## India (1999-2000)

# Employment and Unemployment Survey: NSS 55th Round : July 1999 -June 2000

Overview	
Type	Socio-Economic/Household Survey
Identification	DDI-IND-MOSPI-NSSO-55Rnd-Sch10-and-10dot1-1999-2000
Version	V1.0; Re-organised anonymised dataset for public distribution.
Series	The NSSO carried out the first quinquennial survey on employment - unemployment in the 27th round (September 1972 - October 1973). This first survey made a marked departure from the earlier employment surveys of NSSO in procedure and content. The concepts and procedure followed in this survey were primarily based on the recommendations of the 'Expert Committee on Unemployment Estimates' (1970). Since then, the four successive quinquennial surveys conducted in 32nd, 38th, 43rd and 50th rounds have, more or less, followed an identical approach in the measurement of employment and unemployment. Continuing in this series this was the sixth quinquennial survey conducted as 55th round from July 1999-June 2000.
<p><b>Abstract</b></p> <p>The Employment and Unemployment surveys of National sample Survey (NSS) are primary sources of data on various indicators of labour force at National and State levels. These are used for planning, policy formulation, decision support and as input for further statistical exercises by various Government organizations, academicians, researchers and scholars. NSS surveys on employment and un-employment with large sample size of households have been conducted quinquennially from 27th. round(October'1972 - September'1973) onwards. Since then, the four successive quinquennial surveys conducted in 32nd, 38th, 43rd and 50th rounds have, more or less, followed an identical approach in the measurement of employment and unemployment. The basic approach in all these four quinquennial surveys have been the collection of data to generate the estimates of employment and unemployment according to the 'usual status' based on a reference period of one year, the 'current weekly status' based on a reference period of one week, and the 'current daily status' based on each day of the previous week. In order to reveal the multi-dimensional aspects of the employment-unemployment situation in India, information on several correlates were also gathered in these surveys. Sets of probing questions on some of these aspects have also been one of the basic features of these surveys.</p> <p>A Working Group was set up for the purpose of finalising the survey methodology and schedules of enquiry of the 55th round. Considering all the aspects of current data demand and usefulness of the survey results, the Group has suggested a few improvisations, additions and deletions in the content of the schedule of enquiry for the present survey. The major changes made in the schedule for employment and unemployment survey vis-à-vis the previous quinquennial survey are given below:</p> <p>a) Instead of recording the details for one subsidiary usual economic activity of all the members of the household, the details of two subsidiary usual economic activities pursued for relatively more time were be recorded.</p> <p>b) Certain probing questions to identify the employment in the unincorporated enterprises (i.e., the proprietary and partnership enterprises other than those covered under Annual Survey of Industries (ASI)) will be asked to the workers according to usual principal as well as subsidiary statuses. This apart, information to identify 'homeworkers' were collected in this round.</p> <p>c) In addition to the information on the changes undergone in industry and/or occupation of the usually employed persons during last 2 years, provisions were made to record changes in the status of work as well as the establishment of work during the same reference period. In all such cases where changes in any of these would be reported, the previous position obtaining for the person in that regard were ascertained.</p>	

- d) Migration particulars of each of the members of the sample household were collected, as was done in the fourth quinquennial survey (NSS 43rd round).
- e) Probing questions, framed to get data on participation of persons in specified household chores, were put only to females instead of all persons usually engaged in household chores.
- f) The schedules on Employment - Unemployment and Consumer Expenditure are to be canvassed in independent sets of households. Since the monthly per capita expenditure of a household is an important classificatory variable for the study of employment- unemployment, household expenditure on broad groups of items were recorded so as to work out monthly per capita expenditure of the household.
- g) A sub-sample of FSUs were repeated in two consecutive sub-rounds. The households selected and surveyed in a sub-round were re-visited in the next sub-round for collection of data on employment and unemployment only. The newly formed households, if found, during the second visit to the FSU constituted second-stage stratum 9 and a sample of households were selected from them for canvassing Schedule 10 (and not Schedule 10.1).
- h) All the items of information contained in Schedule 10 were not be collected in the second visit. A separate Schedule 10.1 was designed (retaining few blocks of Schedule 10) and used for data collection in the second visit. It is important to note that for the items retained in Schedule 10.1, the reference of block, item or column (i.e., block no., item no. and column no.) were the same as those of Schedule 10 meant for first visit, unless otherwise specifically mentioned.  
the same concepts, definitions and procedures were followed for collection of data in the second visit.

Work Programme: The survey period of one year was divided into four sub-rounds of three months duration each as below.

sub-round period of survey

- 1 July-September, 1999
- 2 October- December, 1999
- 3 January-March, 2000
- 4 April-June, 2000

Equal number of sample fsu's were allotted for survey in each of these four sub-rounds. Each fsu was surveyed during the sub-round period to which it was allotted. Within a particular sub-round, efforts were made to spread out the field work of various fsu's uniformly over different weeks/months to the extent possible..Fifty per cent of the sample fsu's of each sub-round were be revisitd again (only for the central sample) in the subsequent sub-round and collected employment-unemployment details from the sample households who were visited during the previous sub-round. In such cases efforts were made to revisit the fsu just after 3 months.

<b>Kind of Data</b>	Sample survey data [ssd]
<b>Unit of Analysis</b>	Randomly selected households based on sampling procedure and members of the household

## Scope & Coverage

### Scope

The NSSO surveys on employment and unemployment aim to measure the extent of 'employment' and 'unemployment' in quantitative terms disaggregated by various household and population characteristics . The persons surveyed are classified in to various activity categories on the basis of the activities pursued by them during certain specified reference periods. Three reference periods are used in these surveys. These are (i) one year (ii) one week and (iii) each day of the week. Based on these three periods three different measures are arrived at. These are termed as usual status, current weekly status ,and the current daily status .In the present survey, apart from the collection of data on employment and unemployment efforts were also made to collect data on the activity profiles of children. This is hoped to make available useful information relating to child

labour and its causes. Another new dimension added to the present survey was in the probing questions to the unemployed regarding their educational background, past employment, nature of efforts made and sectors in which employment is sought. The probing questions on the employed to understand the extent of under utilisation of labour time was further expanded to acquire more specific information from the employed. There were also some questions on the qualitative aspects of employment like occupational changes, availability of trade unions, nature of employer etc.

Summary description of the schedule 10:

Schedule 10 on employment-unemployment for this round consisted of 16 blocks.

Blocks 0, 1 and 2 were similar to the ones used in usual NSS rounds. These were used to record identification of sample households and particulars of field operations.

The last two blocks, viz., Blocks 10 & 11, were again the usual blocks to record the remarks of investigator and comments by supervisory officer, respectively.

Block 3 used for recording the household characteristics like household size, religion, social group, land possessed and cultivated, monthly per capita consumer expenditure, etc.,

Block 3.1 was meant for recording particulars of indebtedness of rural labour households.

Block 4 was used for recording the demographic and migration particulars of all the household members.

In Block 5.1, particulars of principal usual activity of all the household members and the details of the enterprises for the usual status workers in the non-agriculture sector were recorded.

Similarly, the particulars of two major subsidiary economic activities of the household members and the details of the enterprises in which they were working recorded in Block 5.2.

The daily time disposition for the previous seven days along with the corresponding activity particulars were recorded for each of the household members in Block 5.3. Besides this, the CWS was derived from the daily time disposition data and recorded in this block. As in the past, wage and salary earnings and mode of payment will also be collected for the workers in this block.

Block 6 was used to record the responses to the probing questions to the persons who were unemployed on all the seven days of the reference week. They were identified on the basis of duration of unemployment during the reference week recorded in Block 5.3.

Blocks 7.1 and 7.2 contains the probing questions which were related to the under-utilisation of labour time and labour mobility, respectively.

For the females classified as engaged in 'domestic duties' as per their usual principal status, some follow-up questions were framed and listed in Block 8 with a view to collecting some additional information which might explain as to whether their usual attachment to domestic duties was voluntary or involuntary and also throw light on their participation in some specified activities for family gain.

A worksheet to obtain the household monthly total expenditure provided in Block 9

Some important points on Schedule 10.1

The following points may be kept in mind while collecting data for Schedule 10.1:

1. This schedule had 9 blocks including the usual blocks 0, 1, 2, 10 and 11. The other blocks were blocks 4, 5.1, 5.2 and 5.3.

2. All the references i.e., block number, column/item number were same as in Schedule 10. The concepts, definitions and procedures of data collection were, therefore, same as for Schedule 10.
3. Blocks 0 and 1 always filled in and item 12, block 1 always 2. During the second visit, a household was substituted if it does not cooperate and refuses to provide information. In case the household was substituted at the time of revisit, i.e., item 18, block 1 will be 2, only blocks 0 and 1 were filled and the top page of schedule 10.1 was torn off and attached to schedule 10 canvassed for the substituted household.
4. There may be a situation when the sample household has shifted out of the village / block or cease to exist at the time of revisit to the household and hence cannot be located within the FSU. In such a situation, blocks 0 and 1 only were filled in for the household and code 3 (not found) was recorded against item 18 of block 1. However, if the household has changed its location within the FSU, then that household was surveyed at the present location.
5. In the case of a split in the sample household after the first visit, the part found in the previous location was surveyed and the other part, if it remains in the FSU, was treated as new household. This new household formed a part of the second stage stratum 9. If both the parts were within the FSU but none of them was found in the previous location, then the household having the senior most member of the erstwhile household was surveyed. If again only one part of the household remains within the FSU, then that was located and surveyed.
6. Schedule 10 was always be canvassed for the households belonging to second-stage stratum 9.
7. Information for the schedule was mostly collected by the same investigator and from the same informant of the household as was done during the first visit to the household.
8. Item 19, block 1 was filled in after filling up of block 4. In the case where the household was substituted, it was left blank.
9. For part A (erstwhile members) of block 4, serial number (col.1), name (col.2) and age (col. 5) were copied from block 4 of schedule 10 canvassed during the first visit to the household.
10. For part A of block 4, columns 13, 14 and 20 were not filled in.
11. Column 21 of block 4 was invariably filled in for all persons listed in part A and part B.
12. For part B of block 4, all the columns (1 to 21) were filled in.
13. Blocks 5.1, 5.2 and 5.3 were filled in afresh for all the present members of the household irrespective of whether they were listed in part A or B of block 4.

<b>Keywords</b>	Employment, Unemployment, Indebtedness of rural labour, Usual principal activity, Usual subsidiary activity, Time disposition during the week, Unemployed persons on all the 7 days of the week, Change of nature of work, Change of establishment

### **Geographic Coverage**

The survey covered the whole of the Indian Union excepting (i) Ladakh & Kargil districts of Jammu & Kashmir, (ii) interior villages of Nagaland situated beyond 5 kms. of a bus route & (iii) villages of Andaman & Nicobar Islands remaining inaccessible throughout the year. All the villages of the country, uninhabited according to 1991 census, were also left out of the survey coverage of the NSS 55th round.

### **Universe**

The survey used the interview method of data collection from a sample of randomly selected households and members of the household

## Sampling

### Sampling Procedure

One salient feature of the 55th round is that the rotation sampling scheme has been adopted for the first time in the NSS (central sample only) for the purpose of collection of employment-unemployment data. Under this scheme, 50 per cent of the sample first stage units (fsu's) of each sub-round will be revisited in the subsequent sub-round. From each such fsu, sample households visited in the previous sub-round for collecting data on employment-unemployment will be revisited in the subsequent sub-round for collecting employment-unemployment details. In addition, for the purpose of collecting employment-unemployment data, a thin sample of 2 households will be selected during the revisit from the frame of newly formed households in the fsu. It may be noted that the above scheme of rotation sampling scheme for collecting employment-unemployment data will be followed only for the fsu's belonging to the central sample. For state samples, the fsu's are to be visited only once as they appear in the sample list for canvassing various schedules in the selected households/enterprises.

Sampling frame for first stage units:

The frame used for selection of first stage units in the rural sector was the 1991 census list of villages for all the four sub-rounds for 8 states/u.t.s viz. Andhra Pradesh, Assam, Kerala, Madhya Pradesh, Orissa, Uttar Pradesh, West Bengal and Chandigarh. However for Agra district of U.P. and the three districts, viz.Durg, Sagar, and Morena of M.P., samples were drawn using 1981 census list of villages. For Jammu & Kashmir samples for all the 4 sub-rounds were drawn using the 1981 census list as the 1991 census was not conducted in the state. For

the remaining 23 states/u.t.s, the frame was 1991 census list for sub-rounds 2 to 4 and 1981 census list for sub-round 1 as the 1991 census list was not available for use at the time of drawing the samples.

As usual, for Nagaland the list of villages within 5 kms. of the bus route and for Andaman and Nicobar Islands the list of accessible villages constituted the frame. In the case of urban sector the frame consisted of the UFS blocks and, for some newly declared towns where these were not available, the 1991 census enumeration blocks were used.

#### Region formation and stratification:

States were divided into regions by grouping contiguous districts similar in respect of population density and cropping pattern. In rural sector each district was treated a separate stratum if the population was below 2 million and where it exceeded 2 million, it was split into two or more strata. This cut off point of population was taken as 1.8 million ( in place of 2 million ) for the purpose of stratification for districts for which the 1981 census frame was used. In the urban sector, strata were formed, within each NSS region on the basis of population size class of towns. However for towns with population of 4 lakhs or more the urban blocks were divided into two classes viz. one consisting of blocks inhabited by affluent section of the population and the other consisting of the remaining blocks.

#### Selection of first stage units :

Selection of sample villages was done circular systematically with probability proportional to population and sample blocks circular system-atically with equal probability. Both the sample villages and the sample blocks were selected in the form of two or more independent sub-samples. In Arunachal Pradesh the procedure of cluster sampling has been followed. Further large villages/blocks having present population of 1200 or more were divided into a suitable number of hamlet- groups/ sub-blocks having equal population content. Two hamlet-groups were selected from the larger villages while one sub-block was selected in urban sector for larger blocks.

#### Selection of households :

While listing the households in the selected villages, certain relatively affluent households were identified and considered as second stage stratum 1 and the rest as second stage stratum 2.

A total of 10 households were surveyed from the selected village/hamlet-groups, 2 from the first category and remaining from the second.

Further in the second stage stratum-2, the households were arranged according to the means of livelihood. The means of livelihood were identified on the basis of the major source of income as i) self-employed in non-agriculture, ii) rural labour and iii) others. The land possessed by the households was also ascertained and the frame for selection was arranged on the basis of this information.

The households were selected circular systematically from both the second stage strata.

In the urban blocks a different method was used for arranging the households for selection. This involved the identification means of livelihood of households as any one of a) self-employed, b) regular salaried/wage earnings, c) casual labour, d) others. Further the average household monthly per capita consumer expenditure (mpce) was also ascertained. All households with MPCE of (i) Rs. 1200/- or more (in towns with population less than 10 lakhs or (ii) Rs. 1500/- or more (in towns with population 10 lakh or more) formed second-stage stratum 1 and the rest, second-stage stratum 2. The households of second-stage stratum 2 were arranged according to means of livelihood class and MPCE ranges before selection of sample households. A total of 10 households were selected from each sample block as follows

(i) For affluent strata/classes : 4 households from second- stage stratum 1 and 6 households from second-stage stratum 2

(ii) For other strata/classes : 2 households from second-stage stratum 1 and 8 from second-stage stratum 2.

Households were then selected circular systematically with a random start.

Shortfall in the required number of household in any second-stage stratum was made up by increasing the quota for the other second stage stratum.

A total of 7284 sample villages (Rural) and 4792 sample blocks (Urban) were allotted in central sample. 6983 sample villages and 470 sample blocks were successfully surveyed covering 356351 persons in sample villages and 208389 persons in sample blocks.

### **Deviations from Sample Design**

There was no deviation from the original sampling design

### **Weighting**

Three different weights are provided in each record of files in the data set. Details are as follows:-

1. Weight for each sub-round (Sub-round wise weight) is stored in Variable name : WGT\_SubSample
2. Weight for each subsample (Sub-sample wise weight) is stored in Variable name : WGT\_Subround
3. Weight for all Subrounds pooled and combined subsample weight is stored in Variable name : WGT\_Pooled

## **Data Collection**

<b>Data Collection Dates</b>	Sub-round-1: start 1999-07-01
	Sub-round-1: end 1999-09-30
	Sub-round-2: start 1999-10-01
	Sub-round-2: end 1999-12-31
	Sub-round-3: start 2000-01-01
	Sub-round-3: end 2000-03-31
	Sub-round-4: start 2000-04-01
	Sub-round-4: end 2000-06-30

<b>Data Collection Mode</b>	Face-to-face [f2f]
-----------------------------	--------------------

### **Questionnaires**

Summary description of the schedule :

The schedule 10 on employment-unemployment for NSS50th round consisted of 13 blocks as given below.

Blocks 0, 1 and 2 - identification of sample households and particulars of field operations.

Block 3 - Household Characteristics.

Block 3.1 - Indebtedness of rural Labour Households as on date of survey

Block 4 - Demographic and migration particulars of household members.

Block 5.1: Usual principal activity particulars of household members.

Block 5.2: Usual subsidiary economic activity particulars of household members

Block 5.3: Time disposition during the week

Block 6: Follow-up questions for persons unemployed on all the seven days of the week

Block 7.1: Follow-up questions on availability of work to persons working in the usual principal or subsidiary status (activity - I) (i.e. those with codes 11-51 either in col. 3 of bl. 5.1 or bl. 5.2 under subsidiary activity status - I)

Block 7.2: Follow-up questions on change of nature of work and/or establishment to persons working in the usual principal or subsidiary status (activity - I) (i.e. with codes 11-51 in col. 3 of bl. 5.1 or 5.2)

Block 8: Follow-up questions for females (code 2 in col. 4, bl. 4) with principal usual activity status codes 92 or 93 (in col. 3 of bl. 5.1)

Block 9: Worksheet for recording household consumer expenditure:

Blocks 10 & 11 - used for recording the remarks of the investigator and comments of supervisory officers respectively.

The linkage between different blocks are shown in the block diagram given below.

Block 0.1 & 2

Block 3 ---> Block 3.1---> Block 9

Block 4----> Block 5.1----->Block 5.2---> Block 5.3---> Block 6

V

I-> Block 7.1  
 I-> Block 7.2  
 I-> Block 8  
 Block 10 & 11

#### RE-VISIT Schedule 10.1

This schedule has 9 blocks including the usual blocks 0, 1, 2, 10 and 11.  
 The other blocks are blocks 4, 5.1, 5.2 and 5.3 which are similar to schedule 10.

<b># Cases</b>	5993
<b># Variable(s)</b>	43
<b>File Structure</b>	Type: relational Key(s): Key_hhold (Key to locate Household)
<b>File Content</b> The information on the extent of indebtedness of the rural labour households, i.e., those with household type code 2 or 3 against item 4 of block 3 of rural schedules which were captured in Block 3.1 are the contenst of this dataset.	
<b>Producer</b> NSSO	
<b>Notes</b> It may be noted that the Amount of loan is repeated for each of the applicable codes of Natureof loan,Source of loan and purpose of loan instead of giving the loan amountonce and the corresponding codes describing Nature,Source and purpose of loan as appearing in the block and as canvassed during the survey.	

<b>Block4-sch10-persons-demographic-migration-records</b>	
<b># Cases</b>	596686
<b># Variable(s)</b>	38
<b>File Structure</b>	Type: relational Key(s): key_Hhold (Key to identify Household) , key_prsn (Key to identify Person)
<b>File Content</b> Content of this dataset is pertaing to the data collected through Block 4 of the questionnaire regarding demographic particulars like sex, age, marital status etc. and particulars of migration for each member of the household	
<b>Producer</b> NSSO	

<b>Block51-sch10-Persons-usual-principal-activity-Records</b>	
<b># Cases</b>	596686
<b># Variable(s)</b>	39
<b>File Structure</b>	Type: relational Key(s): Key_hhold (Key to identify Household) , Key_prsn (Key to identify person)
<b>File Content</b> This dataset contains the usual principal activity particulars of each member of the household collected in block 5.1 . This will include information on industry-occupation of the working members and the particulars of the enterprises in which they are working. The particulars of usual activity were collected with reference to a period of 365 days preceding the date of survey.	
<b>Producer</b> NSSO	

<b>Block52-sch10-Persons-subsiary-activity-Records</b>	
<b># Cases</b>	19228
<b># Variable(s)</b>	37
<b>File Structure</b>	Type: relational Key(s): Key_Hhold (Key to identify household) , Key_prsn (Key to identify person) , Key_prsn_subacty (Key to identify person sub activity no)
<b>File Content</b> This dataset pertains to the usual subsidiary economic activity particulars of each member of the household collected in block 5.2. Also included are the information on industry-occupation of the working members and the particulars of the enterprises in which they are working in subsidiary status. The particulars of usual activity are collected with reference to a period of 365 days preceding the date of survey.	
<b>Producer</b> NSSO	

<b>Block53-sch10-Persons-daily-activity-time-disposition-Records</b>	
<b># Cases</b>	700932
<b># Variable(s)</b>	36
<b>File Structure</b>	Type: relational Key(s): Key_Hhold (Key to identify household) , Key_PRSN (Key to identify person) , Key_acty_Slno (Key to identify person activity slno)
<b>File Content</b> Content of this dataset are the time disposition recorded for every member in the household listed in block 4 for all the 7 days preceding the date of survey, the current weekly status based on the 7 days time disposition, wage and salary earnings during the week, etc.	

<b>Block6-sch10-persons-unemployed-7daysweek-Records</b>	
<b># Cases</b>	9455
<b># Variable(s)</b>	29
<b>File Structure</b>	Type: relational

	Key(s): Key_Hhold_slno (Key to locate Household) , Key_Prsn_slno (Key to locate Person)
<b>File Content</b>	
This dataset contains Information on persons who were found to be unemployed on all the seven days of the week preceding the date of survey. Data includes their past employment and the particulars of such employmen. Such persons were identified on the basis of the daily time disposition recorded in block 5.3, and ccode 1 in olumn (23) of block 5.3.

# Variables Description

Dataset contains 515 variable(s)

File Block3-sch10--Household-Characteristics-records			
<b>#1 Key_hhold: Key to locate Household</b>			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=120578 /-] [Invalid=0 /-]		
Recoding and Derivation	KEY variable generated to identify a household by combining the variables:- (Sub round, Sub sample, First stage unit no, visit no, Segment no, 2nd stage stratum and household serial no.)		
<b>#2 RecID: Record ID(indicate blockno-03)</b>			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=120578 /-] [Invalid=0 /-]		
Recoding and Derivation	Generated variable to indicate Block no of the questionnaire to which the records of this dataset belong		
<b>Value</b>	<b>Label</b>	<b>Cases</b>	<b>Percentage</b>
03	Block-3 data	120578	100.0%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
<b>#3 Round_sch: Round and schedule</b>			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=120578 /-] [Invalid=0 /-]		
Recoding and Derivation	Generated variable- First 2 characters indicate NSS round (55) and the last character indicate schedule number ( 2-for schedule10 and 4 for Schedule 10.1(Re-visit).		
<b>Value</b>	<b>Label</b>	<b>Cases</b>	<b>Percentage</b>
552		120578	100.0%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
<b>#4 Sector: Sector</b>			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=120578 /-] [Invalid=0 /-]		
Literal question	sector (rural-1, urban-2)		
<b>Value</b>	<b>Label</b>	<b>Cases</b>	<b>Percentage</b>
1	Rural	71417	59.2%
2	Urban	49161	40.8%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
<b>#5 State: State</b>			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=120578 /-] [Invalid=0 /-]		
Literal question	State code		
<i>Frequency table not shown (32 Modalities)</i>			
<b>#6 Region: Region</b>			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=120578 /-] [Invalid=0 /-]		
Literal question	Region code		

## File Block3-sch10--Household-Characteristics-records

### #6 Region: Region

Value	Label	Cases	Percentage
1	Region-1	45988	38.1%
2	Region-2	31951	26.5%
3	Region-3	20901	17.3%
4	Region-4	14994	12.4%
5	Region-5	4428	3.7%
6	Region-6	1357	1.1%
7	Region-7	959	0.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #7 Stratum: Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=120578 /-] [Invalid=0 /-]
Literal question	stratum number

### #8 District: District

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=120578 /-] [Invalid=0 /-]
Literal question	District

### #9 Sub\_round: Sub round

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=120578 /-] [Invalid=0 /-]
Definition	As usual, the survey period of this round is divided into four sub-rounds, each with a duration of three months.
Literal question	sub - round

Value	Label	Cases	Percentage
1	Sub-round-1	30033	24.9%
2	Sub-round-2	30151	25.0%
3	Sub-round-3	30343	25.2%
4	Sub-round-4	30051	24.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #10 Sub\_sample: Sub sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=120578 /-] [Invalid=0 /-]
Definition	Sample fsu's from each first stage stratum will be drawn in the form of a number of independent sub-samples. There are 8 sub-samples in this round of survey.
Literal question	sub - sample

Value	Label	Cases	Percentage
1	Sub-sample-1	15068	12.5%
2	Sub-sample-2	15061	12.5%
3	Sub-sample-3	15007	12.4%
4	Sub-sample-4	15048	12.5%
5	Sub-sample-5	15106	12.5%
6	Sub-sample-6	15237	12.6%

## File Block3-sch10--Household-Characteristics-records

### #10 Sub\_sample: Sub sample

Value	Label	Cases	Percentage
7	Sub-sample-7	15010	12.4%
8	Sub-sample-8	15041	12.5%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #11 fsu\_no: First stage Unit no

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-]
<b>Definition</b>	The first stage sampling unit (FSU) is the census village in the rural sector (Panchayat wards for Kerala). It is indicated in the sample list under the head "frame code" as to which particular list has been used as the sampling frame for selection of FSUs. The fsu's in the urban sector are the Urban Frame Survey (UFS) blocks. The list of latest UFS blocks have been considered as sampling frame for selection of sample blocks in all cities and towns
<b>Literal question</b>	srl. no. of sample village / block

### #12 Visit\_no: Visit no

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-]
<b>Literal question</b>	household visit number (1 / 2)
<b>Interviewer's instructions</b>	If a sample FSU is surveyed for the first time, visit number will be '1'. And if the same FSU is surveyed for the second time in the next sub-round, the visit number will be '2'.

Value	Label	Cases	Percentage
1	1st Visit	120578	100.0%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #13 Seg\_no: Segment no

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-]
<b>Literal question</b>	segment (1 / 2)

Value	Label	Cases	Percentage
1		80677	66.9%
2		39901	33.1%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #14 Stg2\_stratm: Stage-2 stratum

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-]
<b>Literal question</b>	second-stage stratum

Value	Label	Cases	Percentage
01		14596	12.1%
02		105982	87.9%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #15 Survey\_code: Survey code

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120577 /-] [Invalid=0 /-]
<b>Literal question</b>	survey code

## File Block3-sch10--Household-Characteristics-records

### #15 Survey\_code: Survey code

Value	Label	Cases	Percentage
1	Original hhold surveyed	117941	97.8%
2	Substitute hhold surveyed	2636	2.2%
3	Causality`	0	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #16 Reasn\_substn: Reason substitution

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=2773 /-] [Invalid=0 /-]
<b>Literal question</b>	reason for first substitution of original hh. (code)

Value	Label	Cases	Percentage
1	Informant busy	352	12.7%
2	Members away from home	1938	69.9%
3	Informant non co-operative	332	12.0%
9	Others	151	5.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #17 B2\_q4: Time to canvass(mts).

<b>Information</b>	[Type= continuous] [Format=numeric] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-]
<b>Literal question</b>	total time taken to canvass schedule 10 (minutes)

### #18 Hhhold\_Slno: Sample hhold no

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-]
<b>Literal question</b>	sample household no.

### #19 B3\_q2: Social group

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-]
<b>Literal question</b>	Household social group
<b>Interviewer's instructions</b>	it will have to be ascertained whether the household belongs to schedule tribe, scheduled caste or neo-Buddhist and accordingly the respective codes 1, 2 or 3 will be recorded here.

Value	Label	Cases	Percentage
1	Scheduled tribe	13818	11.5%
2	Scheduled caste	19398	16.1%
3	Other backward class	38877	32.2%
9	Others	48485	40.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #20 B3\_q3: Religion

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-]
<b>Literal question</b>	Household religion
<b>Interviewer's instructions</b>	The code of the particular religious faith which the head of the household follows, will be recorded as per codelist

## File Block3-sch10--Household-Characteristics-records

### #20 B3\_q3: Religion

Value	Label	Cases	Percentage
0	NR	14	0.0%
1	Hinduism	93676	77.7%
2	Islam	14611	12.1%
3	Christianity	6490	5.4%
4	Sikhism	2864	2.4%
5	Jainism	483	0.4%
6	Buddhism	1274	1.1%
7	Zoroastrianism	25	0.0%
9	others	1141	0.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #21 B3\_q4: Hhold type

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-]
<b>Literal question</b>	Hhold type
<b>Interviewer's instructions</b>	Household type will be recorded against this item in terms of the codes

Value	Label	Cases	Percentage
11	Self-employed in non-agriculture	10447	8.7%
12	Agricultural labour(rural)	18074	15.0%
13	Other labour(rural)	5639	4.7%
14	Self employed in Agriculture(rural)	26522	22.0%
18	Invalid	59	0.0%
19	Others(rural)	10676	8.9%
21	Self-employed in non-agriculture(urban)	17756	14.7%
22	Regular wage/salary earning(urban)	20465	17.0%
23	Casual labour(urban)	6044	5.0%
28	Invalid	58	0.0%
29	Others(urban)	4838	4.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #22 B3\_q5: MPCE(Rs)

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 1-35732] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-] [Mean=682.441 /-] [StdDev=581.835 /-]
<b>Literal question</b>	Total expenditure last month (Rs)
<b>Interviewer's instructions</b>	The total monthly consumer expenditure given in item 19 of block 9 will be copied against this item. The entry for expenditure will be made in whole rupees (and not in two places of decimals).

### #23 B3\_q6: Land owned(0.00)

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-162.88] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-] [Mean=0.721 /-] [StdDev=2.288 /-]
<b>Literal question</b>	land owned as on date of survey (in 0.00 hectares)
<b>Interviewer's instructions</b>	The total land owned by the household as on the date of survey will be recorded against this item

## File Block3-sch10--Household-Characteristics-records

### #24 B3\_q7: Land possessed(0.00).

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-162.88] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-] [Mean=0.723 /-] [StdDev=2.237 /-]
<b>Literal question</b>	land possess as on date of survey (in 0.00 hectares)
<b>Interviewer's instructions</b>	The total land possessed by the household as on the date of survey will be recorded against this item

### #25 B3\_q8: Land cultivated(0.00)

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-160] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-] [Mean=0.632 /-] [StdDev=2.058 /-]
<b>Literal question</b>	land cultivated as on date of survey (in 0.00 hectares)
<b>Interviewer's instructions</b>	The total land cultivated by the household as on the date of survey will be recorded against this item

### #26 B3\_q9: male-public-wrker

<b>Information</b>	[Type= discrete] [Format=numeric] [Range= -1-16] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-]
<b>Literal question</b>	No. of male members who got work for at least 60 days in 'public works' during last 365 days
<b>Interviewer's instructions</b>	It will be first ascertained if any male member of the household got any work for at least 60 days during last 365 days preceding the date of survey in 'public works'.

Value	Label	Cases	Percentage
-1		95949	79.6%
0		22876	19.0%
1		1237	1.0%
2		444	0.4%
3		30	0.0%
4		16	0.0%
5		8	0.0%
6		1	0.0%
7		2	0.0%
8		5	0.0%
10		8	0.0%
11		1	0.0%
16		1	0.0%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #27 B3\_q10: fem-public-wrker

<b>Information</b>	[Type= discrete] [Format=numeric] [Range= -1-13] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120578 /-] [Invalid=0 /-]
<b>Literal question</b>	No. of female members who got work for at least 60 days in 'public works' during last 365 days
<b>Interviewer's instructions</b>	It will be first ascertained if any female member of the household got any work for at least 60 days during last 365 days preceding the date of survey in 'public works'.

Value	Label	Cases	Percentage
-1		96708	80.2%
0		23036	19.1%
1		395	0.3%

## File Block3-sch10--Household-Characteristics-records

### #27 B3\_q10: fem-public-wrker

Value	Label	Cases	Percentage
2		371	0.3%
3		17	0.0%
4		16	0.0%
5		7	0.0%
6		9	0.0%
7		1	0.0%
8		5	0.0%
9		4	0.0%
10		8	0.0%
13		1	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #28 Nss: Nss

**Information** [Type= discrete] [Format=numeric] [Range= 1-15] [Missing=\*]

**Statistics [NW/ W]** [Valid=120578 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1		51492	42.7%
2		41057	34.1%
3		10355	8.6%
4		5395	4.5%
5		3760	3.1%
6		2074	1.7%
7		677	0.6%
8		2250	1.9%
10		11	0.0%
11		2084	1.7%
15		1423	1.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #29 ss\_replicate: SS\_replicate

**Information** [Type= discrete] [Format=numeric] [Range= 1-3] [Missing=\*]

**Statistics [NW/ W]** [Valid=120578 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1		276	0.2%
2		31134	25.8%
3		89168	74.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #30 Wgt: Multiplier posted(0.00)

**Information** [Type= continuous] [Format=numeric] [Range= 7.06-549390.88] [Missing=\*]

**Statistics [NW/ W]** [Valid=120578 /-] [Invalid=0 /-] [Mean=12480.475 /-] [StdDev=13176.199 /-]

### #31 Wgt\_SR\_comb: Multiplier sub round combined (generated)

**Information** [Type= continuous] [Format=numeric] [Range= 3.53-274695.44] [Missing=\*]

**Statistics [NW/ W]** [Valid=120578 /-] [Invalid=0 /-] [Mean=6250.106 /-] [StdDev=6624.859 /-]

## File Block3-sch10--Household-Characteristics-records

### #31 Wgt\_SR\_comb: Multiplier sub round combined (generated)

<b>Recoding and Derivation</b>	<p>Multipliers posted given against variable wgt are sub-round wise for each sub-round.(is in 2-place of decimal) Sub-round-specific combined multiplier are generated and given here to be used as weight for estimation in respect of Sch10..Apply a common divisor of 4 to get average of 4 sub-rounds.</p> <p>This weight variable is derived as follows:- Combined multiplier = Posted multiplier if SS replicate=1. Combined multiplier = Posted multiplier /2 if SS replicate &gt;1.</p>
--------------------------------	---

### #25 B4\_q10: Registered in empl exchange

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=576986 /-] [Invalid=0 /-]		
<b>Pre-question</b>	Age less than 65? Ask if yes		
<b>Literal question</b>	Currently registered with employment exchange: For persons of age below 65 years		
<b>Post-question</b>	Age Greater than 65 years,skip to next		
<b>Interviewer's instructions</b>	it is to be ascertained whether or not they are currently on the live register of the employment exchange. For a person to be currently on the live register, he or she should renew his/her registration before it lapses, i.e. when the renewal becomes due. The period specified for renewal varies from state to state and also perhaps, from one employment category to the other. The investigator therefore should ascertain from some knowledgeable sources, the period specified for such renewal in the particular region where he has to carry out the field work. With this background information, the investigator should find out when the person has registered in the employment exchange, whether he has renewed the registration etc. and thus determine whether or not he or she was currently on the live register of the employment exchange. If the name of the person is in the live register of the employment exchange, code 1 and if not, code 2 will be recorded in col. 10.		
<b>Value</b>	<b>Label</b>	<b>Cases</b>	<b>Percentage</b>
0	NR	2877	0.5%
1	Yes	20685	3.6%
2	No	553424	95.9%

## File Block4-sch10-persons-demographic-migration-records

### #25 B4\_q10: Registered in empl exchange

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #26 B4\_q11: Stayed in same place

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=596686 /-] [Invalid=0 /-]
<b>Literal question</b>	Whether staying in the same village/town for last 6 months or more
<b>Interviewer's instructions</b>	Each member of the household will be asked whether or not he/she has been staying in the sample village or town, as the case may be, for last 6 months or more irrespective of his/her period of temporary stay-away from the village/town for any purpose. Those staying for last 6 months or more would be assigned code 1 and others, code 2. It is quite possible that on the date of survey, a member of the household is not in the sample village/ town and is temporarily away from the village/town. For him/her also, code 1 or 2 will be assigned depending on whether his/her stay in the village/town is for last 6 months or more, or not. Note that for new born babies of age less than 6 months, code 2 may be recorded.

Value	Label	Cases	Percentage
0	NR	519	0.1%
1	Yes	587513	98.5%
2	No	8654	1.5%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #27 B4\_q12: Stayed away

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=586167 /-] [Invalid=0 /-]
<b>Pre-question</b>	If code 1 in col. 11 ask
<b>Literal question</b>	Whether during last 365 days stayed away from village/town for 60 days or more for employment or in search of employment
<b>Post-question</b>	If code is not 1 in col. 11 skip to next
<b>Interviewer's instructions</b>	For each person who had stayed in the sample village/town for last 6 months or more (i.e. with code 1 in col. 11), it is to be ascertained whether during last 365 days preceding the date of survey, he/she stayed away from the village/town for 60 days or more either for the purpose of employment/better employment or in search of employment. Code 1 or 2 is to be assigned according to the reply being in the affirmative or otherwise. For filling in this column, the following points may be kept in mind:

Value	Label	Cases	Percentage
1	Yes	6222	1.1%
2	No	579902	98.9%
9	Invalid	43	0.0%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #28 B4\_q13: Diff place enumeration

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=596686 /-] [Invalid=0 /-]
<b>Literal question</b>	Whether place of enumeration differs from last usual place of residence (upr)
<b>Interviewer's instructions</b>	Whether place of enumeration differs from last usual place of residence (upr): This column is intended to capture the information on migration of the household members. This will be decided based on the concept of change in the usual place of residence (upr). The usual place of residence here is defined as a place (village or town) where the person has stayed continuously for a period of six months or more. The place of enumeration refers to the place (village or town) where the person is being enumerated or surveyed, i.e., the present place of residence of the person. This column will record whether the person now enumerated had a different upr previously (called the last upr). Code 1 will be entered for persons whose place of enumeration is different from the last upr. For those who have been staying in the same village or town since their birth code 2 will be entered. Visits of daughters to their parent's place for child birth or for treatments etc. will not be considered even if it is for more than six months. The following two cases may be specifically noted:

## File Block4-sch10-persons-demographic-migration-records

### #28 B4\_q13: Diff place enumeration

- (i) For persons who have only moved from one locality to another within the same town/village, the place of enumeration and place of last upr will be the same.
- (ii) Stay in a different town or village for less than six months will be ignored. For example, if a person staying in place A moves to place B where he stays for 8 months and then moves to place C and stays there for 4 months before finally settling down at place D, and if he is enumerated at place D his last upr will be B and not C.

Value	Label	Cases	Percentage
1	Yes	155364	26.0%
2	No	441322	74.0%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #29 B4\_q14: period since leaving(years)

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=155368 /-] [Invalid=0 /-]
<b>Pre-question</b>	Columns (14) to (20) will be filled in only for those persons whose place of enumeration is different from the place of last upr (i.e., for those with code 1 recorded in col. 13).
<b>Literal question</b>	Period since leaving the last upr
<b>Post-question</b>	If code not =1 in Q13 then skip Q14 to 20
<b>Interviewer's instructions</b>	<p>For each such person, the years since leaving last upr i.e., the years elapsed since leaving the last upr till the date of survey will be recorded in column (14) in whole number as follows:</p> <p>period less than one year-0            one year or more but less than 2 years -1            2 years or more but less than 3 years- 2            and so on.</p> <p>In other words, only the completed number of years will be recorded. Periods of temporary stay (less than six months) in other places after leaving the last upr will also be included while determining the years since leaving last upr.</p>

*Frequency table not shown (90 Modalities)*

### #30 B4\_q15: location last residence

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=155359 /-] [Invalid=0 /-]
<b>Pre-question</b>	Columns (14) to (20) will be filled in only for those persons whose place of enumeration is different from the place of last upr (i.e., for those with code 1 recorded in col. 13).
<b>Literal question</b>	Particulars of last upr - location :
<b>Post-question</b>	If code not =1 in Q13 then skip Q14 to 20
<b>Interviewer's instructions</b>	Location refers to the type of last usual place of residence of the person. The relevant code, as per the structure given below, is to be assigned

Value	Label	Cases	Percentage
0	NR	348	0.2%
1	Same district:Rural	74298	47.8%
2	Same district:Urban	14288	9.2%
3	Same state butAnother district:Rural	27889	18.0%
4	Same state butAnother district:Urban	14872	9.6%
5	Another state: Rural	12943	8.3%
6	Another state: Urban	8902	5.7%
7	Another state: Another country	1819	1.2%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

## File Block4-sch10-persons-demographic-migration-records

### #31 B4\_q17: Last resd state code

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=155349 /-] [Invalid=0 /-]
<b>Pre-question</b>	Columns (14) to (20) will be filled in only for those persons whose place of enumeration is different from the place of last upr (i.e., for those with code 1 recorded in col. 13).
<b>Post-question</b>	If code not =1 in Q13 then skip Q14 to 20
<b>Interviewer's instructions</b>	The state/u.t./country to which the last upr belongs to will be recorded in these columns. While the name will be written in col. 16, the codes for states and union territories in India will be assigned in col. 17 and will be the same as those used in the list of NSS regions, appended to the instructions. Use specific codes given for the Countries to which the last upr belongs

*Frequency table not shown (47 Modalities)*

### #32 B4\_q18: Acty status at migration

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=155310 /-] [Invalid=0 /-]
<b>Pre-question</b>	Columns (14) to (20) will be filled in only for those persons whose place of enumeration is different from the place of last upr (i.e., for those with code 1 recorded in col. 13).
<b>Literal question</b>	Usual activity status at the time of leaving last upr
<b>Post-question</b>	If code not =1 in Q13 then skip Q14 to 20
<b>Interviewer's instructions</b>	For determining the usual activity status of the person at the time of leaving the last upr i.e. at the time of migration, the reference period to be adopted will be 365 days preceding the date of migration. The determination of the usual activity status will be done adopting the 'relatively long time criterion' as described in para 5.0.15. The usual activity status will naturally relate to the principal status. After determining the 'usual status' of the person the code relevant to the status assigned will be recorded here. The code structure is the same as given in para 5.5.1.2.

Value	Label	Cases	Percentage
11	Own account worker	5846	3.8%
12	Employer	171	0.1%

### #33 B4\_q19: NIC code 2dgt at migration

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=35093 /-] [Invalid=0 /-]
<b>Pre-question</b>	Columns (14) to (20) will be filled in only for those persons whose place of enumeration is different from the place of last upr (i.e., for those with code 1 recorded in col. 13).

## File Block4-sch10-persons-demographic-migration-records

### #33 B4\_q19: NIC code 2dgt at migration

<b>Literal question</b>	Industry division (2 digit NIC 1998)
<b>Post-question</b>	If code not =1 in Q13 then skip Q14 to 20
<b>Interviewer's instructions</b>	For the persons assigned any of the activity status codes 11-51 in col. 18 (i.e., those categorised working), the appropriate industry division code (2 digit NIC 1998) will be recorded in this column. The column will be left blank if entry in col. 18 is any one of 81-97.

*Frequency table not shown (62 Modalities)*

### #34 B4\_q20: Reason migration

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=155327 /-] [Invalid=0 /-]
<b>Pre-question</b>	Columns (14) to (20) will be filled in only for those persons whose place of enumeration is different from the place of last upr (i.e., for those with code 1 recorded in col. 13).
<b>Post-question</b>	If code not =1 in Q13 then skip Q14 to 20
<b>Interviewer's instructions</b>	For each person who had changed the last upr, the reason for doing so will be ascertained and recorded in terms of codes in this column. Only the reason for leaving the last upr (i.e., the one immediately before coming to the place of enumeration) will be considered. See instruction manual-Chapter 5 for more details.

### #19 B51\_q3: Principal acty status

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=595529 /-] [Invalid=0 /-]

**Literal question** Principal usual activity status

**Interviewer's instructions** For each of the members, the principal usual activity status will be recorded in this column. In the first instance the broad principal usual activity of the person will be identified based on the various activities pursued by the person during the reference period of last 365 days adopting a 'relatively long time (or major time)' criterion, not necessarily for a continuous period. The broad principal usual activity status will be one of the three categories viz. 'employed' (working), 'unemployed' (available for work) or 'not in labour force' (neither working nor available

## File Block51-sch10-Persons-usual-principal-activity-Records

### #19 B51\_q3: Principal acty status

for work). It is to be noted that in deciding this, only the normal working hours available for pursuing various activities need be considered, and not the 24 hours of a day. Identification of this broad usual status category is explained below. The broad principal usual activity status will be obtained on the basis of a two stage dichotomous classification depending on the major time spent. Persons will be classified in the first stage into (i) those who are engaged in any economic activity (i.e. employed) and / or available for any economic activity (i.e. unemployed) and (ii) who are not engaged and also not available for any economic activity (i.e. not in labour force). Thus, the persons will be first classified as those in the labour force and those not in the labour force depending on in which of these two statuses the person spent major part of the year. In the second stage, those who are found in the labour force will be further classified into working (i.e., engaged in economic activity or employed) and seeking and/or available for work (i.e. unemployed) based on the major time spent. Thus, we can obtain the broad principal usual status as one of the three viz. employed, unemployed and out of labour force.

Value	Label	Cases	Percentage
11	Worked in hh. enterprise (self-employed) as own account worker	70375	11.8%
12	Worked in hh. enterprise (self-employed) as employer	2589	0.4%

### #29 B51\_q14: Workd under specification

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=112984 /-] [Invalid=0 /-]
<b>Pre-question</b>	If code 11, 12 or 21 in col. 3 ask this question.

## File Block51-sch10-Persons-usual-principal-activity-Records

### #29 B51\_q14: Workd under specification

<b>Literal question</b>	Whether worked under given specifications
<b>Post-question</b>	Entries col. 5? if 10 to 99 skip to Q.19
<b>Interviewer's instructions</b>	It is to be ascertained whether in relation to the activity recorded in col. 3, the person carried out the production (i.e., goods and services) on the basis of given or laid product-specifications of the 'employer' (see para 5.0.8 (i) for definition of 'employer'). When a person procures the order/contract from the 'employer' for his or her household enterprise to supply goods, normally an implicit or explicit specification of the product, written or oral, is laid by the 'employer'. Some times, the whole activity is carried out under the specifications of the 'employer', or a part under the specifications of the 'employer' and rest of his own specification. The appropriate situation is to be ascertained and be recorded in codes. Note that most of the self-employed carry out activities on their own specification and for all the customers. They will get code 4.

Value	Label	Cases	Percentage
0	Not applicable	71497	63.3%
1	Yes: wholly	6338	5.6%
2	Yes:Mainly	1910	1.7%

### #30 B51\_q15: Who provided credit etc

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=8248 /-] [Invalid=0 /-]
<b>Pre-question</b>	If code 11, 12 or 21 in col. 3 and code 1 or 2 in col. 14. ask this question.
<b>Literal question</b>	Who provided credit / raw material / equipment
<b>Post-question</b>	Entries col. 5? if 10 to 99 skip to Q.19
<b>Interviewer's instructions</b>	Three questions are integrated under this column: credit, raw material and equipment. A composite code structure has been provided for recording the entries under col.15. It is to be ascertained from the self-employed persons whether the 'employer' (enterprise) who gives product-specifications (in terms of the order/contract) also provides credit/raw material/equipment to them. Here, 'credit' means cash advance for a particular order or a group of orders and for working capital only (i.e. for purchase of raw material and meeting other running expenses). However, credit provided for purchase of equipment will not be considered as 'credit' and instead will be considered as 'provided for equipments'.

Value	Label	Cases	Percentage
0	Not applicable	388	4.7%
1	Own arrangement	3566	43.2%
2	Provided by the enterprise: credit only	271	3.3%
3	Raw material only	3087	37.4%
4	Equipments only	81	1.0%
5	Credit and raw material only	427	5.2%
6	Credit and equipment only	13	0.2%
7	Raw material and equipment only	214	2.6%
8	Credit, raw material and equipment	114	1.4%
9	Not known	87	1.1%

### #31 B51\_q16: No of outlets

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=8248 /-] [Invalid=0 /-]

## File Block51-sch10-Persons-usual-principal-activity-Records

### #31 B51\_q16: No of outlets

<b>Pre-question</b>	If code 11, 12 or 21 in col. 3 and code 1 or 2 in col. 14. ask this question.
<b>Literal question</b>	No. of outlets of disposal
<b>Post-question</b>	Entries col. 5? if 10 to 99 skip to Q.19
<b>Interviewer's instructions</b>	Here, the outlet means the 'employer' for whom the self-employed is working. There may be cases where the self-employed may be working under the specifications of more than one 'employers'. Appropriate code depending upon the cases may be recorded.

Value	Label	Cases	Percentage
0	Not applicable	510	6.2%
1	One outlet	5041	61.1%
2	Two outlets	259	3.1%
3	Three or more outlets	1620	19.6%
9	Not known	818	9.9%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #32 B51\_q17: Payment basis

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=8248 /-] [Invalid=0 /-]
<b>Pre-question</b>	If code 11, 12 or 21 in col. 3 and code 1 or 2 in col. 14. ask this question.
<b>Literal question</b>	Basis of payment
<b>Post-question</b>	Entries col. 5? if 10 to 99 skip to Q.19
<b>Interviewer's instructions</b>	In most cases, the payment received for the work done on order/contract is on the basis of piece rate. For those cases, code 1 will be recorded, otherwise code 2.

Value	Label	Cases	Percentage
0	Not applicable	553	6.7%
1	Piece rate	5437	65.9%
2	Contract rate	2258	27.4%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #33 B51\_q18: Type of specification

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=8248 /-] [Invalid=0 /-]
<b>Pre-question</b>	If code 11, 12 or 21 in col. 3 and code 1 or 2 in col. 14. ask this question.
<b>Literal question</b>	Type of specifications
<b>Post-question</b>	Entries col. 5? if 10 to 99 skip to Q.19
<b>Interviewer's instructions</b>	The specifications laid by the 'employer' may be written one or oral and accordingly, code 1 or 2 will be recorded

Value	Label	Cases	Percentage
0	Not applicable	546	6.6%
1	Written	1104	13.4%
2	Oral	6282	76.2%
9	Not known	316	3.8%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #34 B51\_q19: Skill possessed

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
--------------------	---

## File Block51-sch10-Persons-usual-principal-activity-Records

### #34 B51\_q19: Skill possessed

<b>Statistics [NW/ W]</b>	[Valid=186881 /-] [Invalid=0 /-]
<b>Pre-question</b>	If Age 15 + with codes 81-97 in col. 3 ask this question.
<b>Literal question</b>	For persons of age 15 years and above (15+) having codes 81-97 in col.3, skill possessed
<b>Post-question</b>	If Age (Q.2) is less than 15 skip
<b>Interviewer's instructions</b>	For the persons of age 15 years and above and not 'working' as per the usual principal status i.e. those of age 15 + with codes 81-97 in col. 3, the information as to whether the person has acquired any of the listed skills as on the date of survey is to be recorded in this column. Skill is defined as any marketable expertise. It is neither necessary that such a skill is acquired in any formal manner nor that the person is actually marketing it or intends to market it. When a person has acquired skill in more than one of the listed skills, the skill in which the person is more proficient will be considered. Skill will be recorded irrespective of the level of general and technical education.

*Frequency table not shown (43 Modalities)*

### #35 B51\_q20: Period seeking work

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=589142 /-] [Invalid=0 /-]
<b>Literal question</b>	For codes other than 81 in column (3), period of seeking/availability for work for some period during last 365 days:
<b>Interviewer's instructions</b>	The principal usual activity status of each person is recorded in column (3). It is to be ascertained from persons whose principal usual activity status was - either employed (codes 11-51) or out of labour force (codes 91-97) - i.e., other than code 81 in column (3), whether they were seeking/available for work for some period during last 365 days or not. For example, a person may be employed in his/her principal usual activity status based on the majority time criterion. But he/she may have been looking for work for some period. Similarly, a girl may have been looking for job for sometime but subsequently got married and was engaged in the domestic duties. The latter activity might have been pursued for a relatively longer period. In all such cases, one of the codes 1 to 3 will be given in column (20), depending on the period (not necessarily continuous) they were seeking/available for work. If a person was not seeking or available for work any time during the preceding 365 days, the appropriate code will be 4.

Value	Label	Cases	Percentage

Value	Label	Cases	Percentage
9	Not known	75	2.1%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #25 B52\_q9: Keep acnts?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=3622 /-] [Invalid=0 /-]
<b>Pre-question</b>	If code 11, 12 or 21 in col. 3 ask this question.
<b>Literal question</b>	Whether keeps written accounts (yes -1, no -2, not known -9)
<b>Post-question</b>	Check entries col. 5? if 10 to 99 skip to Q.17
<b>Interviewer's instructions</b>	Whether the unit keeps accounts or not is to be ascertained and recorded in terms of code. If the accounts are available and also usable then code 1 will be recorded, otherwise code 2 will be recorded. Generally, the owners do keep some records for their own use. But these are very haphazardly maintained and are not usable for accounting purpose. In such cases, the code against this item will be 2. In case the informant is not able to provide information in this respect, code 9 will be recorded.

Value	Label	Cases	Percentage
0	Not applicable	424	11.7%
1	Yes	306	8.4%
2	No	2642	72.9%
9	Not known	250	6.9%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #26 B52\_q10: Workers? (code)

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=3622 /-] [Invalid=0 /-]
<b>Pre-question</b>	If code 11, 12 or 21 in col. 3 ask this question.
<b>Literal question</b>	Number of workers
<b>Post-question</b>	Check entries col. 5? if 10 to 99 skip to Q.17
<b>Interviewer's instructions</b>	This number would mean the average number of workers employed on a day of operation irrespective of whether they are hired, household, paid or unpaid, who are involved in the production process irrespective of age and sex will be considered for this item. The number of workers will be recorded in terms of codes

Value	Label	Cases	Percentage
0	Not applicable	444	12.3%
1	Less than 6	2718	75.0%
2	6 to 9	142	3.9%

4	20 & above	99	2.7%
9	Not known	137	3.8%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #27 B52\_q11: Use electricity?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=1574 /-] [Invalid=0 /-]
<b>Pre-question</b>	If code 11, 12 or 21 in col. 3 ask this question.
<b>Literal question</b>	Whether uses electricity for manufacturing (yes -1, no -2, not known -9)
<b>Post-question</b>	Check entries col. 5? if 10 to 99 skip to Q.17

## File Block52-sch10-Persons-subsiary-activity-Records

### #27 B52\_q11: Use electricity?

<b>Interviewer's instructions</b>	This item will be collected only for persons working in manufacturing enterprises (i.e., for those with industry divisions 15 to 37 as per NIC 1998).The information as to whether the enterprise in which the person works, uses electricity for manufacturing purposes or not is to be recorded here. It may be mentioned here that use of electricity exclusively for purposes other than manufacturing/production like, for comfort, security, illumination, etc., will be assigned code 2. If the informant is unable to reply, code 9 will be recorded.
-----------------------------------	---

Value	Label	Cases	Percentage
0	Not applicable	106	6.7%
1	Yes	147	9.3%
2	No	1255	79.7%
9	Not known	66	4.2%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #28 B52\_q12: Work specifications?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=16448 /-] [Invalid=0 /-]
<b>Pre-question</b>	If code 11, 12 or 21 in col. 3 ask this question.
<b>Literal question</b>	Whether worked under given specifications
<b>Post-question</b>	Check entries col. 5? if 10 to 99 skip to Q.17
<b>Interviewer's instructions</b>	It is to be ascertained whether in relation to the activity recorded in col. 3, the person carried out the production (i.e., goods and services) on the basis of given or laid product-specifications of the 'employer' (see para 5.0.8 (i) for definition of 'employer'). When a person procures the order/contract from the 'employer' for his or her household enterprise to supply goods, normally an implicit or explicit specification of the product, written or oral, is laid by the 'employer'. Some times, the whole activity is carried out under the specifications of the 'employer', or a part under the specifications of the 'employer' and rest of his own specification. The appropriate situation is to be ascertained and be recorded in codes. Note that most of the self-employed carry out activities on their own specification and for all the

4	No	1580	9.6%
9	Not known	53	0.3%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #29 B52\_q13: Who provide credit etc?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=638 /-] [Invalid=0 /-]
<b>Pre-question</b>	If code 11, 12 or 21 in col. 3 and code 1 or 2 in col. 12. ask this question.
<b>Literal question</b>	Who provided credit / raw material / equipment
<b>Interviewer's instructions</b>	Three questions are integrated under this column: credit, raw material and equipment. A composite code structure has been provided for recording the entries under col.13. It is to be ascertained from the self-employed persons whether the 'employer' (enterprise) who gives product-specifications (in terms of the order/contract) also provides credit/raw material/equipment to them. Here, 'credit' means cash advance for a particular order or a group of orders and for working capital only (i.e. for purchase of raw material and meeting other running expenses). However, credit provided for purchase of equipment will not be considered as 'credit' and instead will be

Value	Label	Cases	Percentage

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=700932 /-] [Invalid=0 /-]
<b>Interviewer's instructions</b>	In columns (1) of this block, serial number of each person recorded in columns (1) of block 4, will be copied. The serial numbers in block 5.3 will be entered sequentially as they appear in col. (1) of block 4. Provision have been made to record particulars of five persons in one page.

### #19 B53\_q2: Age (years)

<b>Information</b>	[Type= continuous] [Format=numeric] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=700445 /-] [Invalid=487 /-]
<b>Interviewer's instructions</b>	In columns (2) of this block, age of each person recorded in columns (5) of block 4, will be copied.

### #20 B53\_q3: Activity slno

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=700932 /-] [Invalid=0 /-]
<b>Literal question</b>	Serial no. of activity
<b>Interviewer's instructions</b>	For each persons listed in column (1) of this block (which will be same as listed in column (1) of block 4) the different activities pursued by them during all the seven days of the reference week will be serially numbered and this serial number of activity will be recorded in column (3). Presuming that the likelihood of one person pursuing more than four different activities in a week is rather remote, only four lines are provided for each person. As stated earlier, if a person pursue more than four different activities, the lines meant for the next person may be utilised. The current activity of a person in the rural areas is denoted by his status-cum-industry-cum-operation. Thus for a person with the same status, if the industry (at the tabulation category level) or operation are different on the same or different days, he will be considered to have pursued different activities and these activities will be entered in different lines. Similarly, for the urban areas the current activity of a person is denoted by his status-cum-industry. Thus, if a person in urban areas ploughs his own field in the first half of the day and sows in the second half of the day he will be considered to have only one activity during the day. But for rural areas, he will be considered to have two activities.

### #22 B53\_q5: Acty industry division

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
--------------------	---

## File Block53-sch10-Persons-daily-activity-time-disposition-Records

### #22 B53\_q5: Acty industry division

<b>Statistics [NW/ W]</b>	[Valid=260006 /-] [Invalid=0 /-]
<b>Literal question</b>	Industry (division):
<b>Interviewer's instructions</b>	For each status code grouped under the activity category 'working' (i.e., for the status codes 11-72 recorded in column 4), the sector of activity in two digit code i.e., the industry division (NIC 1998) will be entered in column (5) in terms of the specified code numbers.
<i>Frequency table not shown (60 Modalities)</i>	

### #23 B53\_q6: Type of opern(rural)

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=169845 /-] [Invalid=0 /-]
<b>Literal question</b>	Operation code (for rural only)
<b>Interviewer's instructions</b>	: This column will be filled in for persons belonging to the rural households only. The actual working operation performed by the persons relevant to the status codes grouped under the activity category working (i.e., status codes 11-72) will be entered in terms of code numbers in this column. It may be noted that for regular salaried/ wage employees on leave or holiday the 'operation' will relate to their respective function in the work or job from which he is temporarily off in view of his taking leave or holiday. Similarly for persons categorised 'self-employed' (status codes 11, 12 & 21) if they are not at work on a particular day inspite of their having work on that day, operation to be recorded will relate to the work they would have done if they had not enjoyed leisure on that day.

Value	Label	Cases	Percentage
01	Ploughing	8809	5.2%
02	Sowing	4468	2.6%
03	Transplanting	4531	2.7%
04	Weeding	10437	6.1%
05	Harvesting	19085	11.2%
06	Other cultivation activities	39674	23.4%
07	Forestry	827	0.5%
08	Plantation	3003	1.8%
09	Animal husbandry	10730	6.3%
10	Fisheries	579	0.3%
11	Other agricultural activities	18117	10.7%
12	Manual work in non-agricultural activities	21884	12.9%
13	Cultivation	2920	1.7%
14	Activities other than cultivation	24781	14.6%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #24 B53\_q14: Intensity acty total days(0.0)

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0.5-7] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=700932 /-] [Invalid=0 /-] [Mean=5.959 /-] [StdDev=1.888 /-]
<b>Literal question</b>	Total number of days in each activity
<b>Interviewer's instructions</b>	The number of days for which a particular activity was pursued during the seven day, i.e., the total of columns (7) - (13) will be recorded in one place of decimal in column (14) separately for each activity listed in column (3). It may be noted that the total number of days for all the activities taken together should always be 7.0 for each individual entered in column (1).

### #25 B53\_q15: Earning cash(Rs)

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-311041] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=100776 /-] [Invalid=600156 /-] [Mean=559.622 /-] [StdDev=1250.056 /-]

<b>File Block53-sch10-Persons-daily-activity-time-disposition-Records</b>	
<b>#25 B53_q15: Earning cash(Rs)</b>	
<b>Literal question</b>	Wage earnings (received or receivable) for the work done during the week (Rs):
<b>Interviewer's instructions</b>	The wage and salary earnings (not total earnings) receivable for the wage/salaried work done during the reference week, separately for each of the relevant activities pursued by each person, will be recorded in these columns. The relevant status codes for which wages & salary earnings are to be recorded are 31, 41, 51, 71 and 72. The wages and salaries receivable for the work done during the reference week may be already received or may still be due to be received in cash or in kind or partly in case and partly in kind. The total wage or salary receivable for the week in cash will be recorded in column (15) and the value (evaluated at the current retail price) of salary or wages in kind receivable for the week will be recorded in column (16). The total of columns (15) and (16) will be entered in column (17). The entries for all these columns will be made in whole rupees. For recording the wages or salaries, amount receivable as 'over time' for the additional work done beyond normal working time will be included. Bonus (expected or paid) and perquisites evaluated at retail prices duly apportioned for the reference week, will be considered as wages and included for making entries in these columns. For the activity status '71' and '72', the amount receivable for the week will be worked out on the basis of the number of days reported under the activity during the week.
<b>#26 B53_q16: Earning kind(Rs)</b>	
<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-8750] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=18767 /-] [Invalid=682165 /-] [Mean=93.075 /-] [StdDev=145.912 /-]
<b>Literal question</b>	Salary earnings (received or receivable) for the work done during the week (Rs):
<b>Interviewer's instructions</b>	Details in Q.15
<b>#27 B53_q17: Total earnings-recvd (Rs)</b>	
<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-311070] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=104296 /-] [Invalid=596636 /-] [Mean=557.483 /-] [StdDev=1231.737 /-]
<b>Literal question</b>	Total Wgae/Salary earnings (received or receivable) for the work done during the week (Rs):
<b>Interviewer's instructions</b>	Details in Q.15
<b>#28 B53_q18: Mode payment</b>	
<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=95415 /-] [Invalid=0 /-]
<b>Literal question</b>	Mode of payment
<b>Interviewer's instructions</b>	The relevant status codes for which this item will be filled in are 31, 41, 51, 71, and 72. The mode of payment made by the employer will be recorded in this column in terms of codes.
<i>Frequency table not shown (31 Modalities)</i>	
<b>#29 B53_q19: Nominal wrk days</b>	
<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-7] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=700932 /-] [Invalid=0 /-]
<b>Literal question</b>	Total number of days with nominal work
<b>Interviewer's instructions</b>	Some of the persons reporting days with half intensity of work might have had work only for say, 1-2 hours on certain days out of them. Such days would be considered as days with nominal work. For each person, total number of days out of the 7 days reference period with only nominal work would be recorded in this column against the relevant person.
<b>#30 B53_q20: Weekly acty status</b>	
<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=700932 /-] [Invalid=0 /-]
<b>Literal question</b>	Current weekly status (codes)

## File Block53-sch10-Persons-daily-activity-time-disposition-Records

### #30 B53\_q20: Weekly acty status

**Interviewer's instructions** Based on the activity statuses obtaining for a person on the seven days of the reference week, the current weekly status is to be identified and the status code so obtained is to be recorded here

Value	Label	Cases	Percentage
11	Worked in hh. enterprise (self-employed) as own account worker	98189	14.0%

<b>Statistics [NW/ W]</b>	[Valid=58602 /-] [Invalid=0 /-]
<b>Literal question</b>	subsidiary activity status1
<b>Interviewer's instructions</b>	see Q3 for details

Value	Label	Cases	Percentage
11	Worked in hh. enterprise (self-employed) as own account worker	22719	38.8%
12	Worked in hh. enterprise (self-employed) as employer	1017	1.7%

## File Block71-sch10-Persons-availability-for-work-Records

### #20 B71\_q4: sub acty status1

Value	Label	Cases	Percentage
21	Worked as helper in hh. enterprises (unpaid family worker)	22353	38.1%
31	worked as regular salaried/wage employee	639	1.1%
41	Worked as casual wage labour : in public works	294	0.5%
51	In other types of work	11580	19.8%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #21 B71\_q5: Full/part time?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=225345 /-] [Invalid=0 /-]
<b>Literal question</b>	Whether engaged mostly in full time or part time work during last 365 days
<b>Interviewer's instructions</b>	In column (5) it will be ascertained if the person was engaged mostly in full time work or part time work during last 365 days. Those who are mostly engaged in full time work will be given code 1 and those who are mostly engaged in part time work will be given code 2.

Value	Label	Cases	Percentage
1	Full time	204922	90.9%
2	Part time	20414	9.1%
9	Invalid	9	0.0%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #22 B71\_q6: Work regularly?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=225251 /-] [Invalid=0 /-]
<b>Literal question</b>	Whether worked more or less regularly during last 365 days (yes -1, no-2):
<b>Interviewer's instructions</b>	According to the principal usual status approach, the broad activities category has been determined on the basis of the major time criterion. Thus, the persons who are 'employed' in their principal status may or may not be employed throughout the last 365 days. By virtue of the procedure adopted for classification of activity statuses it is possible that some of them were not employed for considerable length of time. In the case of those who were employed only in the subsidiary status this will be the situation most often. Thus, this item will be filled in for both principal and subsidiary status employed. Those who have worked more or less regularly during the reference year will be given code 1. Others will be given code 2.

Value	Label	Cases	Percentage
1	Yes	202394	89.9%
2	No	22820	10.1%
9	Invalid	37	0.0%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #23 B71\_q7: No of months without work

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-11] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=127868 /-] [Invalid=99934 /-]
<b>Literal question</b>	Approximate no. of months without work (months)
<b>Interviewer's instructions</b>	Column (7) will be filled in for all the members listed in this block irrespective of whether or not they have worked more or less regularly during the reference year i.e., irrespective of the entry in col. (6). This is contrary to the earlier round where information relating to this column was collected only for persons who did not work more or less regularly during the reference year. In column (7), the number of months a person was without work will be recorded. The months without work need not be continuous. It is quite possible that a person was without any work for a couple of months, then in employment for some months and again out of work for a couple of months. The total of all the months out of work will include months in which person was unemployed and also months in which he/she was out of labour force i.e. neither seeking/available for work. The actual number of months will be recorded. Part of month will be rounded off to the nearest month. Hence, if the period without work is reported

## File Block71-sch10-Persons-availability-for-work-Records

### #23 B71\_q7: No of months without work

to be less than 30 days but 15 days or more, it should be recorded as 1 (month). Note that some of those who have reported to have worked more or less regularly during the reference year, i.e. code 1 in col. (6), after deep probing, may be found to be without work for some months. For such persons also, number of months without work will be recorded in col. (7) and entry in col. (6) should not be changed.

### #24 B71\_q8: Sought work?

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=54735 /-] [Invalid=0 /-]

**Literal question** If entry <sup>3</sup> 1 in col. 7, whether sought/available for work during those months:

**Interviewer's instructions** Column (8) will be filled in for entry greater than or equal to 1 in col. (7).

Value	Label	Cases	Percentage
1	On most days	22360	40.9%
2	On some days	15478	28.3%
3	No	16874	30.8%
9	Invalid	23	0.0%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #25 B71\_q9: Made effort?

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=38614 /-] [Invalid=0 /-]

**Literal question** If code 1 or 2 in col. 8, whether made any efforts to get work:

**Interviewer's instructions** For those who were not at work for some months and sought or were available for work on most or some days of those months, the efforts made by them to get work, viz. whether they registered in the employment exchange, or made other efforts, will be recorded here. Relevant codes to be entered

Value	Label	Cases	Percentage
1	Yes,Registered in employment exchange	1060	2.7%
2	Yes,Made other efforts	24054	62.3%
3	No efforts	13464	34.9%
9	Invalid	36	0.1%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #26 B71\_q10: Sought addl work

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=227802 /-] [Invalid=0 /-]

**Literal question** Whether sought/available for additional work during the days he/she had work

**Interviewer's instructions** As already mentioned in the column heading, the time reference to record whether the person was seeking/available for additional work will be that period of last 365 days during which the person was employed. Thus for a person whose principal usual status is unemployed but had subsidiary work for a relatively short period, the availability for additional work will refer only to the short period he/she was working. This criterion will be applicable to column (12) also

Value	Label	Cases	Percentage
1	Yes,On most days	6494	2.9%
2	Yes,On some days	10367	4.6%
3	No	210941	92.6%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

## File Block71-sch10-Persons-availability-for-work-Records

### #27 B71\_q11: Reason addl work

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=16281 /-] [Invalid=0 /-]
<b>Literal question</b>	If code 1 or 2 in col. (10), reason
<b>Interviewer's instructions</b>	The reason for seeking/available for additional work will be entered in this column in terms of codes

Value	Label	Cases	Percentage
1	To supplement income	9014	55.4%
2	Not enough work	3171	19.5%
3	Both	3615	22.2%
9	Invalid	481	3.0%

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=227802 /-] [Invalid=0 /-]

**Universe** Applicable for codes 11-51 in col. 3 of bl. 5.1 or 5.2

**Literal question** Person serial no

**Interviewer's instructions** This block will be filled in only for those who are employed either in the principal status or subsidiary status (i.e. codes 11-51 in col. 3 of block 5.1 or 5.2). The serial number and age of such persons only will be recorded here.

## File Block72-sch10-Persons-change-of-work-Records

### #17 B72\_q1: Person serial no

Since these persons have already been listed in block 7.1, these may be copied also from block 7.1 in the same order in columns (1) and (2), respectively.

### #18 B72\_q2: Age (in years)

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 5-99] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=227799 /-] [Invalid=3 /-] [Mean=35.983 /-] [StdDev=13.644 /-]
<b>Literal question</b>	Age (in years)
<b>Interviewer's instructions</b>	See Q.1 for details

### #19 B72\_q3: Principal Acty status

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=227802 /-] [Invalid=0 /-]
<b>Literal question</b>	Usual principal Activity status
<b>Interviewer's instructions</b>	The principal activity status and subsidiary activity status (subs. activity I) will be copied from column (3) and column (4) of block 7.1 to columns (3) and (4), respectively in block 7.2, for each of the persons listed in this block.

Value	Label	Cases	Percentage
11	Worked in hh. enterprise (self-employed) as own account worker	70483	30.9%
12	Worked in hh. enterprise (self-employed) as employer	2597	1.1%
21	Worked as helper in hh. enterprises (unpaid family worker)	40026	17.6%
31	worked as regular salaried/wage employee	42119	18.5%
41	Worked as casual wage labour : in public works	615	0.3%
51	In other types of work	54292	23.8%
81	Did not work but was seeking and/or available for work	781	0.3%
91	Attended educational institutions	1726	0.8%
92	Attended domestic duties only	5463	2.4%
93	Attended domestic duties and engaged in free collection of goods for hh. use	8850	3.9%
94	Rentiers, pensioners, remittance recipients, etc.	335	0.1%
95	Not able to work due to disability	27	0.0%
96	Beggars, prostitutes	10	0.0%
97	Others	478	0.2%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #20 B72\_q4: Sub Acty status 1

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=58602 /-] [Invalid=0 /-]
<b>Literal question</b>	Usual subsidiary Activity status-1
<b>Interviewer's instructions</b>	See Q.5 for details

Value	Label	Cases	Percentage
11	Worked in hh. enterprise (self-employed) as own account worker	22719	38.8%
12	Worked in hh. enterprise (self-employed) as employer	1017	1.7%
21	Worked as helper in hh. enterprises (unpaid family worker)	22353	38.1%

## File Block72-sch10-Persons-change-of-work-Records

### #20 B72\_q4: Sub Acty status 1

Value	Label	Cases	Percentage
31	worked as regular salaried/wage employee	639	1.1%
41	Worked as casual wage labour : in public works	294	0.5%
51	In other types of work	11580	19.8%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #21 B72\_q5: Any union/association?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=227795 /-] [Invalid=0 /-]
<b>Literal question</b>	Is there any union/association in your activity?
<b>Interviewer's instructions</b>	Union/association will mean any registered/recognised body whose membership is open to a section of those engaged in a specific activity or trade and whose main objective is to look into the interests of its members. 'Trade' here refers to any occupation under the usual statuses 11-51. Thus besides the usual trade unions, association of owners, self-employed persons, etc. will also be covered. The union/association sometimes may be a large body like a factory union looking after the welfare of different types/levels of workers. Depending on the respondents reply, codes 1, 2 or 3 will be recorded in this column. It is to be noted that even if a self-employed person is aware of an association which looks after the interests of those of his kind, the answer to the question will be 'no' (code-2) if the membership of such an association is not open to him or the association does not cover the locality where he/she runs the enterprise. It is possible that some of the self-employed persons are not aware of the existence of any association of the kind described above relating to his trade. In such cases, code 9 will be entered in column (5).

Value	Label	Cases	Percentage
1	Yes	43171	19.0%
2	No	172867	75.9%
9	Not known	11757	5.2%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #22 B72\_q6: Member union/association?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=43171 /-] [Invalid=0 /-]
<b>Literal question</b>	If 'yes' (code 1) in col.(5), whether a member of union/association
<b>Interviewer's instructions</b>	If the respondent reports that a union/association exists in his activity, it is to be ascertained if he/she is a member of that union/association, code 1 or 2 will be recorded accordingly.

Value	Label	Cases	Percentage
1	Yes	28155	65.2%
2	No	15016	34.8%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #23 B72\_q7: Nature employment

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=221883 /-] [Invalid=0 /-]
<b>Literal question</b>	For activity status codes 11-51 in col.(3) or (4)- Nature of employment
<b>Interviewer's instructions</b>	In column (7), the nature of employment (i.e., whether permanent or temporary) will be recorded in terms of code. Nature of employment will be considered as permanent if the person is in normal course likely to continue in the same employment. Code 1 or 2 will be given if the employment is permanent or temporary respectively.

Value	Label	Cases	Percentage
1	Permanent	152439	68.7%
2	Temporary	69345	31.3%
9	Invalid	99	0.0%

## File Block72-sch10-Persons-change-of-work-Records

### #23 B72\_q7: Nature employment

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #24 B72\_q8: Covered provident fund

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=218210 /-] [Invalid=0 /-]
<b>Literal question</b>	For activity status codes 11-51 in col.(3) or (4)- Whether covered under Provident Fund
<b>Interviewer's instructions</b>	It will be ascertained from the regular wage/salaried employees whether they are covered under any Provident Fund or not.

Value	Label	Cases	Percentage
1	Yes: GPF	16209	7.4%
2	Yes:CPF	4399	2.0%
3	Yes: PPF	2048	0.9%
4	Yes: combination of GPF CPF or PPF	2579	1.2%
5	No	192975	88.4%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #25 B72\_q9: Changed acty status

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=227802 /-] [Invalid=0 /-]
<b>Pre-question</b>	Check Q.3 for codes 11:51. If yes ask questions from 9 to 16
<b>Literal question</b>	Whether during last 2 years changed - work activity status, industry, occupation and establishment along with the earlier position:
<b>Post-question</b>	Check Q.3 for codes 11:51. If NO skip
<b>Interviewer's instructions</b>	: It will be ascertained whether or not the person has changed his/her usual principal work activity status (i.e. work statuses 11-51) during the last 2 years. Code 1 will be assigned if he has changed the work status and code 2 if not. For persons with code 1 in col. 9, that is, those reporting a change in work status, the last usual principal work activity status prior to this change will be recorded in col. 10. The codes applicable in col. 10 are any of 11 to 51 only. (The detailed code structure is given for col. 3, block 5.1). Note that during the last 2 years, if a person was initially unemployed or out of labour force and he/she is employed now according to usual principal status, then he/she will not be considered to have changed his/her activity status as the work activity status did not change. It is quite possible that during the period in between the changes in the work activity status, a person was unemployed or out of labour force. Such a person will be considered to have changed his/her work activity status and code 1 will be recorded here. In the case of more than one change in work statuses, the work status prior to the last change will be recorded in col. (10).

Value	Label	Cases	Percentage
1	Yes	1155	0.5%
2	No	226647	99.5%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #26 B72\_q10: Last acty status

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=1155 /-] [Invalid=0 /-]
<b>Literal question</b>	if status changed, last activity status
<b>Post-question</b>	Check Q.3 for codes 11:51. If NO skip
<b>Interviewer's instructions</b>	See Q.9 above for details

Value	Label	Cases	Percentage
11	Worked in hh. enterprise (self-employed) as own account worker	279	24.2%

## File Block72-sch10-Persons-change-of-work-Records

### #26 B72\_q10: Last acty status

Value	Label	Cases	Percentage
12	Worked in hh. enterprise (self-employed) as employer	6	0.5%
21	Worked as helper in hh. enterprises (unpaid family worker)	146	12.6%
31	worked as regular salaried/wage employee	314	27.2%
41	Worked as casual wage labour : in public works	30	2.6%
51	In other types of work	380	32.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #27 B72\_q11: Changed industry?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=227802 /-] [Invalid=0 /-]
<b>Literal question</b>	Whether during last 2 years changed - activity industry
<b>Post-question</b>	Check Q.3 for codes 11:51. If NO skip
<b>Interviewer's instructions</b>	Whether or not the person has changed his/her industry (2 digitd NIC-1998 code) of work during the last 2 years will be ascertained and code 1 or 2 will be assigned to the person for an affirmative reply or otherwise. For persons with code 1 in col. (11), that is, those reporting a change in industry, the last industry of work will be recorded in col. (12) in terms of 2 digitd NIC-1998 codes.

Value	Label	Cases	Percentage
1	Yes	1667	0.7%
2	No	226135	99.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #28 B72\_q12: Last industry-2digit

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=1674 /-] [Invalid=0 /-]
<b>Literal question</b>	if industry changed, last industry
<b>Post-question</b>	Check Q.3 for codes 11:51. If NO skip
<b>Interviewer's instructions</b>	see Q11 above for details

### #29 B72\_q13: Changed occupation?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=227802 /-] [Invalid=0 /-]
<b>Literal question</b>	Whether during last 2 years changed - occupation
<b>Post-question</b>	Check Q.3 for codes 11:51. If NO skip
<b>Interviewer's instructions</b>	Whether or not the person has changed his/her occupation during the last 2 years will be ascertained and code 1 or 2 will be assigned to the person for an affirmative reply or otherwise. For persons with code 1 in col. (13), that is, those reporting a change in occupation, the last occupation will be recorded in col. (14) in terms of 2 digitd NCO-1968 codes.

Value	Label	Cases	Percentage
1	Yes	1632	0.7%
2	No	226170	99.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #30 B72\_q14: Last occupation

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=1637 /-] [Invalid=0 /-]

## File Block72-sch10-Persons-change-of-work-Records

### #30 B72\_q14: Last occupation

<b>Literal question</b>	if changed occupation, last occupation
<b>Post-question</b>	Check Q.3 for codes 11:51. If NO skip
<b>Interviewer's instructions</b>	see Q13 above for details

### #31 B72\_q15: changed establishment?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=227802 /-] [Invalid=0 /-]
<b>Literal question</b>	Whether during last 2 years changed - work establishment ?:
<b>Post-question</b>	Check Q.3 for codes 11:51. If NO skip
<b>Interviewer's instructions</b>	For the workers in the usual principal status it will be asked whether they have changed their establishment (of work) or not during the last 2 years. The term establishment is used in a broad sense and will include all producing units including household enterprises. In this sense, a person changing from one government department or organisation to another on a routine transfer/promotion posting will not be considered as having changed establishment. However, if his nature of work has changed consequent to this, it will be considered as change of establishment. In case he/she has lost or quit the earlier job and taken up a fresh job in another department or organisation, it will be taken as a change in establishment. Those reporting a change in establishment will be assigned code 1 and others will be assigned code 2.

Value	Label	Cases	Percentage
1	Yes	10074	4.4%
2	No	217728	95.6%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #32 B72\_q16: Reason for change

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=2256 /-] [Invalid=0 /-]
<b>Literal question</b>	If 'yes' in col. 11 or 13, reason for last change
<b>Post-question</b>	Check Q.3 for codes 11:51. If NO skip
<b>Interviewer's instructions</b>	In this column, the reason for the last change will be recorded for those who have either changed their industry or occupation or both during the last 2 years i.e., those with codes 1 in col. (11) or (13) of this block.

Value	Label	Cases	Percentage
1	Retrenchment/lay-off	117	5.2%
2	Closure of unit	147	6.5%
3	For better income / remuneration	930	41.2%
4	No job satisfaction	125	5.5%
5	Lack of work in the enterprise	173	7.7%
6	Lack of job security	43	1.9%
7	Work place too far	55	2.4%
8	Promotion/transfer	30	1.3%
9	Others	636	28.2%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #37 Wgt: Multiplier Posted(0.00)

Information [Type= continuous] [Format=numeric] [Range= 7.06-587043.72] [Missing=\*]

Statistics [NW/ W] [Valid=819011 /-] [Invalid=0 /-] [Mean=12284.948 /-] [StdDev=12901.502 /-]

### #38 Wgt\_10\_10.1\_SR\_comb: Multiplier Sch 10 & 10.1 Subround combined(generated)

Information [Type= continuous] [Format=numeric] [Range= 2.35333333333333-221964.84] [Missing=\*]

Statistics [NW/ W] [Valid=819011 /-] [Invalid=0 /-] [Mean=4498.057 /-] [StdDev=5050.976 /-]

**Recoding and Derivation** Multipliers posted given against variable wgt are sub-round wise for each sub-round.(is in 2-place of decimal)  
Sub-round-specific combined multiplier are generated and given here (Wgt\_10\_10.1\_SR\_combined) to be used as weight for estimation in respect of Sch10 and 10.1 combined..  
Apply a common divisor of 4 to get average of 4 sub-rounds.

This weight variable is derived as follows:-  
Combined multiplier = Posted multiplier /SS replicate for 2nd stage stratum 1 or 2  
Combined multiplier = Posted multiplier for 2nd stage stratum 9 .

<b>#34 Wgt_10_10.1_SR_comb: Multiplier Sch 10 &amp; 10.1 Subround combined(generated)</b>	
<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 2.35333333333333-221964.84] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=960348 /-] [Invalid=1 /-] [Mean=4551.756 /-] [StdDev=5032.223 /-]
<b>Recoding and Derivation</b>	<p>Multipliers posted given against variable wgt are sub-round wise for each sub-round.(is in 2-place of decimal)  Sub-round-specific combined multiplier are generated and given here (Wgt_10_10.1_SR_combined) to be used as weight for estimation in respect of Sch10 and 10.1 combined..  Apply a common divisor of 4 to get average of 4 sub-rounds.</p> <p>This weight variable is derived as follows:-  Combined multiplier = Posted multiplier /SS replicate for 2nd stage stratum 1 or 2  Combined multiplier = Posted multiplier for 2nd stage stratum 9 .</p>
