Overview

ABSTRACT
The National Sample Survey Organization (NSSO) carried out the first country wide quinquennial survey on Employment and Unemployment during its 27th round survey operation (September 1972-October 1975). This survey marked the beginning of the renewed efforts of the NSSO in the collection of comprehensive data on employment and unemployment taking into consideration all the basic recommendations of the 'Expert Committee on Unemployment Estimates'(1970). The 27th round survey apart from collecting the required data to throw up three different rates of employment and unemployment, i.e. the 'usual status' rates based on the activities pursued during a long period in the past, any one year, the 'current weekly status' rates based on the data on activities pursued during and reference period of seven days (one week) preceding the date of survey and the 'current day status' rates based on the activities pursued on each day of the same seven days' (one week) period of reference, also attempted to elicit information on the extent of under utilization of labour time of those classified as employed, unemployed, unemployed, students, house workers etc. through separate sets of probing questions put to the relevant respondents. In the households at the time of investigation. The above three rates cross classified by different correlates, such as, sex, age, education, industry, occupation, residence status etc. revealed the different facets of the multi-dimensional character of the employment-unemployment situation in the country, particularly in the rural sector. The answers forthcoming to the probing questions, helped in obtaining further insight into the activity situation of the population. The Employment and Unemployment surveys of National sample Survey (NSS) are primary sources of data on various indicators of labour force at National and State levels. These are used for planning, policy formulation, decision support and as input for further statistical exercises by various Government organizations, academicians, researchers and scholars. NSS surveys on employment and un-employment with large sample size of households have been conducted quinquennially from 27th. round(October'1972 - September'1973) onwards. Cotinuing in this series the third such all-india survey on the situation of employment and unemployment in India was carried out during the period january 1983 - december 1983 .

KIND OF DATA
Sample survey data [ssd]

UNITS OF ANALYSIS
Randomly selected households based on sampling procedure and members of the household

Scope

NOTES
The ten year work programme of the NSSO visualizes conduct of the employment-unemployment survey quinquennially.The third survey in the series, accordingly, was carried out during 1983 in the 38th round survey 0perations of the NSSO. The Working Group in making their recommendations considered various suggestions received from the Planning Commission, Labour Bureau, Central Statistical Organization, Institute of Applied Man Power Research, Institute of Social Studies Trust etc. and also from different Expert users. It also carefully examined the recommendations made in the panel discussions of the

IAMR Conference of the Data users and Producers (April 1981) and the deliberations of the Technical Seminar on Womens' Work and Employment (April 1982). The results of the earlier two surveys so far released were also looked into. The important recommendations of the Working Group on the 38th round survey on Employment and Unemployment were:

(i) As the question of comparability of the 38th round survey results with those pertaining to the second quinquennial survey (32nd round) was considered very important, the conceptual frame work adopted for the NSS 32nd round survey should be retained, as far as practicable, in the 38th round survey also and, in the main, the 38th round survey design, compared to the 32nd round survey design, should be a no change model;

(ii) The 'Employment - Unemployment' and 'Consumer Expenditure' surveys should be carried out in the same set of sample households;

(iii) The data on 'indebtedness of rural labour households' might be collected in the same manner as in the 32nd round.

(iv) Information on migration characteristics of population might be collected with a view to studying its linkage with the level of employment, unemployment and the level of living of the population.

The NSSO Governing Council approved the recommendations of the working Group and also the schedule of the enquiry in its 32nd and 34th meetings held respectively during 25-26, February 1982 and 2nd July 1982,

Summary description of the Schedule:

The Schedule on Employment and Unemployment (Schedule 10) framed for the 38th round survey consisted of 15 blocks. The identification particulars of the sample village/block and the sample village/block and the sample households in which the survey schedules recorded in block 1.

Block 2.1 was meant for recording the particulars of field operations and block 2.2 for recording the processing particulars at the NSSO data processing centres.

Certain characteristics of the sample household meant to be used as classificatory variables in the tabulation of data, and information as to whether the same household has made any migratory movement or not during the last 365 days, etc. recorded in block 3.

The demographic particulars such as, age, sex, marital status, educational standard etc. and the particulars or current weekly activity obtaining during the seven days preceding the date of survey of all the normally resident members of the household and also the information as to whether some or all of them are migrants or not were recorded in block 4.1.

For those, identified accordingly to the criterion specified, as migrants in block 4.1, the various migration characteristics such as, period since migrated, reason for migration type of the last place of residence etc. were recorded in block 4.2.

Block 5 was meant for recording detailed day-to-day disposition of labour time of those classified as in the labour force according to current weekly activity status i.e., information on the various activities pursued on different days of the reference week by household members reported as 'working' and 'seeking and/or available for work' and the intensity in the quantative terms, namely, 'full' and 'half' on each such activity.

The particulars of usual activity of each normally resident members of the sample household, information on the subsidiary gainful activity status of those classified as working, particulars of temporary stay aways who remained absent from household for 4 weeks or more for work etc. collected in block 6.

Block 7 used for recording the particulars of the marginal gainful activities normally pursed by all those classified in block 6 as usually 'not working' (excepting those reported to be 'too young').

The follow up question (probing questions) pertaining to the availability for 'additional work'/'work' meant to be put to those classified as 'working', 'students', 'persons engaged in domestic duties' and 'pensioners/rentiers etc. 'kept in block 8. The answers of these questions were ascertained from the relevant member of the household and recorded in this block.

For persons classified as 'engaged in domestic duties', some further follow up questions were formulated and listed in block 9 with a view to collecting some additional information which might explain as to whether their usual attachment to domestic duties in voluntary or involuntary.

Particulars regarding the household indebtedness such as, amount of loan, its nature, source of borrowing etc. collected in block 10 only for the rural labour households

Block 11 was meant for recording the number of reporting lines/columns of the various blocks 3-10 of the schedules. Any relevant remarks of the investigators were recorded in block 12 and the comments by the supervisory officers in block 13.

TOPICS

Topic	Vocabulary	URI
Labor Markets	World Bank	http://www.surveynetwork.org/toolkit

KEYWORDS

Employment, Unemployment, Indebtedness of rural labour, Usual principal activity, Usual subsidiary activity, Time disposition during the week, Migration

Coverage

UNIVERSE

The survey used the interview method of data collection from a sample of randomly selected households and members of the household

Sampling

Weighting

Three different weightsare provided in each record of filess in the data set. Deatils are as follows:-

1. Weight at stratum level is stored in Variable name : Wgt1_Strm.
2. Weight for each sub-round (Sub-round wise weight) is stored in Variable name : Wgt2_SS
3. Weight for each subsample (Sub-sample wise weight) is stored in Variable name : Wgt3_SR.
4. Weight for all Subrounds pooled and combined subsample weight is stored in Variable name : Wgt4_Pooled

Weighting

Questionnaires

Overview

The Schedule on Employment and Unemployment (Schedule 10) framed for the 38th round survey consisted of 15 blocks as given below.

Block-1 : Identification particulars of the sample village/block and sample households
Block 2.1: particulars of field operations
Block 2.2: processing particulars
Block 3: household characteristics
Block 4.1 : demographic and current activity particulars during the week
Block 4.2: Migration particulars
Block 5 : time disposition during the reference week
Block 6 : usual activity particulars
Block 7 : particulars of usual subsidiary gainful activity
Block 8: follow-up questions for the persons usual activity status codes 01-93 & 96
Block 9 : Follow-up questions for persons classified as usually engaged in domestic chores
Block 10: Household indebtedness
Block 11 : particulars of entries made in different blocks of the schedule
Block 12 : remarks by investigation
Block 13 : comments by supervisory officer

Scanned copy of the questionnaire attached as external resource may be seen.

Data Collection

Data Collection Mode

Face-to-face [f2f]

Data Collection Notes

The survey period of one year was divided into four equal sub-rounds of roughly 3 month duration each

Questionnaires

The Schedule on Employment and Unemployment (Schedule 10) framed for the 38th round survey consisted of 15 blocks as given below.

Block-1 : Identification particulars of the sample village/block and sample households
Block 2.1: particulars of field operations
Block 2.2: processing particulars
Block 3: household characteristics
Block 4.1 : demographic and current activity particulars during the week
Block 4.2: Migration particulars
Block 5 : time disposition during the reference week
Block 6 : usual activity particulars
Block 7 : particulars of usual subsidiary gainful activity
Block 8: follow-up questions for the persons usual activity status codes 01-93 & 96
Block 9 : Follow-up questions for persons classified as usually engaged in domestic chores
Block 10: Household indebtedness
Block 11 : particulars of entries made in different blocks of the schedule
Block 12 : remarks by investigation
Block 13 : comments by supervisory officer

Scanned copy of the questionnaire attached as external resource may be seen.

Key to identify household (Hhold_key)
File: Block-1-3-Household-records

Overview	
Type: Discrete	Valid cases: 120921
Format: character	Invalid: 0
Width: 11	

Sample (Sample)
File: Block-1-3-Household-records

Overview	
Type: Discrete	Valid cases: 120846
Format: character	Invalid: 0
Width: 1	

Description

The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Literal question

Central or State sample?

Interviewer instructions

Record 1 or 2 depending on whether the selected sample village/block is central sample or state sample

Sector (Sector)
File: Block-1-3-Household-records

Overview	
Type: Discrete	Valid cases: 120921
Format: character	Invalid: 0
Width: 1	

Literal question

Sector code?

Interviewer instructions

Record 1 or 2 depending on whether the selected sample village/block is classified as Rural or Urban

State (State)
File: Block-1-3-Household-records

Overview	
Type: Discrete	Valid cases: 120921
Format: character	Invalid: 0
Width: 2	

Literal question

State Code?

Interviewer instructions

State to which the sample village/block belongs to will be recorded here as per the code list

Region (Region)
File: Block-1-3-Household-records

Region (Region)
File: Block-1-3-Household-records

Overview	
Type: Discrete	Valid cases: 120921
Format: character	Invalid: 0
Width: 1	

Literal question

Region code?

Interviewer instructions

Code this item as per code list

Stratum (Stratum)
File: Block-1-3-Household-records

Overview	
Type: Discrete	Valid cases: 120921
Format: character	Invalid: 0
Width: 3

Format: character	Invalid: 0
Width: 5	

Sample Household No. (Hhold_Slno)
File: Block-1-3-Household-records

Overview	
Type: Discrete	Valid cases: 120921
Format: character	Invalid: 0
Width: 2	

Literal question

Sample Household number

Informant Code (B1_q18)
File: Block-1-3-Household-records

Overview	
Type: Discrete	Valid cases: 120797
Format: character	Invalid: 0
Width: 1	

Literal question

Informant Code

Interviewer instructions

If the informant is the head of the household himself, '1' will be recorded here. Any other member of household providing information will be assigned code 2. Sometimes a non-member guest or a visitor of a household may act as the informant. In such cases code 9 will be recorded here.

Type of Informant Code (B1_q19)
File: Block-1-3-Household-records

Overview	
Type: Discrete	Valid cases: 120794
Format: character	Invalid: 0
Width: 1	

Literal question

Type of Informant Code

Interviewer instructions

This item is provided to assess the extent of cooperation of the informant and will be recorded in terms of code number

Survey Code (B1_q20)
File: Block-1-3-Household-records

Overview	
Type: Discrete	Valid cases: 120631
Format: character	Invalid: 0
Width: 1	

Survey Code (B1_q20)
File: Block-1-3-Household-records

Literal question

Survey Code?

Interviewer instructions

This item is provided to ascertain whether the selected household is a substitute one or is a casualty for the survey. Information will be recorded in terms of code number.

Reason for casualty code (B1_q21)
File: Block-1-3-Household-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 805
Invalid: 0

Literal question

Reason for casualty?(code)

Interviewer instructions

If the original household is substituted or is a casualty for the survey, the reason for substitution/casualty will be recorded in terms of code number

Household Size (B3_q1_hh_size)
File: Block-1-3-Household-records

Overview

Type: Continuous
Format: numeric
Width: 2
Decimals: 0
Range: 1-40

Valid cases: 120885
Invalid: 36
Minimum: 1
Maximum: 40
Mean: 5.2
Standard deviation: 2.7

Literal question

Household Size?

Interviewer instructions

The number of normally resident members of a household is its size. It will include temporary stay-aways but exclude temporary visitors and guests. Even though the determina tion of the actual composition of a household will be left to the judgement of the head of the household.

Principal Ind.occupationCode (B3_q2)
File: Block-1-3-Household-records

Overview

Type: Discrete
Format: character
Width: 6

Valid cases: 115780
Invalid: 0

Literal question

Household Principal Industry and occupationCode

Interviewer instructions

The entry against this item will be recorded in terms of six digited code numbers of which the first three left hand digits will refer to the appropriate 'industry group' and the next three to the relevant 'occupation family' of the NIC, 1970 and NCO 1968 respectively.

Household Type (B3_q3)
File: Block-1-3-Household-records

Overview	
Type: Discrete	Valid cases: 120921
Format: character	Invalid: 0
Width: 2	

Literal question

Household Type code

Interviewer instructions

At the listing stage, for the rural areas, all the households will be categorized under three groups namely (i) households self-employed in non-agriculture, (ii) regular labour households and (iii) other households, depending on their means of livelihood. As regards the urban households, for recording the appropriate household type codes, the 'self-employment' codes assigned in column (5), block 6 of schedule 0.2 will be copied against item 3 for the respective sample households. The codes to be used are: self-employed households-1,other households-9

Household Religion code (B3_q4_relgn)
File: Block-1-3-Household-records

Overview	
Type: Discrete	Valid cases: 120909
Format: character	Invalid: 0
Width: 1	

Literal question

Household Religion code

Interviewer instructions

The code of the particular religious faith which the head of the household follows, will be recorded here.

Household Group Code (B3_q5_hh_grup)
File: Block-1-3-Household-records

Overview	
Type: Discrete	Valid cases: 120912
Format: character	Invalid: 0
Width: 1	

Literal question

Household Group Code

Interviewer instructions

For making entry against this item, it will have to be ascertained whether the household belongs to schedule tribe, scheduled caste or neo-Buddhist and accordingly the respective codes 1, 2 or 3 will be recorded.

Home-stead code (B3_q6)
File: Block-1-3-Household-records

Overview	
Type: Discrete	Valid cases: 120909
Format: character	Invalid: 0
Width: 1	

Literal question

Home-stead type code

Interviewer instructions

Home-stead code (B3_q6)
File: Block-1-3-Household-records

If the homestead (house and house site) is owned by the household, code '1' will be entered in the box space provided against this item. But, if that is not owned by otherwise possessed, code 2 will be recorded.

Land Owned(0.00 acres) (B3_q7)
File: Block-1-3-Household-records

Overview

Type: Continuous
Format: numeric
Width: 7
Decimals: 2
Range: 0-9005.56

Valid cases: 120902
Invalid: 19
Minimum: 0
Maximum: 9005.6
Mean: 3.3
Standard deviation: 88.5

Description

A piece of land is considered to be owned by the household if permanent heritable possession with or without the right to transfer the title is vested in a member or the members of the household. Land held in owner like possession say, under perpetual lease, hereditary tenure, long term leases for 30 years or more etc. will also be considered as land owned. For a piece of land under the possession of the household, if the household lacks title of ownership and also it does not have any lease agreement for the use of land transacted either verbally or in writing, such land will be considered as neither owned nor leased in. In collecting information regarding 'land possessed', the actual position as obtained on the date of survey will be considered.

Literal question

Land Owned(0.00 acres)

Interviewer instructions

The area of land (in 0.00 acres) 'owned', 'leased in' in 'neither owned nor leased in' and 'leased out' by the household as on the date of survey will be ascertained and recorded against the items 7,8,9 and 10 respectively. The total land area possessed by the household will be worked out as items 7+8+9-10 and recorded the against item 11 in 2 places of decimal.

Land Leased in(0.00 acres) (B3_q8)
File: Block-1-3-Household-records

Overview

Type: Continuous
Format: numeric
Width: 7
Decimals: 2
Range: 0-8010

Valid cases: 120910
Invalid: 11
Minimum: 0
Maximum: 8010
Mean: 1.2
Standard deviation: 73.9

Literal question

Land Leased in(0.00 acres)

Interviewer instructions

See Q.7 for details

Land neither owned nor leased in(0.00 acres) (B3_q9)
File: Block-1-3-Household-records

Overview

Land neither owned nor leased in(0.00 acres) (B3_q9)
File: Block-1-3-Household-records

Type: Continuous
Format: numeric

Land Cultivated: owned(0.00 Acres) (B3_q12)
File: Block-1-3-Household-records

Description

'Area cultivated' is defined as the net area sown during the reference period plus area under orchards & plantations and current fallow used for seeding.

Literal question

Land Cultivated: owned(0.00 Acres)

Interviewer instructions

The total area (in 0.00 acres) cultivated by the household will be recorded under the three break downs, 'owned', 'leased in' and 'neither owned nor leased in' respectively against items 12, 13 and 14. The total of items 12, 13 and 14 will be entered against item 15. For recording entries against these items, for the first two sub-rounds 1 & 2, the 'area cultivated' will refer to the net area cultivated during the agricultural year 1981-82. For the next two sub-rounds 3 & 4 the 'area' will refer to the net area cultivated during the agricultural year 1982-83.

Width: 8	Minimum: 0
Decimals: 2	Maximum: 97200
Range: 0-97200	Mean: 170.7
	Standard deviation: 1003

Literal question

Household monthly per capita expenditure last month (Rs.0.00)

Interviewer instructions

The per capita expenditure (in rupees correct to two places of decimal) of the household incurred during the last 30 days preceding the date of survey, will be recorded against this item. Detailed information on total household consumption expenditure is being collected through the household consumer expenditure schedule 1.0 from all sample households in which schedule 10 are canvassed. The per capita expenditure is calculated and recorded against item 11, block 3.1 of schedule 1.0. This entry will be copied against item 30 of block 3 in schedule

Hhold moved to village/Town of enumeration ? (B3_q20)
File: Block-1-3-Household-records

Overview

Type: Discrete	Valid cases: 120921
Format: character	Invalid: 0
Width: 1	

Literal question

Whether the household moved to village/Town of enumeration ?

Interviewer instructions

It is to be ascertained from each sample household whether the entire household has moved from a different place during the last 365 days preceding the date of survey, to the sample village/own of enumeration. If the answer is in the affirmative, code 1 will be recorded against this item. If the answer is in the negative, code 2 will be recorded. It may be noted that any movement irrespective of the reason will be considered for making entry against this item. In some cases, on member of the household might have moved first and the other members might have joined/him her later. Such a movement will also be considered as movement of the household for making entry against this item. It may so happen that in certain cases, some addition to the household by way of births, marriages etc. might have taken place after the movement. Even then the entered household would be considered to have moved to the place of enumeration.

Type of last residence (B3_q21)
File: Block-1-3-Household-records

Overview

Type: Discrete	Valid cases: 2881
Format: character	Invalid: 0
Width: 1	

Literal question

Type of last residence (place)

Type of last residence (B3_q21)
File: Block-1-3-Household-records

Interviewer instructions

This item and the subsequent items 22 and 23 will be filled in only for those households which are reported to have moved to the village/town of enumeration from some other place during the last 365 days (i.e. for those households with entry 1 against item 20). For such a household the type of last place of residence (i.e.) the type of place of enumeration will be recorded in terms of the specified codes against item 21.

Movement temporary or permanent (B3_q22)
File: Block-1-3-Household-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 2881
Invalid: 0

Pre question

Is Q.20 = 1? Then ask.

Literal question

Whether the movement was temporary or permanent?

Post question

If Q.20 not =1 skip

Interviewer instructions

The information as to whether the present movement was a temporary one or a permanent one would be recorded against item 22. For this purpose, the movement would be considered permanent if the household either stayed or intended to stay for six months or more at the place of enumeration. For such households, code '3' will be recorded against this item. For the other households (i.e. those reporting the movement as not permanent but temporary), it has to the further ascertained whether the movement was a seasonal one or not. For those households reporting the movement as seasonal, code 1 and for the other code 2 will be entered.

Reason for movement? (B3_q23)
File: Block-1-3-Household-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 2881
Invalid: 0

Pre question

Is Q.20 = 1? Then ask.

Literal question

Reason for movement?

Post question

If Q.20 not =1 skip

Interviewer instructions

For each household reporting movement, the reason for the movement will be recorded in terms of the specified codes against this item. The reason will relate to the main bread-winner of the household. If the movement is made to look for work or to take up work or to take up better work-in all these cases, code 1 will be recorded. If the movement is made in connection with the occupation pursued prior to movement, code 2 will be recorded. For all other reasons, code 9 will be entered.

General Education (B41_q8)
File: Block-41-Persons-Demogrphic-weelyActivity-records

Overview	
Type: Discrete	Valid cases: 623494
Format: character	Invalid: 0
Width: 2	

Literal question

Educational standard code - General

Interviewer instructions

Information regarding the general and technical education attained by the normal members of the household listed in col. (1) will be recorded in columns (8) and (9) respectively in terms of the specified code numbers. For the purpose of making entries in these columns only the course successfully completed will be considered. For instances, for a person who has studied up to say, first year B.A., his educational attainment will be considered only secondary (code number 5). Also, for a person who has studied up to 12th standard but has not sat for the final examination or has failed or ever passed in the examination, his educational attainment will be considered 'secondary' only. The relevant codes to be used for recording entries in these two columns.

No. of years of formal Education (B41_q11)
File: Block-41-Persons-Demogrphic-weelyActivity-records

Overview	
Type: Continuous	Valid cases: 623494
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	

Literal question

No. of years of formal Education

Interviewer instructions

No. of years of formal Education (B41_q11)
File: Block-41-Persons-Demogrphic-weelyActivity-records

The number of years a person has to attend on educational institution to pass a class, level or grade of education - both general and technical - excluding the number of years spent in pre-primary education (below standard one) will be recorded for each member rounded off to the nearest integer. Thus, for a person who is either studying in class XI has failed in class XI and has discontinued the education thereafter, the entry will be '10'. Similarly for a person studying say, in the second year of the degree course, the number of years to be recorded will be '13' (10+2+1) or for a person who has completed 9 months' technical education after passing class XII, the entry will be '13'. For those who pursued the old system of education, the number of years required would have to be worked out in the same manner. It may, however, be noted that the years spent for a person's attending some level or grade of education through correspondence course or through private study and passing out the level or grade as private or external candidate will not be counted for recording the 'number of years of formal education'. For example, if a person has passed class XII through attending an educational institution and then completed his graduation and post-graduation as a private candidate the 'number of years' to be recorded will only be 12.

Education Institution Enrolment-etc. Code (B41_q12)
File: Block-41-Persons-Demogrphic-weelyActivity-records

Overview	
Type: Discrete	Valid cases: 619935

Serial No. of person(B4.2_Q1) (Person_Slno)
File: Block-42-Persons-migration-records

Overview

Type: Discrete

Format: character

Width: 2

Valid cases: 623494

Invalid: 0

Literal question

Serial No. of person as in B4.1_Q1

Place of enumeration different?(from Block 4.1) (B41_q19)
File: Block-42-Persons-migration-records

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 623494

Invalid: 0

Literal question

whether place of enumeration different from last usual residence?

Interviewer instructions

Place of enumeration different?(from Block 4.1) (B41_q19)
File: Block-42-Persons-migration-records

"For obtaining the appropriate response to this question for each member of the household listed in this block, it has to be ascertained from them whether his/her place of enumeration is different from his last (previous) usual residence, if any, the usual residence for the purpose of this survey being defined as a place (village or town) where the person has stayed continuously for a period of six months or more.

Duration-of stay(from Block 4.1) (B41_q20)
File: Block-42-Persons-migration-records

Overview

Type: Discrete	Valid cases: 139570
Format: character	Invalid: 0
Width: 1	

Literal question

Duration of stay at the place of enumeration

Interviewer instructions

The period of stay at the place of enumeration (the village or town in which the person has been enumerated) i.e. the period elapsed since the person has moved into the place of enumeration will be recorded in column (20) in terms of specified codes.

Period since leaving (in Years) (B42_q2)
File: Block-42-Persons-migration-records

Overview

Type: Continuous	Valid cases: 140453
Format: numeric	Invalid: 483041
Width: 2	Minimum: 0
Decimals: 0	Maximum: 99
Range: 0-99	Mean: 15.3
	Standard deviation: 14.1

Pre question

This block will be filled in for all the household members reported to have the place of enumeration (i.e. the sample village/town where the survey is carried out) different from the last usual residence in block 4.1 (i.e., those with 'code-1' as the entries in column (19) of block 4.1).

Literal question

Period since leaving last usual residence (in Years)

Interviewer instructions

The period elapsed since leaving the last usual residence will be recorded in years rounded off to the nearest integer in this column. For working out this, the period of temporary stay (less than six months) in other places after leaving the last usual residence and ultimately moving into the place of enumeration will also be included.

Last usual residence type (B42_q3)
File: Block-42-Persons-migration-records

Overview

Type: Discrete	Valid cases: 140550
Format: character	Invalid: 0
Width: 1	

Literal question

Last usual residence type

Interviewer instructions

Last usual residence type (B42_q3)
File: Block-42-Persons-migration-records

The type of last usual residence i.e., whether it was rural areas of same district or urban areas of the same district or it was rural areas of another state etc. will be ascertained and indicated in this column in terms of the specified code numbers

Last usual residence state (B42_q5)
File: Block-42-Persons-migration-records

Overview	
Type: Discrete	Valid cases: 136729
Format: character	Invalid: 0
Width: 2	

Literal question

Last usual residence state code

Interviewer instructions

The names of state and district to which the last usual residence belonged will be recorded respectively in columns (4) and (6) and the corresponding codes in columns (4) and (6).and the corresponding codes in columns (5) and (7). The relevant codes are to be taken from the list of NSS regions and their composition given in the Appendix. In case the type code of last usual residence is '7" (i.e., other countries), the name of the country will be written in capital letters across the space under columns (4) - (7) against the relevant person.

Last usual residence district (B42_q7)
File: Block-42-Persons-migration-records

Overview	
Type: Discrete	Valid cases: 136455
Format: character	Invalid: 0

Literal question

Last usual residence district code?

Interviewer instructions

See Q.7 for details

At the time of migration-age (Years) (B42_q8)
File: Block-42-Persons-migration-records

Overview	
Type: Continuous	Valid cases: 140470
Format: numeric	Invalid: 483024
Width: 2	Minimum: 0
Decimals: 0	Maximum: 99
Range: 0-99	Mean: 19.2
	Standard deviation: 10.7

Literal question

At the time of migration-age (Years)?

Interviewer instructions

For each household member listed in column (1), the age is completed years at the time of moving out from the last usual residence (i.e., at the time of migration) will be entered in column (8). Similarly, the marital status and general education attained by the members at the time of migration will be recorded respectively in columns (9) and (10) in terms of the specified codes.

Marital status (B42_q9)
File: Block-42-Persons-migration-records

Overview	
Type: Discrete	Valid cases: 140137
Format: character	Invalid: 0
Width: 1	

Literal question

At the time of migration Marital status?

Interviewer instructions

See Q.8 for details

General Education (B42_q10)
File: Block-42-Persons-migration-records

Overview	
Type: Discrete	Valid cases: 140550
Format: character	Invalid: 0
Width: 2	

Literal question

At the time of migration General Education?

Interviewer instructions

Usual activity status(UAS) (B42_q11)
File: Block-42-Persons-migration-records

Overview	
Type: Discrete	Valid cases: 140550
Format: character	Invalid: 0
Width: 2	

Literal question

At the time of migration Usual activity status(UAS)?

Interviewer instructions

The usual activity status of a person will be determined on the basis of the various activities pursued by the person during a reference period of 365 days adopting 'relatively long time (or major time)' criterion.

UAS-Industry-division (B42_q12)
File: Block-42-Persons-migration-records

Overview	
Type: Discrete	Valid cases: 39255
Format: character	Invalid: 0
Width: 1	

Literal question

At the time of migration Industry-division?

Interviewer instructions

For the persons assigned the activity status codes 01-51 (i.e., those categorized working), the appropriate industry division code will be recorded in column (12).

UAS-Occupation (B42_q14)
File: Block-42-Persons-migration-records

Overview

Type: Discrete	Valid cases: 39172
Format: character	Invalid: 0
Width: 3	

Literal question

At the time of migration Occupation?

Interviewer instructions

For each member categorized 'working' at the time of movement from the place of last usual residence, description of the corresponding occupation in which he was engaged will be recorded in column (13) and the three digited occupation family code (NCO 1968) in column (14). If a person was found to have been pursuing more than one occupation, the occupation on which relatively more time was spent by the person during the 365 days preceding two date on migration will be considered for the purpose of making entries in these columns.

Reason for leaving (B42_q15)
File: Block-42-Persons-migration-records

Overview

Type: Discrete	Valid cases: 140550
Format: character	Invalid: 0
Width: 1	

Literal question

Reason for leaving the last usual residence

Interviewer instructions

The reason for moving out of the last usual residence will be ascertained for each member listed in this block and entered in terms of the specified codes in this column. It may so happen that a person had moved out of his last usual residence for a particular reason, stayed in a different village/town for a short period (less than 6 months; if this period is 6 months or more that place will be come his last usual residence) and then moved to the place of enumeration (a village or town other than the previous one) for a different reason. In such a case only the reason which motivated his/her first movement will be recorded.

Serial No. of person(B5_Q1) (Person_slno)
File: Block-5-Persons-DailyActivity-records

Overview

Type: Discrete
Format: character
Width: 2

Valid cases: 546198
Invalid: 0

Literal question

Serial No. of person

Interviewer instructions

The serial numbers of the household members enumerated and assigned any of the 'status' codes 01-82 in col. 14 of block 4.1 will be entered in this column. For each such person, the detailed day-to-day labour time disposition and other related particulars will be collected in subsequent columns of this block. Since one working person may pursue more than one activity during the seven days of the reference week for each serial number recorded in column 1, four lines have been provided for making separate entries relevant for the reference intensities on different days.

Serial No. of current day Activity(B5_Q2) (Activity_slno)
File: Block-5-Persons-DailyActivity-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 546198
Invalid: 0

Literal question

Serial No. of current day Activity

Interviewer instructions

For each person listed in column 1, the different activities pursued by them during all the seven days of the reference week will be serially numbered and this serial number of activity will be recorded in column(2).

Status code of current dayActivity (B5_q3)
File: Block-5-Persons-DailyActivity-records

Overview

Type: Discrete
Format: character
Width: 2

Valid cases: 318676
Invalid: 0

Literal question

Status code of current dayActivity

Interviewer instructions

The current activity 'status' codes corresponding to the serial number of activity entered in column (2) will be recorded in this column. Although it may be theoretically possible that on a particular day of the reference week, a person may have any number of activities, the particulars relating to two activities need only be considered for making entries in this column. Thus on a day, a person may either have only one activity with 'full' intensity or two activities with 'half intensity for each. If the activity is pursued with intensity 'half' on a particular day, the entry will be 0.5 against that activity and if that is pursued with intensity more than half, 1.0 will be recorded against that activity in the relevant columns (6) - (12). The decision whether the intensity to be recorded for an activity will be 0.5 or 1.0 has to be taken by the investigating staff making careful probes into the actual situation obtaining for the person on a particular day.

Industry division code (B5_q4)
File: Block-5-Persons-DailyActivity-records

Overview

Industry division code (B5_q4)
File: Block-5-Persons-DailyActivity-records

Type: Discrete
Format: character
Width: 1

Valid cases: 270256
Invalid: 0

Literal question

Industry division code of current dayActivity

Interviewer instructions

For each status code grouped under the activity category 'working'(i.e for the status codes 01-71 recorded in column 3), the sector of activity i.e. the industry division will be entered in column (4) in terms of the specified code numbers.

Operation code (B5_q5)
File: Block-5-Persons-DailyActivity-records

Overview

Type: Discrete
Format: character
Width: 2

Valid cases: 179641
Invalid: 0

Literal question

Operation code 0f current day activity

Interviewer instructions

This column will be filled-in for persons belonging to the rural households only. The actual working operation performed by the persons relevant to the status codes grouped under the activity category working (i.e. status 01-71) will be entered in terms of code numbers in this column.

Maximum: 7
Mean: 5
Standard deviation: 2.3

Literal question

Total No. of Days in each Activity(0.0) during the reference week

Interviewer instructions

the number days for which a particular activity was pursued during the seven days i.e. the total of columns (6)-(12) will be recorded in one place of decimal in column (13) separately for each activity status listed in column (2). It may be noted that the total number of days for all the activities together should always be 7.0 for each individual entered in column (1).

Wages-Cash (B5_q14)
File: Block-5-Persons-DailyActivity-records

Overview	

Wages-Cash (B5_q14)
File: Block-5-Persons-DailyActivity-records

Type: Continuous
Format: numeric
Width: 7
Decimals: 2
Range: 0-9800

Valid cases: 318675
Invalid: 227523
Minimum: 0
Maximum: 9800
Mean: 24.7
Standard deviation: 100.4

Literal question

Wages and salay earnings (received or receivable) for the work done during th week- CASH

Interviewer instructions

The wage and salary income (not total earnings) receivable for the wage/salaried work done during the reference week, separately for each of the relevant activities and the total for each person will be recorded in these columns. The relevant status codes for which wage & salary earnings are to be recorded are 31,41,51 and 71. The wages and salaries for the work done during the reference week may be already received or may be receivable in cash or in kind or partly in cash and partly in kind. The total wage or salary received or receivable for the week in cash will be recorded in column (14) and the value (evaluated at the current retail price) of salary or wages in kind received or receivable will be recorded in column (15). The total of columns (14) and (15) will be entered in column (16). The entries for all these columns will be made in 2 places of decimal. For recording the wages or salaries amount receivable as 'over time' for the additional work done beyond normal working time will be ignored. Bonus (expected or paid) and perquisites evaluated at retail prices duly apportioned for the reference week will be considered as wages and included for making entries in these columns. For the activity status '71', the amount receivable for the week will be worked out on the basis of the number of days reported under that activity during the week.

Duration of present spell of unemployment (B5_q17)
File: Block-5-Persons-DailyActivity-records

Overview

Type: Discrete	Valid cases: 21272
Format: character	Invalid: 0
Width: 1	

Literal question

For persons unemployed on all the 7 days, duration of present spell of unemployment (code)

Interviewer instructions

For each person reported as unemployed on all the seven days of the week the duration of the current continuous spell of unemployment will be recorded against the relevant total line in terms of the specified code.It may be noted that the duration to be recorded will relate only to the present spell. For example, if a person was 'unemployed, say, for two months, then employed for a short period and again unemployed and found so at the time of enumeration, for the purpose of making entry in this column for such a person the latter spell of unemployment need only be considered.

Invalid: 0

Principal usual Activity status (UAS)Code (B6_q2)
File: Block-6-Persons-UsualActivity-records

Literal question

Principal usual Activity status (UAS)Code

Interviewer instructions

: For determining the principal usual activity status of a person, the reference period to be used will be the 365 days preceding the date of survey. As mentioned earlier, the broad activity status of the person will first be determined adopting the 'relatively of the three-broad activity status, such as 'working', 'seeking and/or available for work' and 'neither working long' or 'major time' criterion. Thus, the broad usual activity status of a person will be the one out nor available for work' on which relatively long period was spent by the person during the 365 days preceding the date of survey. After determining the broad status, the detailed activity status within the broad group will again be determined adopting again the 'relatively long' or 'major time' criterion. The detailed activity status, thus determined, will be the principal usual activity status of the person. The code corresponding to this activity status will be recorded

Usual subsidiary activity-status (B6_q7)
File: Block-6-Persons-UsualActivity-records

Overview	
Type: Discrete	Valid cases: 77607
Format: character	Invalid: 0
Width: 2	

Literal question

If the person had any subsidiary gainful usual activity, Status code

Interviewer instructions

It has to be ascertained, for all those with principal usual status 'working (i.e. those with the status codes 01-51 in column (2), whether or not they had any subsidiary gainful usual activity other than the one reported as the principal one.To illustrate, a person categories 'working' may be engaged in two or more gainful activities, say, 'self-employment' and 'casual wage labour' and relatively long time is spent on the latter. In this case, the principal usual activity will be the status of 'self-employment'. After-determining the subsidiary gainful usual activity status, the corresponding status code will be recorded in column (7). The industry division code relevant to the status recorded in column (7) will be recorded in column (8). The description of the industry-occupation combination relating to the subsidiary gainful activity will be recorded in column (9) and the corresponding 3 digited industry group code (NIC 1970) and the 3 digited occupation family code (NCO, 1968) will be respectively recorded in columns (10) and (11). It may be noted that if the principal usual activity status is other than those groups under 'working' (i.e. status codes other than 01-51) for a person, columns (7)-(11) will not be filled in for his/her.

Format: character
Width: 1

Valid cases: 623494
Invalid: 0

Literal question

whether stayed temporarily in a different place for work for a continuous period of 4 weeks or more during last 365 days

Interviewer instructions

For each person enumerated in this block it has to be ascertained whether or not the person stayed in a different village or town other than the place of enumeration for a continuous period of 4 weeks or more during the last 365 days in connection with work. If it is found on enquiry that the person did stay away for a continuous period of 4 weeks or more for work, code '1' will be entered in column (12). Otherwise, code '2' will be recorded.

Reason Code (B6_q13)
File: Block-6-Persons-UsualActivity-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 2520
Invalid: 0

Literal question

Reason Code

Interviewer instructions

For all those reported to have stayed in places other than the place of enumeration for a continuous period of 4 weeks or more during the 365 days preceding the date of survey in connection with work (i.e. those with code 1 recorded in column (12), the reason why they had to stay in a different place will be recorded in terms of the specified codes in column (13). It may so happen that a person might have stayed away a number of times interspersed by stay at the place of enumeration and that too in different places during the 365 days preceding the date of survey. In such cases, the reason will relate to the one for which the maximum duration of the total time spent away from the place of enumeration. The total period in completed weeks, thus spent elsewhere in connection with the work, during the 365 days preceding the date of survey, will be recorded in column (14) and the number of places where the person stayed like the manner described above will be recorded in column (15). The description of the industry-occupation combination relating to work, pursued during the major part of the total period of stay away for work, will be ascertained and recorded in column (16). The corresponding 3-digited industry group code and 3-digited occupation family code will be recorded respectively in columns (17) and (18). The type of the place where major part of the total period of stay away for work was spent, in terms of the specified codes (see also para 5,3,16), will be recorded in column (19). The names of the state and the district to which this place belongs will be entered respectively in columns (20) and (22), and the corresponding codes in columns (21) and (23).

Engaged in subsidiary work? (B7_q3)
File: Block-7-Persons-Notworking-subsidiary-activity-record

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 272449
Invalid: 0

Literal question

Whether engaged on a regular basis in any gainful work in subsidiary capacity?

Interviewer instructions

For recording entries in this column, it will be ascertained whether or not the persons enumerated in column (1) were engaged in any gainful activity in their subsidiary capacity during the 365 days preceding the date of survey, or in other words whether or not they did some gainful work, more or less regularly even though intermittently, for a shorter duration of time during the reference period of 365 days preceding the date of survey. For person who pursued some gainful activities in their subsidiary capacity, code 1 will be recorded in this column. For others who did not have any subsidiary gainful activities during the period, code 2 will be recorded. It may be noted that engagement in gainful activities in the subsidiary capacity may arise out of two situations (i) a person may be engaged for relatively a long period during the last 365 days in non-gainful activity and for the remaining period engaged in gainful activities, (ii) a person may be pursuing non-gainful activities in the principal capacity throughout the year but only for a relatively shorter time. For the purpose of recording entries in this block, for both the situations illustrated above, the person will be considered to have pursued some subsidiary gainful activity, although according to the relatively long time criterion of determining the principal usual status, he/she has been categorized 'not working' in block 6.

Usual subsidiary activity-status (B7_q7)
File: Block-7-Persons-Notworking-subsidiary-activity-record

Overview

Type: Discrete
Format: character
Width: 2

Valid cases: 27378
Invalid: 0

Pre question

If Q.3 =1 then ask

Post question

if Q5=1 skip

Interviewer instructions

For persons having code 1 in column (3), the 'status' codes of the gainful activities pursued by them in their subsidiary capacity will be recorded in column (4) and the corresponding 'industry division' codes will be recorded in column (5). In the situation 'when a person has been found to have pursued more than one gainful activity on which more time had been spent would be considered for recording the entries in these columns.

Fully engaged in work? (B8_q4)
File: Block-8-Persons-Addl-Questions-UsualActivity-records

Overview	

Type: Discrete	Valid cases: 225224
Format: character	Invalid: 0
Width: 1	

Pre question

Ask this Question if activity status (Q.2) is 01:51 only

Literal question

Were you more or less fully engaged in work for the last 365 days?

Interviewer instructions

The question-'were you more or less fully engaged in work during the last 365 days?' listed in item 4-will be put only to those categorized usually 'working' (i.e. those with status codes 01-51
recorded against item 2) with a view to finding out whether the person considers himself/herself as having enough work to keep himself/herself busy in that work almost throughout the year. If the answer to the question is in affirmative, code-1 and if in the negative, code-2 will be entered against this item.

Seeking or available for work for the firsttime ? (B8_q5)
File: Block-8-Persons-Addl-Questions-UsualActivity-records

Overview	

Type: Discrete	Valid cases: 11323
Format: character	Invalid: 0
Width: 1	

Pre question

Ask this Question if activity status (Q.2) is 81 only

Literal question

Were you seeking or available for work for the first time?

Interviewer instructions

The question- 'were you seeking or available for work for the first time?' listed against item 5- will be put to only those who have been classified as 'seeking and/or available for work' according to usual status (i.e. those with usual activity status code 81). The answer obtained will be recorded in code numbers (yes-1, no-2) against this item in the relevant box space.

Seeking or available for work/additional work (B8_q6)
File: Block-8-Persons-Addl-Questions-UsualActivity-records

Overview	

Type: Discrete	Valid cases: 471768
Format: character	Invalid: 0
Width: 1	

Pre question

Do not ask if activity status is 81.

Literal question

Were you seeking or available for work/addition work?'

Interviewer instructions

It may be noted that the persons for whom this set of follow-up questions are meant can broadly be divided into two groups - (i) those who had some work during the reference year (i.e. persons with usual status codes 01-51 and 81-93 & 96 with some usual subsidiary gainful activity) and (ii) those who had no work during the reference year (i.e. persons with usual activity status codes 81-93 & 96 with no usual subsidiary gainful activity). It is expected that the first group, if at all willing, will normally opt for 'additional work' and to this group, therefore, the question to be put will be 'were your seeking of available for addition work?' To the second group, naturally, the question 'whether they were seeking of available for work' will be asked. Demanding on the answer obtained, the entry will be made against this item in terms of the code number '1' for 'yes' and '2' for 'no'. For persons categorized 'seeking and/or available for work' according to usual status (i.e. persons with status code 81, the question need not be asked again. For them code = 1 will simply be recorded.

Effort to get work/ Additional work- (B8_q7)
File: Block-8-Persons-Addl-Questions-UsualActivity-records

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 52279

Invalid: 0

Literal question

What effort did you make to get work/ Additional work?

Interviewer instructions

For persons reporting as 'seeking or available for work/additional work', it will be ascertained what efforts they have made to get the work. If a person is found to have been on the live register of the employment exchange, code 1 will be recorded for the person against this item. Concurrently, if he or she has made some other efforts to get work, like contacting prospective employers, responding to advertisement etc., priority will be given to 'registration with employment exchange' and in such cases also, code 1 will be recorded. For a person who is currently not in the live register of the employment exchange but has made other efforts to get work, code 2 will be assigned. If no effort has been made, code 3 will be recorded.

How long seeking for work/Additionalwork? (B8_q8)

Literal question

AlongWitb your domestic duties did you more or less reguilarly carry out during the last 365 days :-
Bringing water from out-side village ?(only for rural areas)

Interviewer instructions

Bringing water from outside-village(only for rural areas) (B9_q18)
File: Block-9-Persons-Domestic-duties-records

This question relate to relevant members' participating in specified activity which are self-explanatory. It will be ascertained whether the member along with his/her normal domestic duties also participates more or less regularly in the specified activity listed. If the answer is 'yes', code '1' and if the answer is 'not', code '2' will be recorded against the relevant item for the particular person.

Water at distance (in kms)? (B9_q19)
File: Block-9-Persons-Domestic-duties-records

Overview

Type: Continuous	Valid cases: 2514
Format: numeric	Invalid: 118290
Width: 2	Minimum: 0
Decimals: 0	Maximum: 60
Range: 0-60	Mean: 2.8
	Standard deviation: 6.5

Literal question

for code 1 in question 18: distance in kilometres.

Interviewer instructions

If for a particular person the answer to the question listed against item 18 (i.e., whether the person brings water from outside the village) is 'yes', (code 1), the distance (rounded off the nearest kilometer) the person has to travel from his household premises to the point of the source of water will be recorded against this item.

Willing to accept work? (B9_q20)
File: Block-9-Persons-Domestic-duties-records

Overview

Type: Discrete	Valid cases: 120791
Format: character	Invalid: 0
Width: 1	

Literal question

inspite of your pre-occupation in domestic duties, are you willing to" accept work, if work is made available at your household,? (yes-J, no-2)

Interviewer instructions

For all those categorized 'usually engaged in domestic duties' and listed against item '1', it will be ascertained whether they will be prepared to accept work if work is made available at their household premises. If the answer is in affirmative, code 1 and if the answer is in negative, code 2 will be recorded against this item.

Nature of work acceptable (B9_q21)
File: Block-9-Persons-Domestic-duties-records

Overview

Type: Discrete	Valid cases: 28108
Format: character	Invalid: 0
Width: 1	

Pre question

The question listed against this item will be put only to those who have answered in affirmative for the question listed against item 20, (i.e. persons with entry 1 against item 20

Literal question

For code -1 in question 20 , the nature of work acceptable.

Interviewer instructions

The codes appropriate for the answers will be recorded against the relevant item

Type of work acceptable (B9_q22)
File: Block-9-Persons-Domestic-duties-records

Overview	
Type: Discrete	Valid cases: 28279
Format: character	Invalid: 0
Width: 1	

Pre question

The question listed against this item will be put only to those who have answered in affirmative for the question listed against item 20, (i.e. persons with entry 1 against item 20

Literal question

Type of work acceptable(Code)

Interviewer instructions

The codes appropriate for the answers will be recorded against the relevant item

Skill/Experience code (B9_q23)
File: Block-9-Persons-Domestic-duties-records

Overview	
Type: Discrete	Valid cases: 27971
Format: character	Invalid: 0
Width: 1	

Pre question

The question listed against this item will be put only to those who have answered in affirmative for the question listed against item 20, (i.e. persons with entry 1 against item 20

Literal question

Do you have Skill/Experience to undertake that work code

Interviewer instructions

The codes appropriate for the answers will be recorded against the relevant item

Assistance code (B9_q24)
File: Block-9-Persons-Domestic-duties-records

Overview	
Type: Discrete	Valid cases: 28279
Format: character	Invalid: 0
Width: 1	

Pre question

The question listed against this item will be put only to those who have answered in affirmative for the question listed against item 20, (i.e. persons with entry 1 against item 20

Literal question

what assistance do you require to undertake that work (code)?

Interviewer instructions

The codes appropriate for the answers will be recorded against the relevant item

HH Indebted code (Indebt_code)
File: Block-10-Household-Loan-records

Overview	
Type: Discrete	Valid cases: 42853
Format: character	Invalid: 0
Width: 1	

Serial No. of loan (B10_q1_Loan_slno)
File: Block-10-Household-Loan-records

Overview	
Type: Discrete	Valid cases: 42853
Format: character	Invalid: 0
Width: 2	

Literal question

Serial No. of loan

Interviewer instructions

entries are to be made for each loan separately. Thus, each loan outstanding on the date of survey will get a separate serial number and that has to be recorded under this column.

Nature of Loan/Debt (B10_q2)
File: Block-10-Household-Loan-records

Overview	
Type: Discrete	Valid cases: 15629
Format: character	Invalid: 0
Width: 1	

Literal question

Nature of Loan/Debt

Interviewer instructions

For each loan listed in column (1), the 'nature of loan' in terms of core numbers will be recorded in this column

Amount outstanding including-interest (B10_q3)
File: Block-10-Household-Loan-records

Amount outstanding including-interest (B10_q3)
File: Block-10-Household-Loan-records

Overview	
Type: Continuous	Valid cases: 26664
Format: numeric	Invalid: 16189
Width: 6	Minimum: 0
Decimals: 0	Maximum: 400000
Range: 0-400000	Mean: 1575.1
	Standard deviation: 7356.6

Literal question

Amount outstanding including-interest on the date of survey

Interviewer instructions

For each loan, the total amount due on the date of enquiry (i.e. the outstanding principal plus the interest due) will be recorded in column (3). Initial discount allowed, if any, in the principal should be taken into account while recording the total amount of loan outstanding on the date survey

Source of loan/Debt (B10_q4)
File: Block-10-Household-Loan-records

Overview	
Type: Discrete	Valid cases: 15609
Format: character	Invalid: 0
Width: 1	

Literal question

Source of loan/Debt

Interviewer instructions

The information regarding the source of each loan will be recorded in this column in terms of code numbers.

Purpose of Loan/Debt (B10_q5)
File: Block-10-Household-Loan-records

Overview	
Type: Discrete	Valid cases: 15592
Format: character	Invalid: 0
Width: 1	

Literal question

Purpose of Loan/Debt

Interviewer instructions

The purpose for which the loan has been contracted by the household will be recorded in this column in terms of codes. If a particular loan is taken to meet more than one purpose, the purpose for which large part of the loan is intended to be utilized will be considered for recording entries against this column
