] [Mean=2288.245 /-] [StdDev=39211.157 /-] |
| Pre-question | Check if Q.1 is not 0 then ask this Question |
| Literal question | Total expenditure incurred for acquiring new residential unit during last 5 years (Rs.): |
| Post-question | if Q.1 is 0 skip this question |
| Interviewer's instructions | If the sample household did not carry out the construction itself but made full or part payment during the last 5 years for acquiring or for already acquired readymade new house / flat, the total amount paid for this purpose will be recorded in item 24. It may be noted that the 'new residential unit' means first hand purchase irrespective of the year of purchase and second hand purchase is not to be considered. If the cost of the land is paid separately, then the amount paid for the land will not be considered for recording the total expenditure. But if it cannot be separated, the total would include the cost of the land. |

| #16 B8_q1: own any dwelling | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=97795 /-] [Invalid=0 /-] | | |
| Literal question | Does the household own any dwelling elsewhere? | | |
| Interviewer's instructions | It is to be ascertained whether the sample household owns any dwelling unit elsewhere, i.e., in place(s) other than the place of present stay and the information obtained will be entered in codes against item 1. | | |
| Value | Label | Cases | Percentage |
| 1 | Yes : At native place | 7991 | 8.2% |
| 2 | Other place : same village/town | 1654 | 1.7% |
| 3 | Elsewhere | 1066 | 1.1% |
| 4 | Native place as well as other place | 468 | 0.5% |
| 5 | No | 86616 | 88.6% |
| <i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i> | | | |
| #17 B8_q2: Type of structure | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=10868 /-] [Invalid=0 /-] | | |
| Literal question | Type of structure | | |

File Block8-records

#17 B8_q2: Type of structure

| | |
|-----------------------------------|--|
| Interviewer's instructions | If the sample household owns any dwelling elsewhere (i.e. for codes 1, 2, 3 or 4 against item 1), the type of structure i.e., whether the structure is pucca, semi-pucca, serviceable katcha or unserviceable katcha will be recorded against this item in terms of codes. When the household owns dwellings at two or more places (i.e. for code 4 against item 1), the information to be recorded will relate to the best type of structure. This procedure is to be adopted for filling in items 3 and 4 also. |
|-----------------------------------|--|

| Value | Label | Cases | Percentage |
|-------|----------------------|-------|------------|
| 1 | Pucca | 5363 | 49.3% |
| 2 | Semi-pucca | 3567 | 32.8% |
| 3 | Serviceable katcha | 1690 | 15.6% |
| 4 | Unserviceable katcha | 237 | 2.2% |
| 9 | Invalid | 11 | 0.1% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#18 B8_q3: Location

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=10830 /-] [Invalid=0 /-] |
| Literal question | If codes 1 to 4 in item 1, location. |
| Interviewer's instructions | The location of the dwelling owned by the household elsewhere will be recorded in terms of codes against this item. |

| Value | Label | Cases | Percentage |
|-------|--|-------|------------|
| 1 | Rural | 3954 | 36.5% |
| 2 | Urban | 1526 | 14.1% |
| 3 | Other district of the same state-Rural | 2083 | 19.2% |
| 4 | Other district of the same state-Urban | 564 | 5.2% |
| 5 | Other state-Rural | 2248 | 20.8% |
| 6 | Other state:-Urban | 454 | 4.2% |
| 9 | Invalid | 1 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#19 B8_q4: Present use

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=10861 /-] [Invalid=0 /-] |
| Literal question | (if codes 1 to 4 in item 1) present use: |
| Interviewer's instructions | The present use of the dwelling owned by the household elsewhere will be ascertained and recorded against this item in terms of the following codes |

| Value | Label | Cases | Percentage |
|-------|-------------------|-------|------------|
| 1 | Occupied : Rented | 1367 | 12.6% |
| 2 | Free of charge | 7049 | 64.9% |
| 3 | Vacant | 2395 | 22.1% |
| 9 | Invalid | 50 | 0.5% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#20 B8_q5: Own cultivable land

| | |
|---------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=97739 /-] [Invalid=0 /-] |
| Literal question | Does the household own any cultivable land elsewhere?: |

File Block8-records

#20 B8_q5: Own cultivable land

Interviewer's instructions As in the case of dwelling(s) owned elsewhere, it is to be ascertained whether the sample household owns any cultivable land elsewhere. The information obtained will be entered against this item in codes

| Value | Label | Cases | Percentage |
|-------|--|-------|------------|
| 1 | Yes: At native place | 10879 | 11.1% |
| 2 | Yes: Other place: same village/town | 6631 | 6.8% |
| 3 | Yes: Elsewhere | 1511 | 1.5% |
| 4 | Yes: Native place as well as other place | 1139 | 1.2% |
| 5 | No | 77579 | 79.4% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#21 B8_q6: Own plot-residence

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=97790 /-] [Invalid=0 /-]

Literal question Does the household own a plot for residential house construction?:

Interviewer's instructions The information whether the sample household owns a plot for residential house construction will be ascertained and recorded in codes against item 6.

| Value | Label | Cases | Percentage |
|-------|--|-------|------------|
| 1 | Yes: At native place | 3444 | 3.5% |
| 2 | Yes: Other place: same village/town | 2544 | 2.6% |
| 3 | Yes: Elsewhere | 735 | 0.8% |
| 4 | Yes: Native place as well as other place | 335 | 0.3% |
| 5 | No | 90731 | 92.8% |
| 9 | Invalid | 1 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#22 B8_q7: Plan to construct

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=97733 /-] [Invalid=0 /-]

Literal question Does the household plan to construct / acquire a house during the next 2 years?:

Interviewer's instructions If the household on enquiry, reports that it plans to construct / acquire a house or flat during the next two years, then for such a household, code 1 will be recorded against this item; otherwise, code 2 will be recorded.

| Value | Label | Cases | Percentage |
|-------|---------|-------|------------|
| 1 | Yes | 3291 | 3.4% |
| 2 | No | 94430 | 96.6% |
| 9 | Invalid | 12 | 0.0% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#23 B8_q8: Source of finance

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=3311 /-] [Invalid=0 /-]

Literal question If code 1 in item 7, source of finance

Interviewer's instructions The source of finance for the planned construction / acquisition of the house, (if the household has such a plan, i.e. for code 1 in item 7) will be recorded against this item in codes.

| Value | Label | Cases | Percentage |
|-------|-------|-------|------------|
| 0 | NR | 23 | 0.7% |

File Block8-records

#23 B8_q8: Source of finance

| Value | Label | Cases | Percentage |
|-------|-------------|-------|------------|
| 1 | Own savings | 857 | 25.9% |
| 2 | Borrowings | 616 | 18.6% |
| 3 | Both | 1796 | 54.2% |
| 9 | Invalid | 19 | 0.6% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#24 Wgt_SS: Multiplier Sub sample-wise

| #16 B9_q1: Duration of stay-slum(years) | | | |
| Information | [Type= continuous] [Format=numeric] [Range= 0-99] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=5702 /-] [Invalid=116 /-] [Mean=19.58 /-] [StdDev=15.74 /-] | | |
| Literal question | Duration of stay in the slum (years) | | |
| Interviewer's instructions | The information on duration of stay (in years) in the slum is to be ascertained from the sample household and will be entered in whole number. The period of stay in the slum will be recorded in years rounded off to the nearest integer against this item. If the period of stay is less than 6 months, then the entry will be '0'. | | |
| #17 B9_q2: Place residing before slum | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=5818 /-] [Invalid=0 /-] | | |
| Literal question | Place where the household was residing before coming to this slum: | | |
| Interviewer's instructions | Place where the household was residing before coming to this slum will be recorded against this item in codes. In case the household has been living in the present slum throughout, then the entry will be 1 | | |
| Value | Label | Cases | Percentage |
| 1 | Within same town | 3170 | 54.5% |
| 2 | Other town | 702 | 12.1% |
| 3 | Village | 1828 | 31.4% |
| 9 | Invalid | 118 | 2.0% |
| <i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i> | | | |
| #18 B9_q3: Type struct. earlier | | | |
| Information | [Type= discrete] [Format=character] [Missing=*] | | |
| Statistics [NW/ W] | [Valid=3402 /-] [Invalid=0 /-] | | |
| Literal question | (if code 1 in item 2) type of structure of the accommodation availed of earlier | | |
| Interviewer's instructions | The type of structure of the accommodation availed of earlier by those households which were living elsewhere in the same town before moving into the slum will be recorded in codes. | | |
| Value | Label | Cases | Percentage |
| 1 | Pucca | 1181 | 34.7% |
| 2 | Semi -pucca | 1058 | 31.1% |
| 3 | katcha | 1116 | 32.8% |
| 4 | No dwelling | 47 | 1.4% |
| <i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i> | | | |

File Block9-records

#19 B9_q4: Reason for movement

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=3394 /-] [Invalid=0 /-] |
| Literal question | (if code 1 in item 2) reason for movement to the slum. |
| Interviewer's instructions | The reason for movement to the slum for those households which were living elsewhere in the same town before moving into the slum will be ascertained and indicated in codes. |

| Value | Label | Cases | Percentage |
|-------|----------------------------|-------|------------|
| 1 | Free / low rent | 647 | 19.1% |
| 2 | Independent accommodation | 1179 | 34.7% |
| 3 | Proximity to place of work | 577 | 17.0% |
| 9 | Others | 991 | 29.2% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#20 B9_q5: Possess any documents

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=5701 /-] [Invalid=0 /-] |
| Literal question | Does the head of the household possess any of the documents?: |
| Interviewer's instructions | The information as to whether the head of the household possesses any of the documents will be recorded against this item in terms of codes. |

| Value | Label | Cases | Percentage |
|-------|---------------------------------|-------|------------|
| 1 | Possesses: ration card | 1629 | 28.6% |
| 2 | Voter ID card | 327 | 5.7% |
| 3 | Passport | 39 | 0.7% |
| 4 | Any combination of codes 1 to 3 | 2564 | 45.0% |
| 5 | None | 1096 | 19.2% |
| 9 | Other | 46 | 0.8% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#21 B9_q6: Received any benefit

| | |
|-----------------------------------|--|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=5700 /-] [Invalid=0 /-] |
| Literal question | Whether received any benefit as a slum dweller?: |
| Interviewer's instructions | It is to be ascertained whether the household received any benefit as a slum dweller and the appropriate code relating to the information given is to be recorded against this item. |

| Value | Label | Cases | Percentage |
|-------|--------------------------------------|-------|------------|
| 1 | Received allotment of land /tenement | 709 | 12.4% |
| 2 | Received no benefit | 4463 | 78.3% |
| 9 | Received other benefits | 528 | 9.3% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#22 B9_q7: Tried to move out slum

| | |
|-----------------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=5699 /-] [Invalid=0 /-] |
| Literal question | Whether tried to move out of the slum?: |
| Interviewer's instructions | The informant is to be asked whether or not the household ever tried to shift from the present place to a locality outside the slum. The answer obtained will be entered against this item in terms of codes. |

File Block9-records

#22 B9_q7: Tried to move out slum

| Value | Label | Cases | Percentage |
|-------|-------|-------|------------|
| 1 | Yes | 275 | 4.8% |
| 2 | No | 5424 | 95.2% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#23 B9_q8: Main reason to move out

| | |
|----------------------------|---|
| Information | [Type= discrete] [Format=character] [Missing=*] |
| Statistics [NW/ W] | [Valid=276 /-] [Invalid=0 /-] |
| Literal question | (if code 1 in item 7) main reason: |
| Interviewer's instructions | If the household has at any time attempted to move out of the slum, the reason thereof will be given in terms of codes. |

| Value | Label | Cases | Percentage |
|-------|----------------------------|-------|------------|
| 1 | Better accommodation | 168 | 60.9% |
| 2 | Proximity to place of work | 40 | 14.5% |
| 3 | Social/religious factors | 14 | 5.1% |
| 9 | Others | 54 | 19.6% |

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#24 Wgt_SS: Multiplier Sub-sample wise

| | |
|-------------------------|--|
| Information | [Type= continuous] [Format=numeric] [Range= 3-42122.5] [Missing=*] |
| Statistics [NW/ W] | [Valid=5818 /-] [Invalid=0 /-] [Mean=1997.433 /-] [StdDev=3287.015 /-] |
| Recoding and Derivation | Generated Weight variable |

#25 Wgt_Combined: Multiplier Combined

| | |
|-------------------------|---|
| Information | [Type= continuous] [Format=numeric] [Range= 1.5-21061.25] [Missing=*] |
| Statistics [NW/ W] | [Valid=5818 /-] [Invalid=0 /-] [Mean=998.716 /-] [StdDev=1643.508 /-] |
| Recoding and Derivation | Generated Weight variable |

#26 nss: nss (sub-sample-wise ns)

| | |
|-------------------------|---|
| Information | [Type= continuous] [Format=numeric] [Range= 1-57] [Missing=*] |
| Statistics [NW/ W] | [Valid=5818 /-] [Invalid=0 /-] [Mean=9.938 /-] [StdDev=12.245 /-] |
| Recoding and Derivation | Variables used for generating final multiplie |

#27 nsc: nsc (sub-sample combined ns)

| | |
|-------------------------|--|
| Information | [Type= continuous] [Format=numeric] [Range= 2-114] [Missing=*] |
| Statistics [NW/ W] | [Valid=5818 /-] [Invalid=0 /-] [Mean=19.883 /-] [StdDev=24.489 /-] |
| Recoding and Derivation | Variables used for generating final multiplie |

#28 WGT_posted: Multiplier (Posted)

| | |
|-------------------------|--|
| Information | [Type= continuous] [Format=numeric] [Range= 300-4212250] [Missing=*] |
| Statistics [NW/ W] | [Valid=5818 /-] [Invalid=0 /-] [Mean=199743.291 /-] [StdDev=328701.514 /-] |
| Recoding and Derivation | Variables used for generating final multiplie |
